

# Transportation Product Line BK4 Red and Blue Warning Thrower

## Product Introduction

BK4 is a two in one device with red and blue flashing lights and a thrower. It can work reliably in harsh weather conditions and can be mounted on DJI Matrice M4 series drone through the DJI EPORT interface. It has the ability to quickly install in 5 seconds at the bottom and has a two-stage throwing function that can throw two mounted objects separately. At the same time, each throwing point can achieve two throwing modes: Binding Throwing and Hanging Line Throwing.

## Product Advantages

- Control link PSDK
- Bottom non-destructive installation
- Plug and play
- Abnormal state alarm
- Non electric mounting
- Non electric throwing

## Technical Parameter

Size	≤85×75×35 mm
Weight	≤75g
Power supply	DC 9-17V
Total power	≤25W
Number of channels	2-Stage
Operating temperature	-20°C to +50°C
Protection grade	IP55
Control mode	PSDK control/WeChat mini program, APP Bluetooth control
Lighting parameters	120 ° angle, red and blue flashing lights, 2-channels, under normal hovering of the aircraft, ensure that the red and blue lights of the drone can be seen 360 degrees around it, and observe no dead zones with the red and blue lights on the ground.

## Applicable Model

**M4 series**
