# What is Movies Anywhere?

**Movies Anywhere** is a digital service that allows customers to purchase digital movies, while providing a watching experience that is easier and better. It acts as an aggregator of your movies from iTunes, Amazon Prime Video, Vudu, Google Play/YouTube, Microsoft, Xfinity, FandangoNOW and Verizon Fios TV so that you can access them and play them in one place.

*Wonder Woman, Jurassic Park: Fallen Kingdom, Spider-Man: Into the Spider-Verse, Avengers: Endgame and Star Wars: A New Hope now available on digital.*

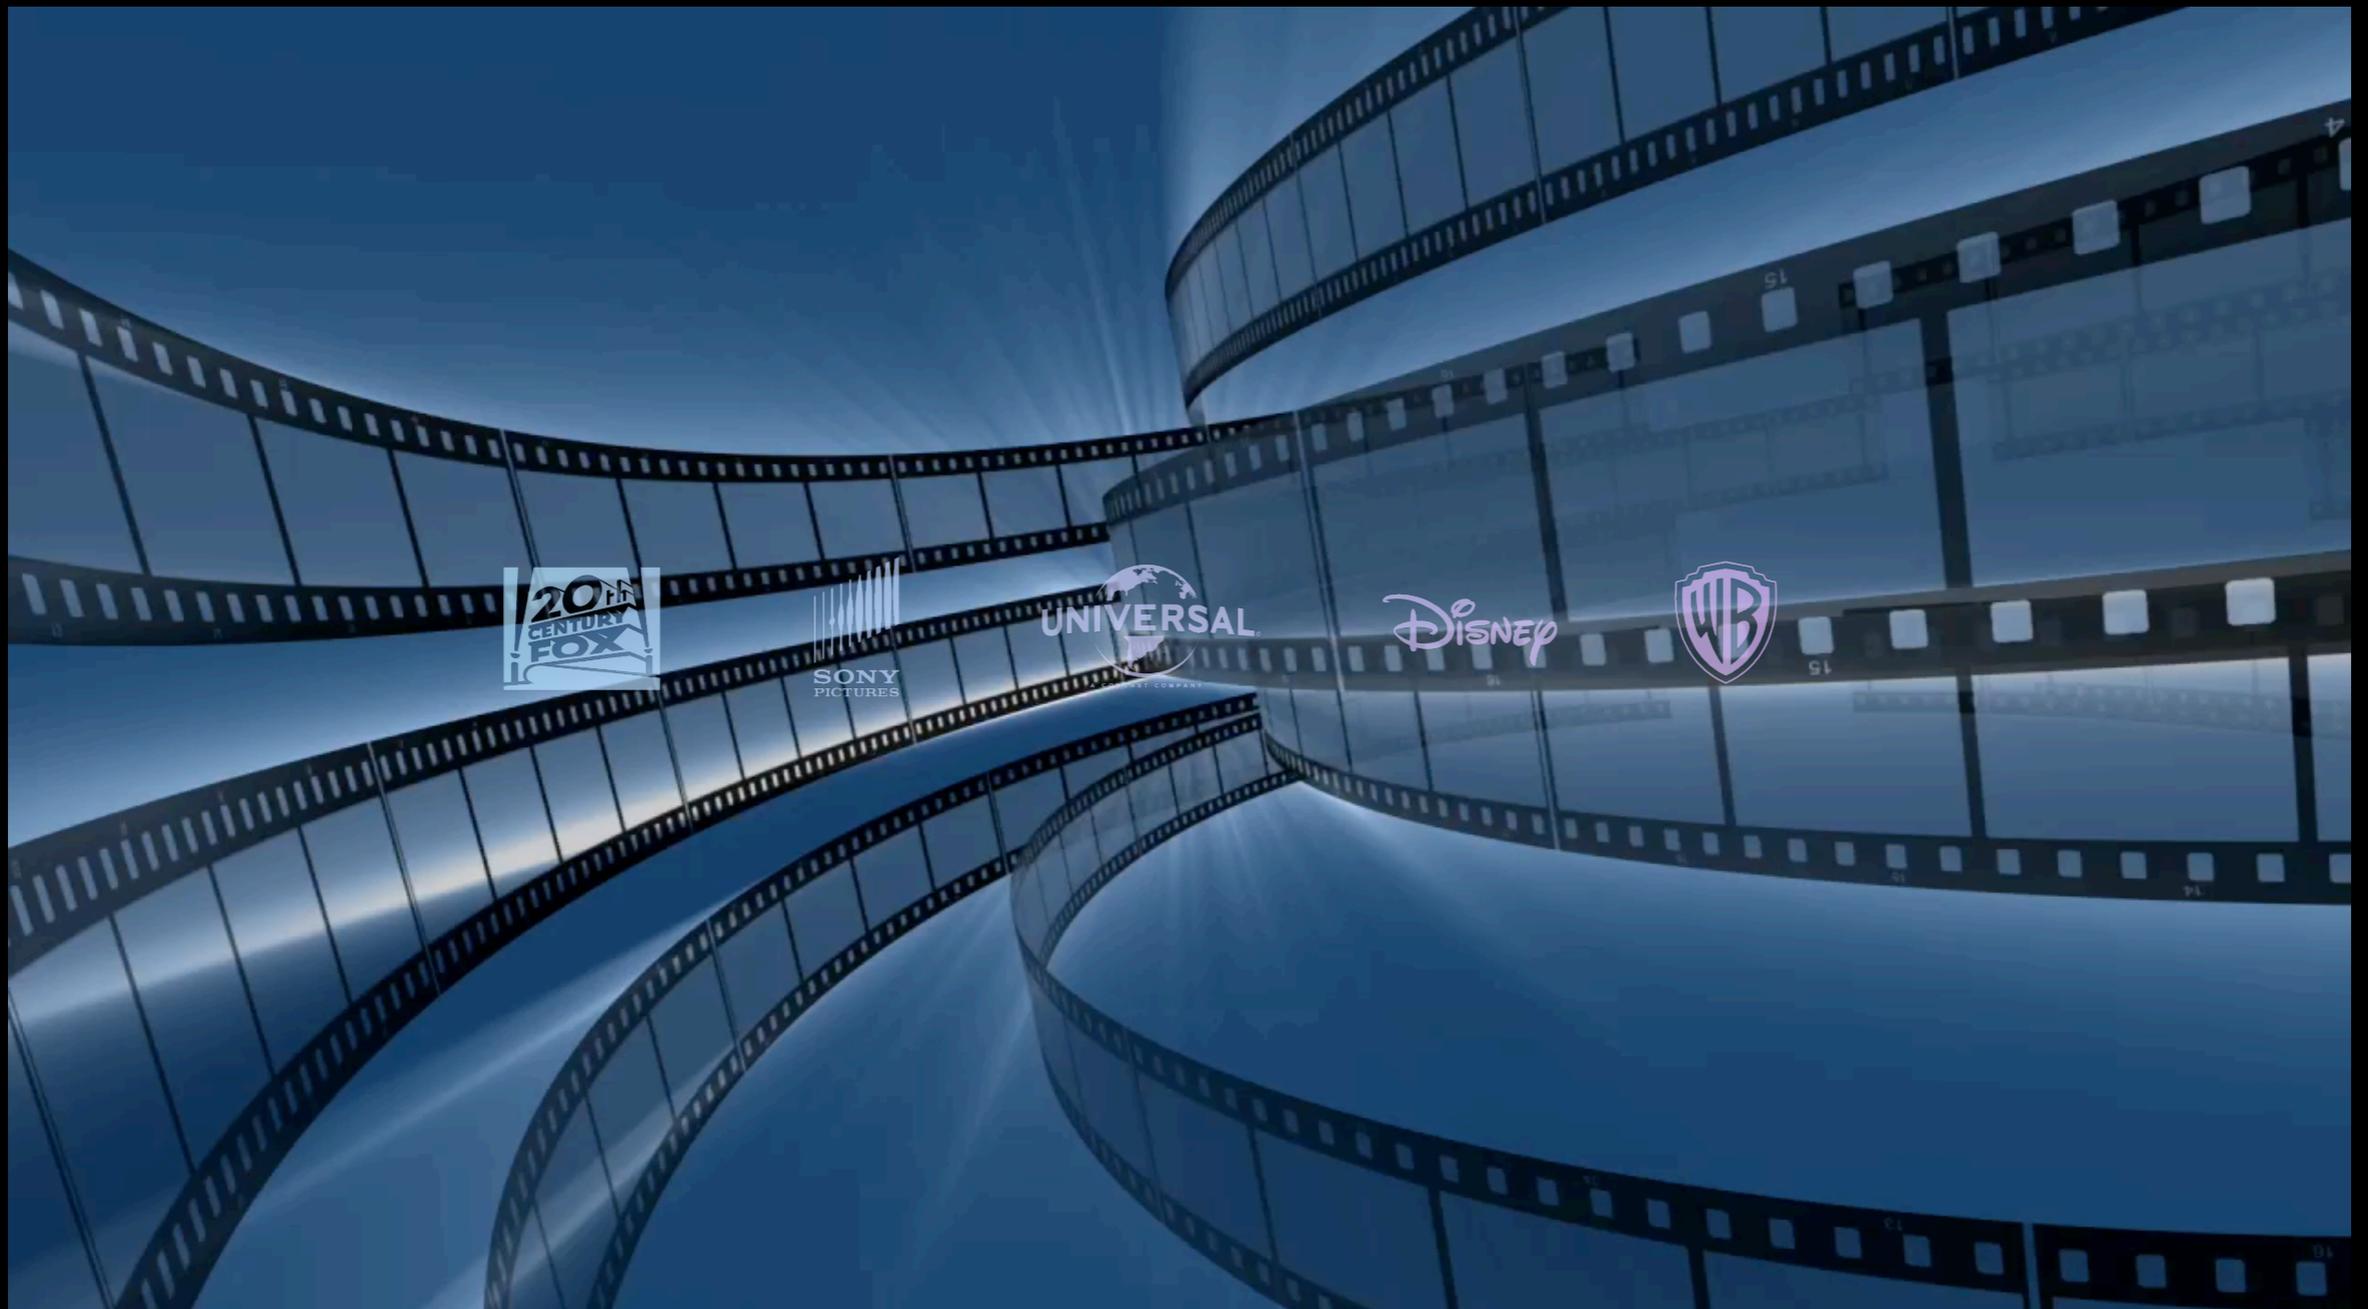

# Where can I get Movies Anywhere?

You can download the free app on compatible mobile devices from the Apple App Store, Google Play Store, Amazon App Store, Roku Channel Store, and LGTV App Store. You can enjoy Movies Anywhere on your television through Xfinity TV, Chromecast and AirPlay, or via the Movies Anywhere apps available for Apple TV, Android TV, Amazon Fire TV, Roku and LG TV. You only pay for the movies you purchase.

# Which movies are available?

**Movies Anywhere** currently supports certain movies from the participating studios listed below and co-own the service. WB along with these other studios come together and collaborate on providing new features to customers that are differentiators on the digital space.

# And now, introducing

**Screen Pass** and **Watch Together**
