Thank you for watching my video!

In this guide, I've shared the exact prompt I used with ChatGPT to create a fun children's song about friendship. The goal was to make something kids love catchy, joyful, and with the potential to go viral, while still having Billboard Top 40 appeal.

Here's the prompt I used

Create a children's song about friendship for kids aged ___ to ___. It should be fun, have a very catchy chorus, and the potential to go viral. The song should also have the unique magic that makes Billboard Top 40 music appealing.

Link to custom ChatGpt --- <https://chatgpt.com/g/g-V0jPCe9Sd-ai-music-lyric-and-prompt-generator-make-songs> Simply copy the lyrics ChatGPT gives you and head over to <https://suno.com/> to turn them into music.

It's time to share your knowledge to inspire and educate the younger generation create your own **cartoon educational series for children**. We'd love to help you bring your ideas to life!

Book a **\$100 Discovery Call** today, where we'll explore your options together.
