Create lightfull happiness

COLLECTION 2025

Garden Lights

Enjoy special moments

Garden lights has a wide range of **12-Volt outdoor lighting**. Gather inspiration from our brochure, social media channels and visit our stockists.

12 Volt

Plug & play

5 years warranty

Very easy to install yourself

12 Volt | Plug & play | 5 years warranty

With garden lighting

Without garden lighting

Enjoy your outdoor lifestyle all year round

Whether spring, summer, autumn or winter, the 12-Volt outdoor lighting from Garden Lights allows you to enjoy your garden until late into the night.

Outdoor lighting plays a major role in the design of a garden. With outdoor lighting, you can be creative in combining atmosphere and functionality. Garden Lights has a wide range of fixtures that will suit all tastes and budgets, whether you want to enjoy beautiful wall lighting or shine a spotlight on a hedge or shrub. With some spotlights, post or decklights, there is a solution in the range for every tree, shrub, pathway or decking!

Outdoor lighting is used for various different functions. Of course, we often talk about creating a visually appealing garden, but lighting can also be functional. Are you tired of returning home in the evening to a dark pathway leading to your front door? Illuminate the path using beautiful post lights. These are also really important for safety reasons.

Advantages 12 Volt system

- Very easy to install yourself
- It is not necessary to bury cables
- Safe for people and animals
- Easy to expand

Garden Lights

12 Volt · **Plug & play** · **5 years warranty**

Safe for children and animals

Scan the QR code for all installation videos or go to www.youtube.com/GardenLights.

Easy installation

1. Lighting

Whitin our wide product range, you select the fixtures with which you want to attractively illuminate your garden, driveway, fence, or pond. See page 12-25.

2. Transformer

The total wattage of your chosen lighting determines the wattage of the required transformer. Add up the number of watts of the lights + accessories. You can then choose a 24, 60 or 150-watt transformer. Tip: always provide some extra space in terms of wattage if you choose to add a light or accessory in the future.
 See page 26.

3x Wall light Mauri:	*18 watt*
2x Spotlight Neso:	*4 watt*
4x Post light Limosa 70:	*14 watt*
Total	*36 watt*

Advice: 60 watt Transformer

3. Main cable

The Flex main cable **without** fixed connectors is available in 10, 25 and 50 meters. With the separately available Flex connectors you can choose where to connect the lamp to the main cable. If necessary, you can expand the system with a cable divider, an extension cable and/or other accessories. See page 27.

You simply place, wherever you want, the Flex connector female on the cable. Open the connector, insert the cable and close the cover. Then connect the cable from the lamp to the Flex connector female.

Make your garden SMART with Garden Lights!

12 Volt

Plug & play

5 years warranty

Bring your garden to life with the new smart products from Garden Lights! Transform your garden into a colourful setting or have the lights come on automatically when it gets dark. With the Smart Life app, you have everything under control!

Anytime, anywhere control: Control your garden lights via the Smart Life app, wherever you are.

Energy-efficient and sustainable: Zigbee technology ensures low energy consumption and longer lifespan.

Smart features: Automation with an astronomical clock and up-to-date weather forecasts.

User-friendly app: Intuitive control and personalisation within one platform.

Seamless integration: Compatible with other Tuya-controlled smart devices.

Reliable connectivity: Stable communication thanks to Zigbee and Wi-Fi.

Safety and convenience: Simulate presence with programmed lighting schedules.

Wi-Fi

Experience the comfort of SMART garden lighting

Smart control

Garden Lights smart is the solution when you want to make your garden smart. With the handy Smart Life app, you can switch your lights on and off with the click of a button, dim the lights and use the colour wheel to choose from millions of different colours.

Our smart solution uses Zigbee and Wi-Fi technology. Wi-Fi connects you to the internet, allowing you to control your smart system from anywhere in the world via the Smart Life app. Whether you are at home or travelling, you are always in control. Via the app, you also benefit from handy features, such as the astronomical clock and weather forecasts, which make your garden lighting even smarter.

Zigbee allows your smart devices to communicate with each other in a so-called mesh network. This network strengthens the interconnections between Zigbee products, so you can install lights in places without Wi-Fi coverage. In addition, Zigbee is energy-efficient, ensuring that your smart products have a longer lifespan.

Make it SMART!

1381011   Extension cable - 0,3 meters (SPT-2W 16AWG)
6154011   Extension cable - 2 meters (SPT-1W 18AWG)
6005011   Extension cable - 6 meters (SPT-1W 18AWG)
6056011   Extension cable - 10 meters (SPT-3W 16AWG)
6177011   Extension cable - 2 meter rubber

Cable Splitter

6006011

Cable splitter
15 cm SPT-2W 16AWG
(with 3 connectors)

UK	EU	
6273011	6270011	max. 24 W
6313011	6311011	max. 60 W
6314011	6312011	max. 150 W

12 Volt Remote Control + Outdoor Receiver

6148011   12 V Remote + Receiver, max 150 W
6149011   12 V Receiver, max 150 W

- 9 groups of receivers can be controlled separately with
  one remote control, per receiver max. 150 W.
- Range up to approx. 40 metres (in open terrain).
- Remote control works on radio frequency.
- Batteries included.

12 Volt Dusk to Dawn Sensor + Timer

6009011

- Max. 150 W
- 1 Meter cable
- On/off
- Dusk- / dawn sensor
- 1-9 hours
- Uses 1 Watt loading

Universal ground spike

1363011

The groundspike is the ideal and practical solution to
secure the following garden lights:
• Kolossos
• Nepos
• Limosa
- The round plate is Ø 185 mm and the ground spike
 goes 300 mm in the ground.

Jona Tube

3226011

The Jona Tube is an accessory for the
Jona spotlight. Simply attach the Jona
spotlight to the tube. Place the tube with
ground spike in your garden to direct
lighting from above or aim the spotlights
at taller plants.

Light sources

To replace your current light source, see
www.garden-lights.com/downloads
for an overview of all lights sources.

Motion Sensor Smart (Zigbee)

6320451
