BI DESCRIPTIVE ANALYSIS SERVICE

INSIGHTS

01

Any business typically handles a large amount of data to track various aspects of performance. With this vast amount of data, it can become challenging to gain detailed insights or uncover relationships and patterns. Our Business Intelligence (BI) Descriptive Analysis service offers comprehensive insights and identifies relationships and patterns by creating various types of dashboards tailored to your specific needs to give you an answer for **(What is happening in my business?)**. These dashboards are interactive, feature a high level of design, and, most importantly, make it very easy to spot trends and patterns at your fingertips, helping businesses understand their data and make informed decisions. At MA Insights we provide three different types of Dashboards:

- **Management Dashboard**

- **Financial Dashboard**

BI DESCRIPTIVE ANALYSIS SERVICE

- **Custom Insight Dashboard**

A. MANAGEMENT DASHBOARD

OVERVIEW

It is a **comprehensive dashboard and monitoring tool for all aspects of the business across its departments in one place.** Offers quick, and extensive look into company performance through data analysis, aiding leaders, and managers in making evidence-based decisions, thus improving management efficiency, and achieving business goals effectively.

" KEY FEATURES "

- Advanced UX and UI design allow users to easily navigate across different business aspects and departments. Interactive dashboards with drill-down capabilities, advanced filtering and selection features, and high-end customizable layouts and designs enhance the user experience.

" BENEFITS "

- Deep business analysis insights lead to improved decision-making with accurate and enhanced visibility into key business metrics. This provides greater flexibility to analyze specific areas of interest, uncovering patterns and trends that are hard to detect.

B. FINANCIAL DASHBOARD

OVERVIEW

Comprehensive financial Dashboard shows overall performance and provides in-depth insights for the three main financial statements **(Income statements, cash flow statements, and balance sheets)** allow the financial and accounting departments to easily track even the smallest transactions.

" KEY FEATURES "

- Advanced UX and UI design allow users to easily navigate across different business aspects and departments. Interactive dashboards with drill-down capabilities, advanced filtering and selection features, and high-end customizable layouts and designs enhance the user experience

" BENEFITS "

- Clear financial health overview; enhanced financial planning and strategy; streamlined financial reporting

C. CUSTOM INSIGHT DASHBOARDS

OVERVIEW

we provide a wide range of Dashboards based on the clint request and business needs, with different level of details

" KEY FEATURES "

- Tailored dashboards and customizable metrics cover a wide range of business models for various departments **(sales, marketing, inventory, Customer, HR)**. Contact the sales team for a list of available models or if you need a unique model for your business.

" BENEFITS "

- Personalized insights for specific business needs; improved monitoring of critical metrics; enhanced data-driven decision-making.

ALL THE DASHBOARDS INCLUDE THE FOLLOWING FEATURES:

- ### SEAMLESS DATA INTEGRATION

ntegrates with existing data sources and databases, ensuring all necessary data is copied, cleaned, and prepared for the dashboard

- ### ONGOING SUPPORT AND MAINTENANCE

Free for the first 3 months, ensuring the implemented solutions remain effective and up to date.

- ### TRAINING SESSIONS

Provides training for up to 2 employees on how to use the dashboard effectively.

- **DETAILED DOCUMENTATION**

Comprehensive documentation covering every aspect of the dashboard and its usage.

USERS CAN INTEGRATE THE FOLLOWING ADDITIONAL FEATURES FOR AN EXTRA FEE

- **AUTOMATIC DASHBOARD REFRESH**

Allows the dashboard to instantly reflect any changes happening in the data sources.

- **USER ACCESS CONTROL**

Implements role-based access control to ensure data security and appropriate access levels for different users.

- **CUSTOM ALERTS AND NOTIFICATIONS**

Enables the setup of custom alerts and notifications for key metrics to stay informed of critical changes in the business.

- **MOBILE COMPATIBILITY**

Dashboards optimized for mobile devices, allowing users to access insights on the go.

- **REPORT GENERATION**

Configures the dashboard to enable users to generate reports directly based on their needs. These reports can be exported as Excel files or PDF files with visualizations

- **ADDITIONAL ONGOING SUPPORT AND MAINTENANCE**

Available after the initial three months to ensure continued performance and updates.

- **ADDITIONAL TRAINING SESSIONS**

Provided for the client's employees to enhance their proficiency in using the dashboard.

DIAGNOSTIC ANALYSIS SERVICE

MA INSIGHTS

02

OVERVIEW

Our Diagnostic Analysis service dives deep into your company's performance to uncover hidden issues or irregularities, whether positive or negative. For example, sales in a certain region might suddenly double, or the overall margin for a particular year might fall by 50% from expected values. We help answer the critical question: "**Why is this happening?**" Using advanced analytical methods, we identify anomalies and provide actionable insights to enhance your business operations and drive growth.

" KEY FEATURES "

- **Advanced Anomaly Detection Algorithms:** Employ sophisticated algorithms to detect unusual patterns and discrepancies.

- **Root Cause Analysis:** Identify the underlying causes of observed anomalies.

- **Detailed Investigation Reports:** Provide comprehensive reports with actionable insights.

- **User-Friendly Design:** Advanced UX and UI design allows users to easily navigate and drill down different business aspects.

" BENEFITS "

- **Early Identification of Potential Issues:** Spot problems before they escalate.

- **Informed Troubleshooting and Problem Resolution:** Use data-driven insights to address issues effectively.

- **Improved Operational Efficiency:** Enhance overall business performance by addressing root causes of anomalies.

PREDICTIVE ANALYSIS SERVICE

03

OVERVIEW

Our Predictive Analysis service utilizes advanced statistical algorithms and machine learning techniques to forecast future trends and outcomes based on historical data and current trends, answering the crucial question: **"What might happen in the future?"** This service helps businesses anticipate sales trends and cycles, market shifts, customer behaviors, and other key factors impacting their success.

" KEY FEATURES "

- **Predictive Statistical Modeling and Forecasting:** Utilize statistical models to predict future trends and outcomes

- **Scenario Analysis and Trend Identification Algorithms:** Analyze various scenarios and identify trends to provide a comprehensive outlook.

- **Detailed Prediction Reports:** Deliver thorough reports with actionable insights

- **User-Friendly Design:** Advanced UX and UI design allows users to easily navigate and drill down different business aspects.

" BENEFITS "

- **Proactive Decision-Making:** Make informed decisions ahead of time based on predictive insights.

- **Better Preparation for Future Challenges:** Anticipate and prepare for potential challenges and opportunities.

- **Enhanced Strategic Planning:** Improve long-term strategic planning with accurate forecasts

PRESCRIPTIVE ANALYSIS SERVICE

04

OVERVIEW

Our Prescriptive Analysis service goes beyond predictive analytics to provide actionable recommendations for optimizing business processes and achieving desired outcomes. By analyzing predictive insights and current business conditions, we prescribe specific strategies and actions to maximize opportunities, mitigate risks, and drive growth, ultimately answering the question: **"How to make it happen?"**

" KEY FEATURES "

- **Optimization Algorithms:** Apply advanced algorithms to identify the best course of action.

- **Simulation Tools:** Use simulation tools to test different scenarios and their outcomes.

- **Detailed Reports:** Provide comprehensive reports with actionable recommendations.

- **Actionable Recommendations:** Clearly outline the measures and strategies needed to achieve business goals.

" BENEFITS "

- **Informed Strategy Implementation:** Execute strategies based on data-driven recommendations.

- **Risk Mitigation:** Identify and mitigate potential risks proactively.

- **Opportunity Maximization:** Capitalize on opportunities with tailored strategies.

- **Enhanced Business Performance:** Improve overall business performance by implementing optimized solutions.

DEEP ANALYTICS & BUSINESS DEVELOPMENT AI TOOLS

05

OVERVIEW

Our Deep Analytics and Business Development Tools service harnesses the power of **machine learning and AI** to deliver advanced insights and tools for business growth. By analyzing datasets and employing cutting-edge algorithms, we provide businesses with customized tools tailored to their specific needs, reducing the workload for repetitive or complex tasks.

" KEY FEATURES "

- **Customized Tools:** Tailored solutions designed specifically for the unique needs of each business.

- **Machine Learning Algorithms:** UUtilize advanced algorithms to analyze data and extract valuable insights.

- **AI-Powered Automation:** Automate repetitive tasks and streamline complex processes.

- **Data Visualization:** Present insights in a clear and visually appealing manner for easy interpretation.

" BENEFITS "

- **Increased Efficiency:** Save time and resources by automating tasks and processes.

- **Data-Driven Decision Making:** Make informed decisions based on accurate insights and analysis.

- **Enhanced Productivity:** Focus on strategic initiatives while AI handles routine tasks.

- **Business Growth:** Leverage advanced analytics to identify opportunities and drive growth.

REPORT & DOCUMENT AUTOMATION SYSTEMS

06

OVERVIEW

Every company creates tons of reports on a frequent basis, either for internal or external use. This is often a repetitive, time-consuming, and sometimes complex task. So, what can be done? Our Report and Document Automation Systems service revolutionizes the way businesses create, manage, and distribute reports and documents. By leveraging automation technologies, we streamline the entire process, from data collection to report generation, saving time and resources while ensuring accuracy and consistency. All reports are well-formatted and designed

" KEY FEATURES "

- **Automated Report Generation:** Automatically create reports based on predefined rules and data inputs, eliminating manual effort.

- **Customizable Templates:** Use flexible templates that can be tailored to meet specific business needs, ensuring that every report meets your standards.

- **Workflow Automation:** Simplify and automate the approval and distribution process, ensuring timely and efficient report management

" BENEFITS "

- **Time and Cost Savings:** Reduce the time and work involved in report creation, freeing up resources for other critical tasks.

- **Consistency and Accuracy in Reporting:** Ensure all reports are consistently formatted and contain accurate data, reducing the risk of errors.

- **Improved Efficiency and Collaboration:** · Enhance productivity by streamlining report workflows, enabling better teamwork and faster decision-making.

TASKS & WORKFLOW AUTOMATION SERVICE

07

OVERVIEW

Every company handles numerous tasks on a daily basis, often involving repetitive, time-consuming, and complex processes. Our Workflow Automation service transforms the way businesses operate, manage, and optimize their workflows. By leveraging advanced automation technologies, we streamline the entire process, from task initiation to completion, saving time and resources while ensuring accuracy and consistency.

" KEY FEATURES "

- **Automated Task Management:** Automatically create reports based on predefined rules and data inputs, eliminating manual effort.

- **Seamless Integration:** Integrate with a wide range of apps and services, ensuring smooth and consistent workflows.

- **Approval and Distribution Automation:** Simplify and automate the approval and distribution process, ensuring timely and efficient task management

- **Consistency and Accuracy:** Ensure all workflows are consistently executed and contain accurate data, reducing the risk of errors

" BENEFITS "

- **Time and Cost Savings:** Reduce the time and work involved in doing repetitive task manually

- **improved Efficiency:** Ensure all tasks are consistently formatted and contain accurate data, reducing the risk of errors and Streamline workflows to boost productivity and foster seamless collaboration, leading to more agile decision-making processes.

- **Scalability:** Easily scale automation efforts as the company grows, adapting workflows to meet evolving needs
