Annual Production

Located in Asia Aluminum Industrial City, Dawang New Hi-Tech Development Zone, Zhaoqing City of Guangdong Province, Asia Aluminum is one of the largest aluminum profile manufacturers with the most sophisticated production facilities in the world. Since its establishment in 1990, the company has been dedicated to the design and manufacturing of advanced high-precision aluminum profiles. Asia Aluminum's profiles can be applied to building use, such as windows, doors, and curtain walls, and also for industrial use, such as aviation, rail transportation, automobile, electronics, communication technology etc. Asia Aluminum invested numerous new, advanced automated equipment for mould creation, extrusion and surface treatment to ensure product quality and productivity. The company's production capacity exceeds 600,000 tons per year, playing a leading role in the industry.

Asia Aluminum, with its outstanding team, advanced technology, and stringent quality control, satisfies customers' demand for high-quality aluminum profiles within the shortest production cycle. Asia Aluminum has received numerous honors for its product quality and all-round service. In 2005, the company acquired TS16949 and DNV certification, becoming one of the earliest enterprises to adopt international advanced standards.

The company's products are used in many landmark buildings such as the Burj Khalifa, Burj Al Arab, Lusail Stadium, National Olympic Stadium (known as "Bird's Nest"), and Beijing Capital International Airport.

Looking into the future, with pioneering spirit and customer-first philosophy, Asia Aluminum will continuously strive to provide exemplar products and first-class service to all.

AAG亚铝座落于广东省肇庆大旺国家高新技术产业开发区亚铝工业城,是全球规模化、装备精良的铝型材制造商之一。自1990年成立以来,公司一直致力于高、精、尖铝挤压型材的设计与制造,通过多年以来的不懈努力和坚持,产品由单一的建筑门窗、幕墙类铝型材拓展到包括各类工业型材、航天航空、轨道交通、汽车制造、电子电器、通讯科技、IT等多种领域,AAG亚铝产品在世界各地深受欢迎。随着企业的不断发展与壮大,为保证产品质量与生产效率,公司斥巨资更新和增加了多条从模具到挤压直至表面处理的进口自动化设备,年生产能力超60万吨以上,一举成为行业内的领军企业。

AAG亚铝凭借一支优秀的领导团队、高素质的员工队伍、现代化的管理模式、出色的工艺技术、科学的生产流程控制以及严格的质量检验检测,能在较短的生产周期内满足客户对高质量铝型材产品的需求。其稳定的产品质量和全

方位的售后服务,赢得了无数赞誉,并树立了以迪拜塔、帆船酒店、鸟巢、水立方和国家大剧院等为代表的一大批地标性建筑。

杰出的产品质量和优秀的企业管理也为亚铝赢得了从地方到国家再到国际的各种奖项。2005年起,公司顺利通过TS16949汽车型材体系认证、DNV船级社认证等,成为铝型材行业内较早采用国际先进标准的企业之一。同时,拥有的“南亚”牌商标曾被认定为“中国驰名商标”,“AAG亚铝”品牌也多次获得“中国铝型材十强”、“行业十大首选品牌”等荣誉称号。

展望未来,AAG亚铝将继续在“开拓进取,勇攀高峰”的企业精神指导下,在“以人为本,相互尊重,讲究诚信,承担责任”的企业理念引领下,载着荣誉,带着责任,力求以更优质的产品和更周到的服务回馈于广大客户和社会。

R&D TEAM

Innovation of new products is at our core. The research and development team at Asia Aluminum focuses not only on product development, but also pays close attention to user experience, integration of creative design and pursuance of innovation. We tap top talents from different disciplines and backgrounds, which together constitute the most dynamic professional force, leading Asia Aluminum ahead to meet the global demand for premium extrusion products. Our R&D team keeps providing technical upgrades, and offers customers professional consultation and technical service.

研发团队

新产品开发日益成为企业成功经营的核心。亚铝研发团队注重产品开发、用户体验和融入创意设计以及不断追求创新。广招不同范畴、不同文化背景的专业人员，汇聚了众多国内外资深行业专家，成为业界资深研发团队。在提供引领时代的高精铝型材产品，并不断进行技术创新，为客户提供专业咨询和技术服务。

MOLD CENTER 模具中心

亚铝深知模具对产品生产的重要性，模具中心配备世界最先进的模具设计及生产设施。

Asia Aluminum values the importance of molds on production, its mold center is equipped with the world's most advanced facilities for design and production.

亚铝拥有1条卧式氧化生产线和1条全自动立式氧化生产线,年生产能力提升至10万吨以上。设备的高、强、尖特点是其拥有国际品质的保证。完善的装置和全流程的优化让产品的特性更稳定,产品的表面更具有优秀的理化指标。

Asia Aluminum possesses one automatic horizontal oxidation line, and one vertical oxidation line. The annual production of oxidation lines exceeds 100,000 tons. All-round facilities and optimized production process provides our customers with superior and stable surface treatments.

ERP SYSTEM 企业资源管理系统

亚铝的企业资源管理系统(ERP),目标是以市场和客户需求为导向,实行企业内外资源优化配置,实现资讯流、物流、业务流集成。亚铝拥有最先进的生产管理系统(MES),为公司智能化生产提供高效、可靠的技术平台。此系统成功令数据库管理系统全面整合统一,并增加产物管理及数据追踪效率。

Asia Aluminum's Enterprise Resource Planning system plays an integral role in the company. Our management system creates an optimized and interconnected workflow to provide customers with timely and excellent service. Asia Aluminum uses the most advanced Manufacturing Execution System in the industry, realizing an intelligent and automatic production process. Our comprehensive information systems together offer real-time production and data tracking, resulting in an accurate and efficient production process.

QUALITY CONTROL 品质监控

亚铝所有产品均经过严格的检定。每个部门均拥有独立的自我检定系统,先进的实验室及测试仪器,对每件原材料及产品进行全方位的物理及化学分析及测试,精确可靠。在生产动态的操控方面,现场质量检测分析让质量在动态中受控,为及时发现问题,解决问题和收集相关产品数据提供高度实时动态的反馈方式。

All products of Asia Aluminum follow a strict quality control system to meet international standards. Full scale testing and inspection are conducted on every product through precise physical and chemical tests with our advanced equipment and laboratories. In production, dynamic quality control is realized by on-site inspection, providing timely information and statistics for identifying and solving problems.

产品介绍

PRODUCTS

DOOR & WINDOW SERIES 通用门窗系列

亚铝根据各地区要求和实用情况，生产了众多适用于不同地区的断桥和非断桥的工程通用门窗系列产品：

Based on regional requirements and practical situations, Asia Aluminum produces numerous door and window series applicable to various projects with broken and non-broken bridge products.

型材品种丰富，各种拼接转角材料配套齐全，门窗系列均严格遵循相关国家标准要求设计和生产。并可根据客户工程的需要，配合用户共同研发新型的铝合金工程门窗产品。

We have a large variety of profiles and complete coupling auxiliary products, all strictly following relevant national standards. Asia Aluminum develops new aluminum door and window products with our customers to meet engineering requirements.

DURAN 杜朗

**AAG Duran System
杜朗系统门窗**

亚铝在建材行业取得至高地位。2022年，更进一步投入到门窗系统研发、推广、供应行列。联合国内知名系统公司以及门窗零售行业巨头，结合国内工程市场特点，推出跨时代系统产品—亚铝杜朗系统门窗。

In 2022, AAG further invested in the development, promotion, and supply of door and window systems. With well-known door and window system companies and retail industry giants, AAG launched an innovative door and window system - AAG Duran System.

DLine-N

设定铝合金窗隔热新标准 A New Standard For Heat Insulation For Aluminum Windows

- 隔热填充物降低对流，减少能量流失，提供完美隔热性能。
Optimized filler reduces convection and energy loss, providing remarkable insulation performance.
- 75mm可视面达到被动窗的性能，更多光照、更舒适居住体验。
The window's visible width of 75mm reaches an equivalent performance of passive house windows, bringing more sunlight into the room.
- 超轻发泡+发泡复合胶条，更大压缩变形量，提高隔热性、气密性及水密性。
Ultralight foaming+foaming composite strips provide greater compression deformation, with increased performance in thermal insulation, air and water tightness.

DLine-W

开创铝合金外开窗水密新标准 A New Standard For Waterproofing For Outward Opening Swing Aluminum Windows

- 33mm可视面完成传统65mm宽的完整功能。
The window's visible width of 33mm has equivalent functions of that traditional visible width of 65mm.
- 创造性的将五金放到室内侧，完美解决外开窗的安全问题。
Innovation on accessories installment on the interior solves safety issues on outward opening windows.
- 内外10mm阶差及等压胶条带来超越传统结构的超高水密性。
Interior and exterior difference of 13mm isobar strips yields superior performance in waterproofing.

DSim-T

开创提升推拉门密封新标准 A New Standard For Sealing In Lift and Slide Doors

外观 Appearance
38毫米勾企，纤细简洁，符合现代简约内装风格。
38mm width roller guide adheres to modern minimalist interior design style.

密封 Sealing
勾企上下密封关键处，采用高回弹EP材质密封胶棉。
The sealing part of roller guide utilizes EP sealing foam with high resilience.

安全 Safety
勾企采用连接件+注胶+6061-T6材质增加强度，提高抗风压性。
Roller guide is made of fittings, injection glue and alloy 6061-T6 to improve wind resistance performance.

CURTAIN WALL SERIES 幕墙系列

亚铝拥有大量断桥和非断桥幕墙系列产品，主要分为构件式幕墙和单元式幕墙两大类。

构件式：全明框、全隐框和半隐框系列
单元式：幕墙有众多不同造型系列供选择。

Asia Aluminum produces a large variety of broken and non-broken bridge curtain wall series, primarily stick glass curtain wall and unitized curtain wall.

Stick Glass Curtain Wall: Fully-exposed frame, fully-concealed frame, and semi-concealed frame series.

Unitized Curtain Wall: Various series for selection.

SOLAR PANEL PROFILES 太阳能型材系列

型材产品丰富多样, 各种转接、配套材料齐全。产品均严格遵循相关国家标准制作生产。

AAG亚铝的太阳能型材产品, 经过严格检测控制、多种精密工艺流程生产, 各项性能指标优异, 整体技术水平达到行业先进水平。

Asia Aluminum's solar panel profiles are varied, with complete coupling and auxiliary materials. Production strictly follows national production standards.

INDUSTRIAL PROFILES 工业型材系列

亚铝工业型材种类繁多, 包罗万象, 用于新能源汽车部件、如散热器、电池托盘等、生产运输设备、集装箱、飞机部件、家具等。

Asia Aluminum's industrial profiles are used in electronic vehicles, such as heat sink, battery tray etc., transportation equipment, shipping container, aircraft parts, furniture, etc.

全球装配式建筑领导者

Global Leader of Modular Integrate Construction

中国首家具有混凝土MiC、钢结构MiC、铝结构MiC综合研发和生产能力的大型制造企业。

China's first large-scale manufacturing enterprise with comprehensive R&D and production capabilities for concrete structured MiC, steel structured MiC, and aluminum structured MiC.

Steel Structured MiC

铝结构MiC
Aluminum Structured MiC

铝游家有限公司创立于2014年，是一家从事“组装成”建筑法 (MiC) 的研发、设计、生产、销售与安装服务的先进制造企业。公司总部位于香港，在粤港澳大湾区（肇庆高新区）设有一站式生产制造基地，占地面积约10,000亩，年产能约160万平方米，综合员工规模约3,000人。

公司致力于成为全球领先的“组装成”建筑 (MiC) 生产制造企业，时至今日，已成功开发了钢筋混凝土MiC、钢结构MiC、铝结构MiC三大建筑体系，并延伸至铝合金人行天桥、铝合金智慧爬升架、铝合金模板、铝合金家居等制造业创新技术和产品。我们的产品被广泛应用在住宅、教育、医院、旅游、商业、市政等多个领域，产品远销东南亚、北美等国家和地区。

Founded in 2014, AluHouse is a high-tech enterprise engaging in the research and development, design, production, sales and installation services of Modular Integrated Construction (MiC). With its headquarter located in Hong Kong, AluHouse has a one-stop manufacturing base in the Greater Bay Area (Zhaoqing High-tech development zone, Guangdong), covering an area of about 10,000mu, with an annual production capacity of about 1.6 million square meters and a comprehensive manpower of about 3,000 workers.

AluHouse is committed to becoming the world's leading manufacturer of modular integrated construction. Since its establishment, the company has successfully developed MiC systems with concrete structures, steel structures and aluminum structures, and further extended its business segment to aluminum pedestrian bridges, aluminum smart scaffolding and formworks as well as more innovative technologies and products such as aluminum home furnishing. Our products are widely used in residential units, schools, hospital, tourist industry, commerce, municipal and other fields in countries and regions such as Southeast Asia, North America, etc.

CONCRETE STRUCTURED MiC 混凝土MiC

240,000m³

公司建设有混凝土结构MiC生产线,拥有一套双120新型搅拌站,配套有标准实验室,混凝土撒佈机生产器,自动化钢筋加工线等,实验室符合香港QPSC认证。

AluHouse established a concrete structured MiC production line with a set of double 120 mixing station, and equipped with standard laboratories, mobile concrete spreader line, automated steel bar processing line, etc. which meets with the Hong Kong QPSC certification.

初期设计年产能达24万立方米,可满足40层永久性建筑模块的生产制造。

The initial design annual production capacity is 240,000 cubic meters, which enable the production and manufacturing of 40-storey permanent building modules.

移动亚铝房屋

AluModular is a company that integrates special design and mobile modularity. The architectural design is based on sustainability, building structures co-living with the environment, and meeting the requirements of eco-tourism development. AluModular provides services for commercial and tourism real estate, creating opportunities in a new era.

More housing types can be found in our specific brochure.

菲思科移动亚铝房屋，是一家融合移动建筑空间设计和移动商业产品开发的筑创企业。基于生态环境的建筑空间设计专注于不破坏地面的环保铝屋的研发创造，实现文旅项目的生态化开发，为商业地产和户外旅游产业提供服务，共创商业新时代。

具体屋型请参考本公司图册。

产品与服务亮点

Product and Service Highlights

可售可租，灵活运营模式。租赁服务为临时使用的文旅消费属性提供新契机和选择。

Flexible operation models includes various sales, rental, and cooperative options. The rental service provides new opportunities and choices for the timely and seasonal nature of cultural tourism businesses.

可移动商业场景可满足当下网红项目生命周期短的营销需求。

Mobile modularity can meet the market demands for quick product cycle of trendy tourism projects.

外观时尚，设计独特，与文旅IP结合，体现主题，增强文旅项目的特色和独特性。

Modern appearance and unique design integrated with cultural tourism IP can highlight theme and enhance the characteristics of cultural tourism projects.

与自然景观融合，实现文旅项目的生态化开发。

Co-living with the environment, and meeting the requirements of eco-tourism development.

生产周期短，安装速度快，极大提高运营方的施工效率。

Speedy installation and production cycle greatly improves the construction efficiency of the operator.

铝材质绿色环保，回收价值高。

Sustainability and a high recycle value are prominent features of aluminum alloy.

轻松维护，降低运营成本。

Minimal maintenance and low operating costs.

GUANGDONG ALUBRIDGE ENGINEERING CO., LTD

AluBridge Engineering Co., Ltd. leads the industry with one-stop service of aluminum pedestrian bridge, offering customers with research, development, design, manufacture and installation. Since its establishment, AluBridge has been qualified with Grade 2 of general contracting on municipal public utility construction engineering. It has manufactured numerous aluminum pedestrian bridges with innovative modeling and superior performance in cities throughout Guangdong Province. Committed to environmental protection, AluBridge products offer sustainable urban development, capable of being reused or recycled. Pedestrian bridges are pre-fabricated in its production center, making on-site installation extremely efficient and accurate.

广东铝之桥 工程有限公司

广东铝之桥工程有限公司致力于装配式铝天桥的一站式服务，从研发、设计、制造、安装到销售，提供完善解决方案。铝之桥具备市政公用工程施工总承包二级资质，自成立以来，已为广东珠海、肇庆、四会、佛山、海南等城市建设了多座造型新颖、性能优越的铝合金人行天桥。我们致力于用新型环保的建筑材料，产品可重新利用或回收，赋能城市桥梁工程建设的可持续发展。我们的装配式铝天桥在工厂内预制，成就极为精准及快捷的现场安装。

依托年产能60万吨的AAG亚铝生产基地，新建成国内一流幕墙加工中心—肇庆南亞金属研制有限公司。这是全国首家专门集中生产幕墙板块代加工的企业。形成了“型材原材料制造—幕墙板块深加工—新型外墙铝单板研发制造—幕墙产品检测平台”的全面配套服务。并以其基地供应的便利性、质量、信誉保证、高生产效率等突出优势将为广大建筑公司、幕墙公司提供便捷高效、优质放心的产品。公司单元体月产能约100000余㎡，年产能1200000余㎡。南亞金属研制通过专业的幕墙代加工服务，将为各地的重点地标性幕墙工程和高难度的幕墙项目助上一臂之力。

NYA is a leading curtain wall processing center. It is the first enterprise specializing in centralized production of curtain wall with OEM services in China. From manufacturing of aluminum profiles to processing of curtain wall, research and development of new extruding aluminum panels, and curtain wall finished product testing, NYA provides one-stop service to its customers. We deliver efficient services and superior products to construction and curtain wall companies. The monthly output of curtain wall units exceeds 100,000 square meters, and annual output exceeds 1,200,000 square meters. With professional OEM services for curtain wall, NYA plays an important role in key landmarks and challenging curtain wall projects worldwide.

Zhaoqing First Go Metal Technology Co., Ltd. focuses on the production and sales of PA insulation bars with complete specifications and models. The company brings in advanced, specialized equipment to make tailored designs and production for various customer needs.

工程案例

MAJOR PROJECTS

亚铝不断在全球范围地标性建筑中多有建树,全球不同地区近乎苛刻的使用环境及复杂的施工要求仅有屈指可数的企业可提供如此完善全面的解决方案。北美、中东、欧洲、日本、东南亚、香港特区和澳大利亚等市场的诸多机场、摩天大厦、体育场馆、展览会议场馆、标志建筑物和住宅项目中,所获得的赞誉和信任不胜枚举。亚铝所合作的工程数量繁多,不能尽列。具体工程名录可参照其它本公司分册。

Asia Aluminum continues to construct various landmarks around the world. Under harsh environments and complicated construction requirements in different regions of the world, Asia Aluminum is able to provide outstanding and comprehensive solutions to all projects. Asia Aluminum expands its business domestically and internationally, constructing many airports, skyscrapers, stadiums, exhibition centers, landmarks, and top residential projects in North America, the Middle East, Europe, East Asia, Southeast Asia, Australia, and Hong Kong. Below are just a few of our iconic projects, a comprehensive list can be found in Asia Aluminum's catalogue.
