

DC Shop Roadmap  
JULY-DECEMBER 2021

JULY 7, 2021

# DC SHOP ROADMAP 2021

# ECOMM ROADMAP 2021

# ROAD-TO-FANDOME

# Why Road-to-FanDome?

*"Data is the new oil" - Jack Ma, Founder of Alibaba*

Our Road-to-FanDome is explicitly a way to let our fans know about our DC FanDome event. More than that, our execution on Road-to-FanDome will be a hotbed of data to better understand and to provide to our fans, as they navigate their way through an aggregated experience of our DC platforms and more.

# IMMEDIATE GOALS

## KPIs:

- Increase DCUI Subscriber count by 'n'%
- Increase DCUI ARPU (paid subscribers) by 'n'%
- Increase AOV on DC Shop by 'n'%
- Meet quarterly target sales for DC Shop

ACTION: Provide value proposition to the fans. What do they get by subscribing that they can't get anywhere else and is worth their \$ and time?

## EXAMPLE IDEAS:

For registered users:

- Exclusive access to first-look content
- Exclusive access to DC Shop merch not sold anywhere else
- Exclusive access to site functions (i.e., a Fan 'collage' Page where registered users can upload UGC, etc.)
- Exclusive access to certain influencers, talent, etc.

# LONGTERM GOALS

## KPIs:

- Increase CLV
  - Increase engagement (traffic + session)
  - Increase purchase frequency
  - Increase gross margins
  - Reduce churn rate

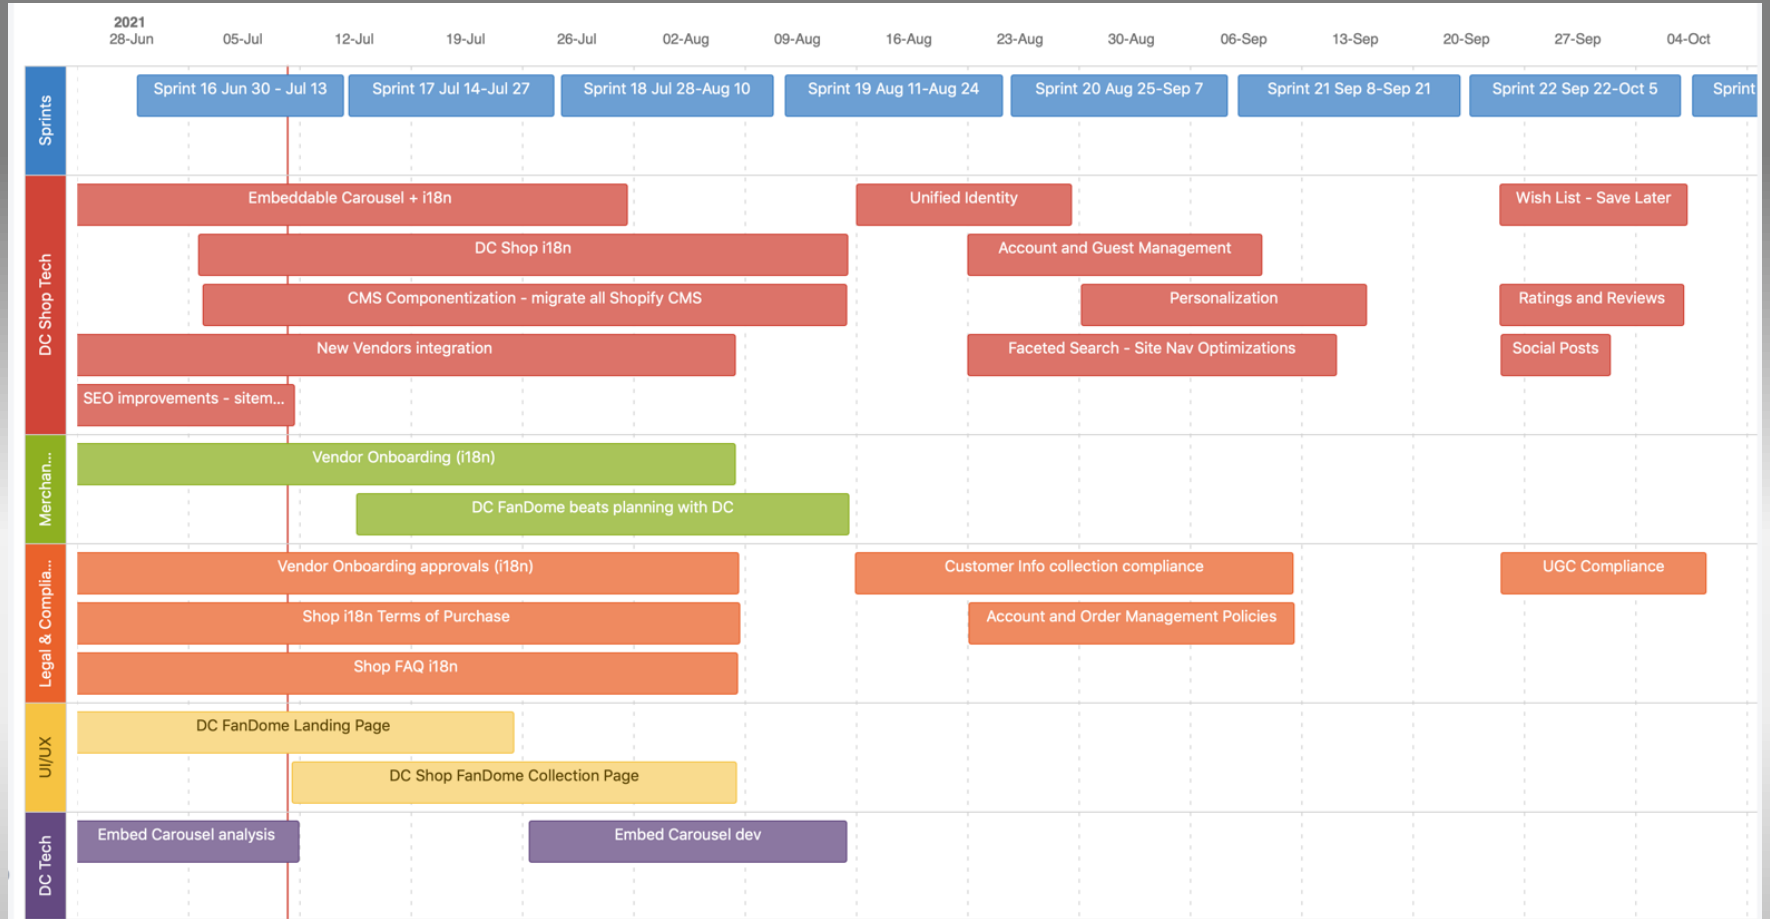

**ACTION:** Provide a curated experience for the fans where events and offerings they receive are of what they value the most on DC.

## EXAMPLES:

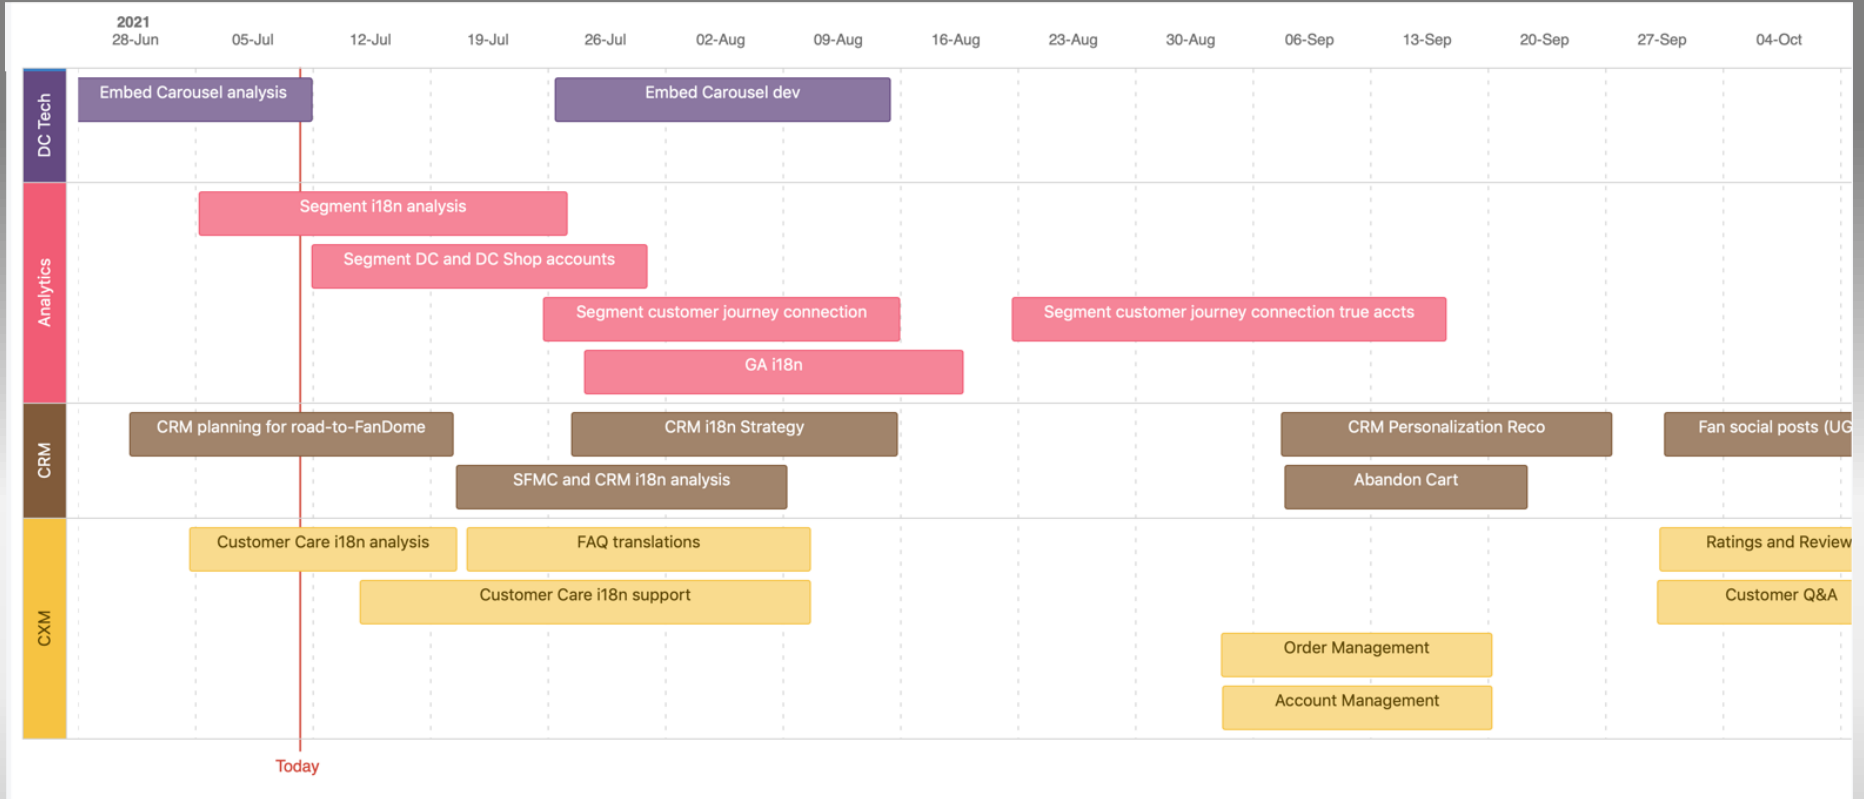

Based on data analysis of our customer behavior and journey throughout FanDome

- Provide bundled digital + physical offerings based on fan's most visited/searched/purchased/read character (i.e., access Harley Quinn exclusive comics release and Harley Quinn tee for \$45).
- Provide different purchasing offerings (i.e., subscribe and save 10% off your monthly purchase from DC Shop)

# DC SHOP FANDOME SPRINTS BY WORKSTREAM

MARKETING & PUBLICITY					
DATA ANALYTICS				Cross-platform data analytics	
CRM			Personalized CRM		

# DC SHOP

## HEROES VS VILLAINS

WHICH SIDE WILL YOU WEAR?

HEROES

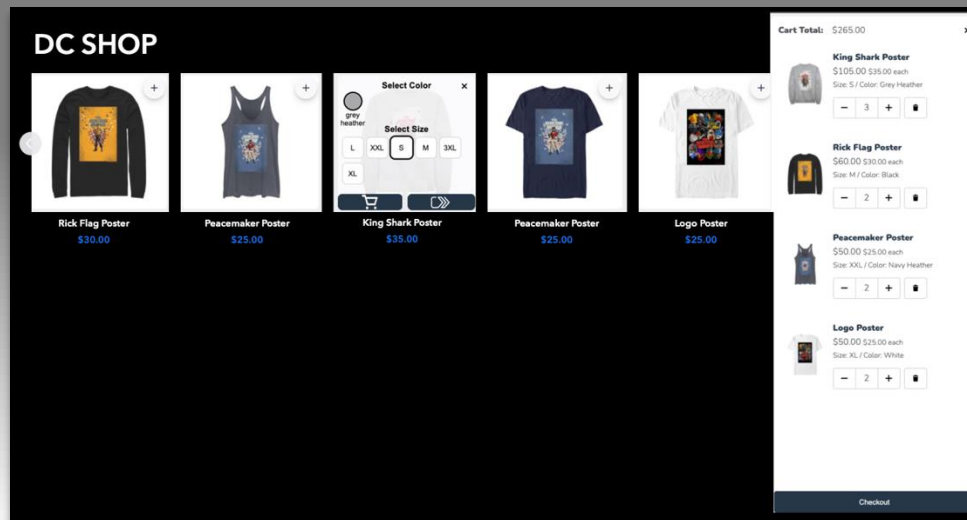

VILLAINS

# Market Penetration & Development

- **Embeddable DC Shop component** – this game-changing shop component is embeddable in just about any site, which can be used to penetrate existing or develop new markets. It can serve as a gateway to subscription conversion by way of Global Navigation. See next slide for more details (developed by Sr. Full Stack Engineer, Michael Pourshalimi). *Rob/Imran to demo.*
- **Internationalization (i18n)** – opening our shop to international markets to increase our reach and connect with fans outside of US.

# DC Shop Embeddable Carousel

## Key Features:

- Uses open-source and most preferred code, allowing it to be embeddable on most sites today.
- Entire purchase flow can be done directly on the embedded site, allowing for a smooth transaction conversion.
- Mini cart can be turned off to prevent overlay of a site's design (i.e., DC FanDome art banner, video, etc.). Instead, a smaller bag icon  can be used to checkout.
- Stylesheet (i.e., background theme, font, etc.) can be modified to match site in which it is embedded.

## Event and Site Ideas:

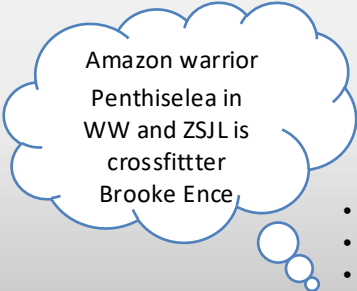

DC Shop standalone carousel is embeddable on just about any site today as it uses the latest open-source code. It can be used to penetrate a desired market and combined with DC Global Nav, can serve as a gateway for customer conversion on DC platforms and HBO Max.

# Product Development and Diversification

- **Vendor Onboarding Optimization** – optimize our vendor integration to allow for quicker onboarding and selling of a variety of product lines on our site (developed by Sr. Staff Engineer, Anshul Kumar).
- **Specialty Products (Disrupt Sports)** – Disrupt Sports is one of our onboarding partners that specializes in sports products, gaming, and fitness. Having this option will allow us to determine whether to diversify or not diversify in both products and market. See next slide for ideas.

Amazon warrior  
Penthiselea in  
WW and ZSJL is  
crossfitter  
Brooke Ence

- Crossfit market?
- WW Lasso Jump rope
- WW wrist wraps

ZSJL Zeus is  
Spanish  
bodybuilder

Constance

- Fitness market?
- Superman knee sleeves
- Batman lifting belt

# Diversification - Merch Ideas

*DC Book Club  
Wallpaper*

*Arbor Snowboards  
for concept only*

*Arbor Skateboards  
For concept only*

## **DC Book Club Wallpaper Download + Decal & Disrupt Sports**

- Disrupt Sports Vendor – customizable skateboards, snowboards, surfboards using decals.
- Use downloadable DC Book Club Wallpaper to convert into Decal with Disrupt Sports
- September through November - snow gear sales peak season
- New target market – snowboarders, outdoor adventurers

# Personalization to Hyper-Personalization

- **Single-Sign-On (SSO)**– Provide the ability for our fans to sign up or sign in on DC and have access to all DC Platforms, including DC Shop (Engineers: Eric Chazan, Chris Porch, Aaron Tidwell, Harshil Shah, Phil Walton)
  - **Shop Account Management** – with SSO, provide a way for customers to track and manage orders, view purchase history, and manage payment options.
  - **Guest to Customer checkout** – provide a way for customer to choose to create an account after purchase, optimizing customer conversion while retaining ease of guest checkout.
- **Customer Data Mining Cross-Platforms** – with SSO, enhance customer data mining and integration to cross platforms. For DC Shop, collect customer demographics, location, social, and purchase behavior (Data Lead: Nikhil Bhat)

# CRM and CXM

**CRM** – with SSO, features available:

- Abandon cart tracking, personalized product recommendations and attachments (upsell)

**CXM** – with SSO, features available:

- Wish List and/or Save Later, product reviews, product sharing, Q&A, customer service response chat.
- NPS Survey – send NPS survey to our customers to further understand their needs and improve the shop and DC platforms experience from feedback.
