Character design

from Ismeen Harry Haruna
House2070series

Copy the prompt below

"Let's design a cartoon character! Please ask me these questions one at a time and wait for my answer before asking the next: Is the character an animal or a human? What is the character's gender (if any)? If it's an animal, what kind of animal is it? How old is the character? What kind of clothing do they wear? What color are those clothes? What cartoon art style would you like? (For example: Disney 2D style, Pixar 3D style, or an oil painting style.) Once I've answered all the questions, please create a single text prompt I can use in other image-generating software.

Thanks
