

Work in Progress

(Official song recorded in D)

Lyrics

(Verse1)

Well the past it may have broke me
I'm gonna use it all for Your glory
I was held down by things I'd done wrong
They've defined who I am for too long
The devil may have been using my shame
God's using mistakes to raise his name

(Pre-Chorus)

God Your courage it is in me
So send me out to set the world free

(Chorus)

Oh my chains are gone and I'm letting them go
And I'm no longer defined by my mistakes of old
My purpose now is much higher than my own
Standing on my past it's not holding me down

(Verse 2)

Well I know that my battles aren't over
With God beside me I can fight stronger
Whatever the devil throws my way
I know it can't stand against God's army

(Pre-Chorus)

Oh God You're still working on me
Getting closer to person You made me to be

(Chorus)

Oh my chains are gone and I'm letting them go
And I'm no longer defined by my mistakes of old
My purpose now is much higher than my own
Standing on my past it's not holding me down

David Gaskell-2020

(Bridge)

Oh I am You're work in progress
'Cos Lord You're not done with me yet
You'll use my past to change my future
Standing atop of my hurt to keep getting higher
Oh Lord You'll never be finished with me
'Cos you've given me a purpose and an identity
So keep me on track for what You have in store
I will keep on shouting Your praise through every storm
Oh each day I strive to bring You glory
Making everything into a God story

(Pre-Chorus)

I may fall down but You pull me up
'Cos Your grace is more than enough

(Chorus)

Oh my chains are gone and I'm letting them go
And I'm no longer defined by my mistakes of old
My purpose now is much higher than my own
Standing on my past it's not holding me down
