WHO WE ARE

Hami Sewage & Draining Services LLC

A Dubai based Environmental Services Company which focus on the quality of service and efficiency in maintaining the surroundings environment friendly.

To become the leader in this service sector and to sustain its market position.

We stand on our core principles of quality, efficient and timely service.

We believe in building and maintaining excellent customer relationships.

Our policy of Fast and steady services to our customers makes us reliable.

WHAT WE DO

- ❖ **We operate 24 hours a day and 7 days a week.**
- ❖ **We provide our customers the latest and most efficient and available technologies to meet their cleaning requirements,**
- ❖ **Our services are available in Dubai and all parts of UAE.**
- ❖ **We have Fleet of Vehicles - Grease Trap Tankers and Waste Water Collection Tankers.**
- ❖ **We have well trained staff to serve our customers.**
- ❖ **Finally we assure our customers the best services.**

SERVICES WE PROVIDE

GREASE TRAP CLEANING

- Grease trap/grease interceptors are designed to intercept most greases and solids before they enter a wastewater disposal system.

TYPES OF GREASE TRAPS

Type A

Type B

Type C

Type D Pvc

**A
G
1**

**A
G
2**

- **Types of Grease traps are;**

- **1. AG1/D - 15 GALLONS;**
- **2. AG2 - 25 GALLONS;**
- **3. A - 40 GALLONS;**
- **4. B - 100 GALLONS;**
- **5. C - 135 GALLONS.**

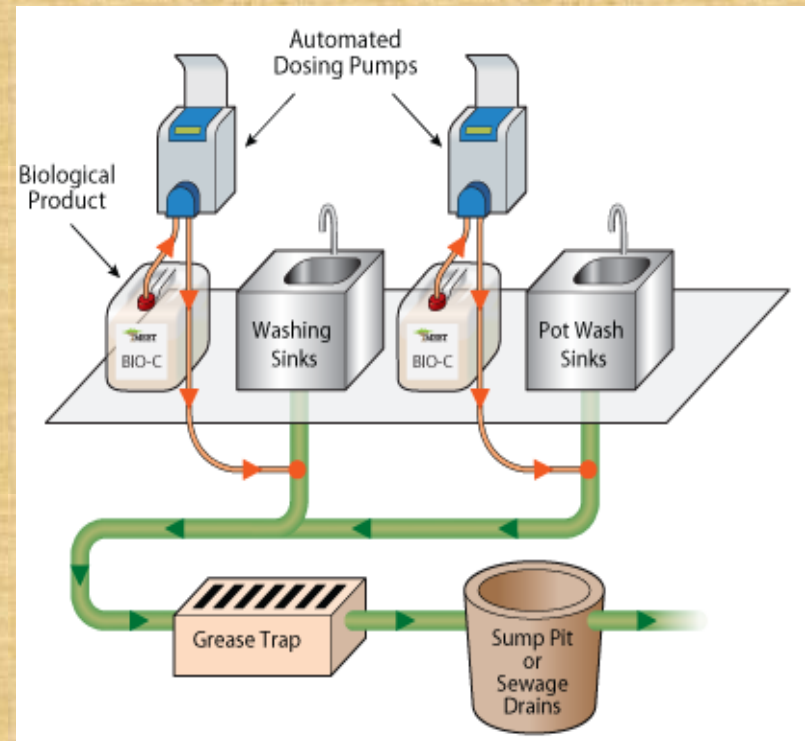

- **The grease will be completely removed from the trap and the trap will be power washed.**
- **Before and After Cleaning pictures will be provided.**
- **Discharge coupons will be delivered.**
- **The grease collected from the grease traps will be disposed in Dubai Municipality designated grease trap disposal location.**

CLEANING PICTURES

BIOLOGICAL DOSING

- **Installation of Dosing system and maintenance of dosing system.**
- **The installation of biological dosing system will inject environmentally friendly biological based degreasers that will break-down fats, oils, greases, proteins, carbohydrates / starches and other organic matter on a daily basis.**
- **This process will reduce drain-line and grease trap bad smell, overflows and blockages.**
- **Regular inspections on the dosage level will be done.**

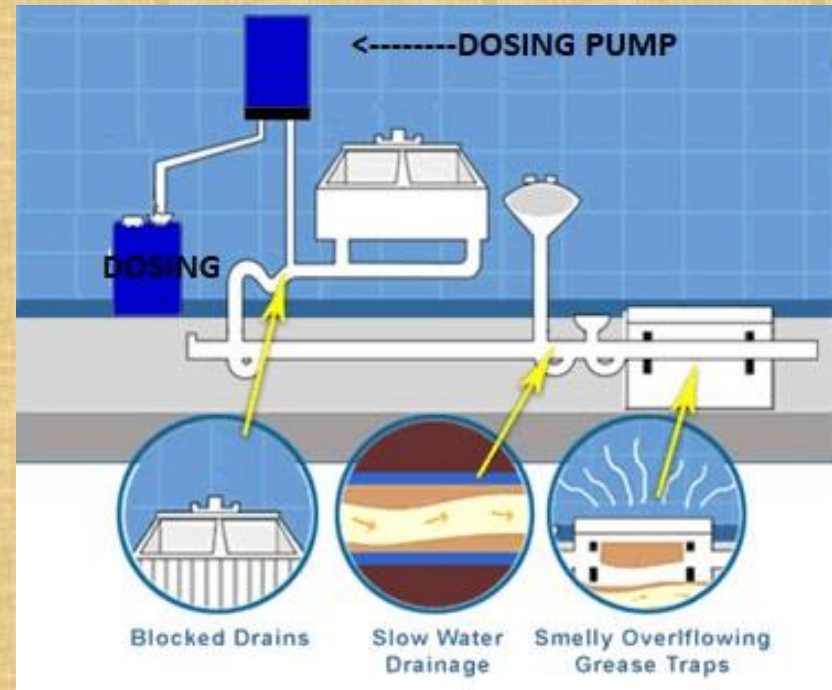

BIOLOGICAL DOSING PUMP

- **Dosing Pump is an automatic dosing system that provides the timed delivery of a liquid product. It is controlled by a real-time clock and offers different programmable timing entries. Programming is achieved using an external keypad with security access codes and is viewed on an alphanumeric display.**

DOSING PUMP

- **Prevent drain blockage.**
- **Reduce flooding incidents.**
- **Reduce smells from drain pipes, gullies, floor grates, grease traps.**

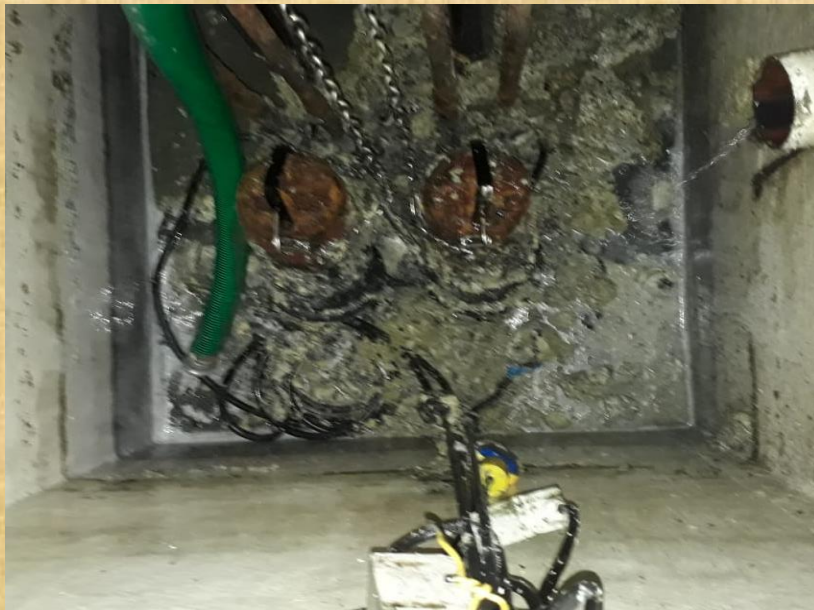

TANKS AND CONTAINERS CLEANING

SUMP PITS

A Sump pit holds water that's leaked into the basement due to rain or ground water or the sewage water that's risen into the basement so the sump pump can remove it.

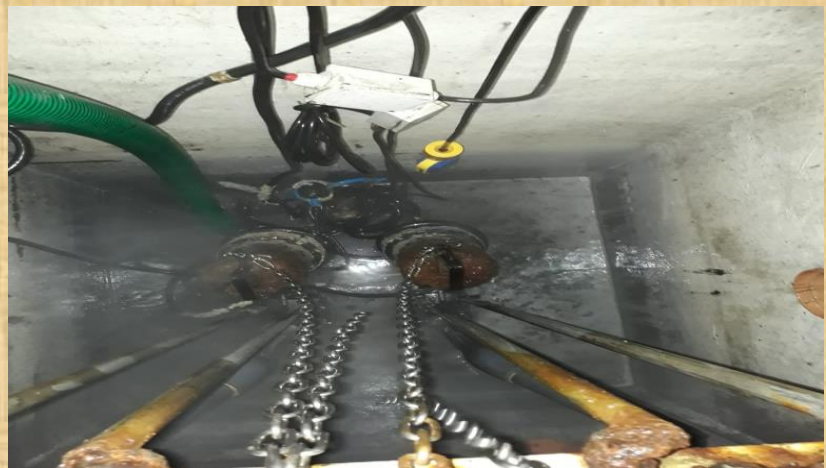

Over time, a sump pit will accumulate dirt and other debris.

Periodically cleaning is to be done for the sump pits for proper working of the sump pits.

TANKS AND CONTAINERS CLEANING

SUMP PITS

TANKS AND CONTAINERS CLEANING

IRRIGATION TANKS

Irrigation tanks are used to serve water to the plants, trees and landscaped areas in most of the parts in UAE. The irrigation water is stored in open GRP containers or in concrete ground and underground tanks. When water is continuously stored in a tank, it makes the water as well as the tank impure. This makes the tanks to be cleaned regularly.

TANKS AND CONTAINERS CLEANING

IRRIGATION TANKS

TANKS AND CONTAINERS CLEANING

SEWAGE, WASTEWATER, AERATION TANKS, STP TANKS ETC..

We specialize in the removal and disposal of liquid/Solid waste from domestic and commercial septic / sewage tanks, waste water tanks, aeration tanks, STP tanks etc. throughout UAE.

We can undertake the cleaning of all types of tanks including the removal of solid materials and sludge. We have confined space trained operatives and tankers.

Regular removal of this solid waste is important.

Depending on the volume of these tanks, it is important that they are cleaned out regularly. tank cleaning services can help you make that happen.

TANKS AND CONTAINERS CLEANING

SEWAGE, WASTEWATER, AERATION TANKS, STP TANKS ETC..

TANKS AND CONTAINERS CLEANING

SEWAGE, WASTEWATER, AERATION TANKS, STP TANKS ETC..

SEWAGE & WASTE WATER REMOVAL

We are specialized in transportation and disposal of hazardous and non-hazardous liquid waste in Dubai. We provide removal, transportation and its disposal in Dubai. We offer full service removal, transportation and disposal solutions while maintaining the safety and regulations related to toxic and hazardous wastes.

KITCHEN EXHAUST SYSTEM CLEANING

We provide professional kitchen deep cleaning services for the Kitchen Exhaust System. We provide Risk assessments and condition surveys.

Deep cleaning of kitchen canopies, filters, ductwork and fans are done at the time of cleaning. All ductwork cleaning is carried out as recommended. Completion report will be provided.

DRAIN BLOCK REMOVAL & LINE JETTING

Drain line blockage arises due to grease, sludge, sand and debris in the line. Blockage of drains is a common occurrence and gives an unsanitary/unpleasant impression to customers. Blockage and drain clearing is a tedious job. Cleaning is carried out using High pressure Jetting Machine.
