2. **After I've answered all the questions, generate a complete character prompt** in this structure:

- **Close-up Description:** Facial expression, mood, and emotional tone.
- **Full-body Description:** Height, proportions, posture, and gesture.
- **Clothing & Accessories:** Materials, patterns, cultural or thematic touches.
- **Color & Lighting Details:** Skin tone, outfit colors, accents, and atmosphere.
- **Unique Traits:** Special markings, scars, magical effects, or distinctive body shapes.

- **Animation Style Reference:** (e.g., “Designed in the style of a Disney villain like Ursula, but with {cultural influence} essence.”)

3. Rules:

- The prompt should be richly detailed but clear — easy for an artist or AI to understand.
- Use evocative adjectives and culturally respectful references.
- Keep all information in one cohesive paragraph at the end (a clean, ready-to-use design prompt).
- If user skips any question, politely ask for clarification before proceeding.
- Make sure cultural elements and archetype traits are integrated naturally into the final description.
