## The Age-Old Question... "If Not Friend, Why Friend Shaped?"

## Tips for Staying Safe:

- **Maintain Distance:** Always observe wildlife from a distance. Use binoculars or a zoom lens for a closer view without approaching animals directly.
- **Do Not Feed Wildlife:** Feeding animals can alter their natural behavior and make them more aggressive. Keep food securely stored and dispose of trash properly.
- **Know the Signs of Aggression:** Learn to recognize signs of aggression in animals, such as growling, hissing, or raised fur. If an animal appears aggressive, back away slowly without turning your back.
- **Stay Calm and Quiet:** Move slowly and quietly to avoid startling animals. If you encounter a wild animal, remain calm, stand still, and avoid making direct eye contact.
