

DAIYAKO STABILIZER

APPLICATION

For Home, Office, Lab & Factory

- Lighting Equipment
- Air Conditioning System
- Computer
- TV & Audio System
- CNC Machine
- Transmission & Telecommunication
- Radar System In Navar Or Air Navigator
- Proses Control & EDP Equipment
- Welding Equipments
- Industrial Machine / Tools

Lab

Medical

Metro

Banking

Datacenter

Telecom

Industrial

Network

TECHNICAL SPECIFICATION

Phase	SINGLE PHASE		THREE PHASE (3P - N + G)	
Model Voltage	Voltage Standard	Voltage Request	Voltage Standard	Voltage Request
Capacity	5kVA -30kVA		15kVA -500kVA	
Input Voltage Range	160V - 240V	120V - 230V	280V - 420V	230V - 415V
Output Voltage	220V ±1%		380V ±1%	
Frequency	50Hz/60Hz			
Response Time	Within 1 second againsts 2.5% input deviation			
Efficiency	90%			
Display	Reliable Volt Digital / Ampere Digital			
Input, Output Connector	Terminal			
Ambience Temperature	-5°C - 40°C			
Cooling System	No Fan required, Convection Cooled			
Control System	DC Motor Servo			
Warranty	2 Years			

* We Serve Stabilizers With Special Specifications

The Best Solution, For Electrical Power Systems And Your Electrical Equipment.
