OUR DESIGN/BID PROCESS

WHY YOU MUST HIRE A LICENSED & INSURED CONTRACTOR

HIRING AN UNLICENSED OR UNINSURED CONTRACTOR MAY SEEM LIKE A WAY TO SAVE MONEY, BUT IT CAN COST YOU BIG TIME. HERE'S WHY:

Why Licensing & Insurance Matter

- ✓ Protects Your Home & Investment – Licensed contractors follow state laws, building codes, and safety regulations.
- ✓ Keeps You Covered – Most homeowners insurance won't cover damages caused by an unlicensed contractor.
- ✓ Prevents Legal & Financial Nightmares – If an uninsured worker gets hurt on your property, you could be sued for medical bills.
- ✓ Ensures Permits & Inspections Are Handled – Unlicensed contractors can't pull permits, leading to code violations or failed inspections.
- ✓ Workmanship is Guaranteed – Licensed professionals offer warranties, while unlicensed ones can disappear after the job.

Red Flags: Avoid Contractors Who Won't Show Credentials

- ✗ No proof of license? They likely don't have one.
- ✗ No insurance? You pay the price if something goes wrong.
- ✗ Won't pull permits? You take on all the risk.
- ✗ Suspiciously cheap? Expect hidden costs & low-quality work.

THE BOTTOM LINE

Hiring an unlicensed contractor is a huge risk. At Hello Kitchen & Bath, we are fully licensed, insured, and guarantee our work—so you can remodel with confidence.

WHAT OUR CLIENTS ARE SAYING

MARK S. - BATHROOM REMODEL

I cannot recommend the Hello Handyman crew, Dan, Allen and Chase enough! They were all incredible professionals! The results are amazing!

These professionals not only took on our bathroom remodeling project that was challenging to say the least. They delivered exactly what we had hoped for despite multiple changes!

They worked with us to design and reconfigure the smaller bathroom/laundry room into a highly efficient, modern space which is aesthetically pleasing as well as highly utilitarian! (Honestly, I spent a lot of time saying to myself "Cool! I wouldn't have thought of that!") And they did so at a price that was really reasonable.

The floor was not level. They not only leveled the floor, replaced an area of rotten floor, but they did that so carefully as to not damage the radiant in-floor heating system or its components in the wall race! The Hello Handyman team leveled, replaced and installed drywall professionally and methodically...never rushing just to get the job done! The way that Dan talked about his methodology again sounded like he was working on his own home. He's an artist!

They replaced the bath/shower per the agreement. But they also went the extra mile to reroute and replace supply and discharge lines simply out of a sense of ethics and pride of workmanship!

Thanks to Kyle, the custom cabinetry is not only spot on as per the plan and goal, but to be honest, really reasonably priced!

I was concerned about having access to the back of our washer and dryer. The team not only understood my concerns, but they designed a solution that addressed that concern as if it was their own home! It was honestly brilliant!

Living in construction is never an easy thing. Those of you who have ever done it know what I'm talking about. Dan and the team were amazing with regard to dust control, demo clean up, drop cloths all the way to the front door to prevent scratching our wood floors!

I highly recommend Dan and the Hello Handyman Team! We could not be more happy with the results!

WHAT OUR CLIENTS ARE SAYING

EMILY S. - KITCHEN REMODEL

They did a kitchen remodel for half of our kitchen. This company is wonderful to work with! They have fair pricing, very clean and respectful, wonderful service, and superior quality of work. Dan, Alan, Chance and the rest of the team were perfect to work with. We fully trusted them to work at our place when not at home. Would definitely recommend them for any reason!

ERICA - BATHROOM/LAUNDRY

Hello Handyman and its owner, Dan, are absolutely fantastic! I just wish I would have found this amazing, friendly small business sooner. Dan is a top notch professional and excellent craftsman! From communication, to the estimate, to the beautiful finished work... I could not be more pleased! He brought my vision for refreshing my tiny bathroom/laundry room to life and completely exceeded my expectations. His attention to detail and commitment to getting the job done right were evident throughout the two days he spent at my home. Such a great guy to work with, and I will recommend him to everyone I know! THANK YOU!!

WHAT OUR CLIENTS ARE SAYING

**DAVE S. -
REPEAT CUSTOMER**

The past two weeks, we used Hello Handyman to tackle a number of projects big and small that needed to be addressed on our home. Projects included replacing a sliding glass door, tearing down and rebuilding 3-story chimney with rotten wood framing, repainting doors and replacing outside lights I couldn't reach. Dan and Allen addressed all of them with an expertise and skill that far exceeded my expectations. They arrived on time each day, were careful in not tracking into our home, and were exceptionally diligent in successfully taking care of every project. They also are really good guys, kind and thoughtful, and patient with me in explaining each step of their work. This has been the finest experience we've ever had with home projects, and far exceeded the rude and unreliable ones who redid our master bedroom several years ago (who didn't show up when they said they would and acted annoyed when I asked questions). Dan and Allen, and the rest of their crew will be used again, and I highly recommend them to everyone. Feel free to contact me if you have more questions.
