# MESSAGE

A Warm Hello to All,

If you have reached this page then there is a high chance that you really want to know deep about us and our philosophy. At the start, thanks for reading this page. By now you know that we at **Athud Media** are a team of high quality professionals working in the field of **Graphic Designing, Digital Marketing & Web Development** since last 5 years. Our strength is our team and our constant pursuit to be at our best always.

Once your brand is associated with us, we feel and think about it as our own. We treat your brand with the same passion and creativity as you do. At every step we think of making sure that we promote you and uplift your brand. From the look and feel of your website to its visibility in search engines and all other required platforms or devices, we make sure that every facet of your project with us is done with perfection.

We put all our experience and ideas into the process of your project to make sure that your website and campaigns look amazing to your target audience and you get not just your desired response but we should be able to surpass your expectations. We treat our web and graphic designers as artists, who will craft, design and develop your brand on the internet with their unique signature of style and generate that wow factor in front of the viewer.

I invite & welcome you to the Athud Media !

**Mr. Kamaljit Singh**

Founder & CEO, Athud Media

We have evolved to provide a full marketing service to business owners needing to build and promote their brand to audiences of all shapes and sizes. Our team covers specialist departments for graphic design and print advertising, web development and digital marketing, and distribution.

So why invest thousands in a website if no one can find you? Make sure you are part of the purchase decision by supporting your website and being proactive in its development and marketing. Your website is a living, breathing channel, and to keep itself running and adapting to the changing online world, you need ongoing updates, marketing and advertising. We're passionate about all things digital and are dedicated to helping you make the most of online and the opportunities available.

Google Ads help you achieve greater exposure to your target market and a competitive edge in online search with relevant, targeted and cost-effective marketing. From display ads on popular websites, to text ads in Google Search, we create campaigns that reach your potential customers, at the exact moment they are looking for a service/product that your business provides. Ask us about our Google Ads packages.

Social media, specifically Facebook, is an extremely important tool for businesses to use. It's one of the best channels to build brand awareness, community and profile your brand personality. Our creative team can help you make your social media channels work as seamlessly as possible for you by establishing, maintaining and optimising your social media to enhance your brand and grow your customer base through curated content.

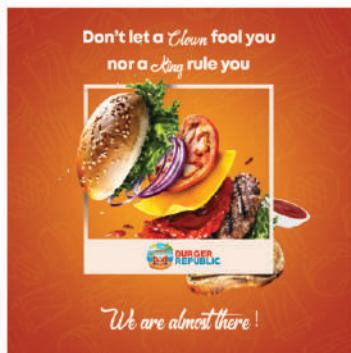

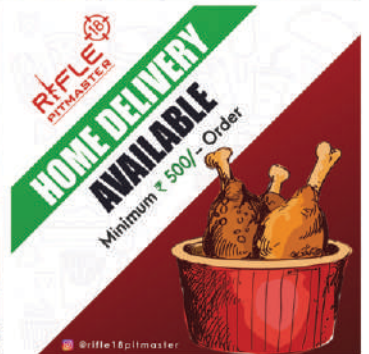

Search Engine Optimisation (or SEO) is critical to ensuring your website/business is 'found' online. We can make a range of enhancements to your website, optimising content to help you rank in a Google Search – as the 'higher' your business ranks, the more visibility your website will receive.

Email newsletters (EDMs) are about maintaining connection – a tool for businesses to stay in touch with their customers. We have inhouse content writers and designers that are able to create engaging newsletters that will inform, delight and foster loyalty for your brand.

Regular blogging adds valuable content to your website that can help customers better understand the expertise, services and/or products offered by your business. It gives you more visibility online, positions you as an expert in your industry and is an effective way of connecting with your customers. We are experienced at writing compelling blogs for a wide range of industries and organisations.

# SOCIAL MEDIA POSTS

# MOBILE APPLICATION

Everything we do online is responsive, meaning it will work across all devices, from desktop to smartphone. Mobile internet usage now exceeds desktop almost everywhere, so your website needs to be able to adapt and function on any device to provide the optimal viewing experience.

## APPS

Web applications are an ideal way to automate your business processes, saving you time and money. We can customise functionalities to do exactly what you want and integrate it seamlessly with your workflow.

## ECOMMERC

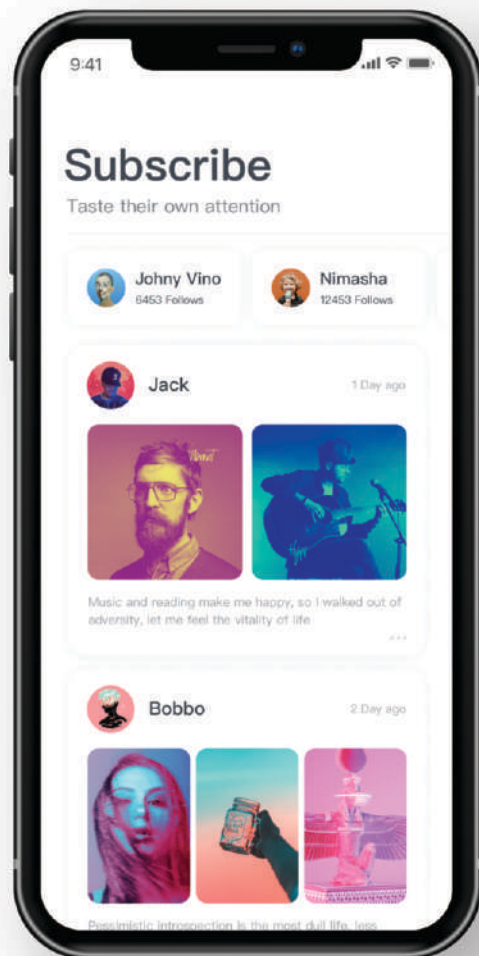

Our eCommerce systems are moulded into your business processes, making selling online easy. We know payment gateways, POS integrations, and everything in between to make eCommerce work.

## ANALYTICS & REPORTING

We know how to read analytics and can help you discover valuable insights from huge volumes of data. Every month we give you easy-to-read reports that show you how well your website is performing.

## BOOKING SYSTEMS

We know how to read analytics and can help you discover valuable insights from huge volumes of data. Every month we give you easy-to-read reports that show you how well your website is performing.

# OUR LOGO DESIGNING

The logo is a predominant part of the company when setting up, whether it is online or offline. Whenever people look for your business, it is the most recognizable aspect of your business, so you should not compromise with the logo.

## YOUR LOGO DESIGN CREATES TRUST AND BRAND AWARENESS.

Building confidence and appreciation will play a significant role in your company's success with your audience and customers.

"Your official Logo design gives your Business the seal of approval" when you place your logo on something like film critics, food critics, and other reviewers.

You're ensuring it lives up to the promise your company has made by putting your logo design on something, and your customers will trust it.

*A2 Bilona*  
**Desi Gau Ghee**

**Health Benefits**

- Strengthens Immune system and Vitality
- Excellent for Glowing Skin and Hair
- Retains Brain Health
- Helps in Digestion
- Helps in Weight Loss best Source of Healthy Fat
- Normalize Vata and Pitta Doshas. Nourishes the body.

**Method**

25-30 Litres of Desi Cow' A2 milk gives of 1 litre of Food of Future Ghee. It is made by the process as described in Ayurveda to retain all nutrients.

- The Fresh A2 Milk is boiled in a brass vessel by Cow dungs and set to curd. This increases CLA percentage in the Ghee
- The curd is then slowly hand-churned to Yield Makkhan. This step ensures that all the nutrients are retained
- The Makkhan is heated on a flame to yield golden Ghee.
