"Your Partner in Industrial Excellence."

About Us

Tooling India Enterprises was established in July 2012 with a simple beginning, starting our journey as a dealership for Suhner Switzerland AG. Over the years, we have significantly grown and expanded our operations to represent multiple top industry brands. Today, we proudly offer over 250 product lines including abrasives, power tools, pneumatic tools, hydraulic hoses, and more. Our portfolio features trusted brands such as Deerfos, Klingspor, Stanley, Sumake, and Unoair, among others, reflecting our commitment to quality and reliability. We serve a wide range of industries by providing premium tools and consumables designed to enhance productivity and operational efficiency. Our customer-focused approach ensures that we offer products suited to diverse industrial applications, supporting our clients with solutions that meet their evolving needs. At Tooling India Enterprises, we combine industry expertise with a broad brand portfolio to deliver innovative, dependable products that help businesses succeed. Our growth is driven by a dedication to excellence, strong partnerships with global brands, and unwavering customer support. We believe in building long-term relationships by understanding the unique requirements of each client and delivering tailored industrial solutions. As we continue to expand, Tooling India Enterprises remains focused on delivering value, quality, and innovation across all our offerings to maintain our status as a trusted partner in the industrial tools market.

"Empowering Industry with Quality Tools."

Our Strength

At Tooling India Enterprises, our strength lies in a passionate and skilled team that drives our success. Each member contributes immensely across sales, service, and calibration, enabling us to achieve consistent growth and earn lasting trust from our customers. Our workshop is organized into dedicated departments for Electric Tools, Pneumatic Tools, Measuring Instruments, Hydraulic Equipment, Machinery, and Electrical & Electronic Solutions—ensuring focused expertise, efficiency, and superior customer support.

Our Customers

With gratitude, we extend our thanks to the 350+ valued customers who continually place their trust in Tooling India Enterprises. Our clientele spans a wide spectrum of industries—including Aerospace, Transport, Sugar Mills, Automotive, Foundries, Cement Plants, Engineering, Wind Energy, Service Sectors, Textile Mills, Railways, Defence, Power Generation, and many more. We take pride in supporting this diverse and ever-expanding customer base by providing reliable tools and consumables that empower their growth and innovation. As our reach increases, so does our unwavering commitment to quality, efficiency, and personalized service—ensuring that every partnership with Tooling India Enterprises is built on trust and performance that lasts.

PRODUCTS OF Germany

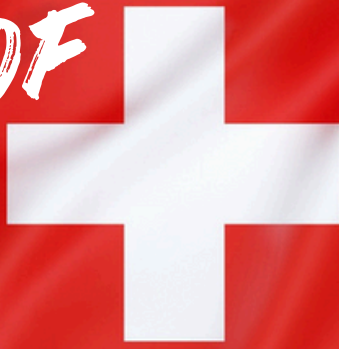

INTERLEAVED & NONWOVEN

In this product area you will find both pure nonwoven abrasives as well as ones which combine nonwoven abrasives with coated abrasives (interleaved). Whichever you choose, our nonwoven abrasive tools will provide outstanding results – even on materials which make other tools reach their limits

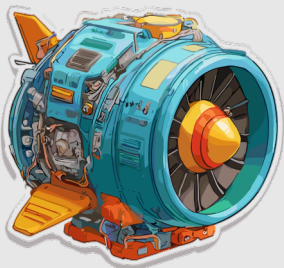

With interleaved tools, nonwoven abrasive and coated abrasives alternate. The abrasive cloth provides light material removal while the nonwoven abrasive softens the scratch pattern. The two combine to create a brushed surface appearance

PRODUCTS OF Swiss

★★★★★
CUSTOMER
SATISFACTION

Tooling India Enterprises serves as the authorized distribution partner in India, connecting the country's diverse and demanding industrial sectors with the renowned Suhner brand of Switzerland, a global leader in surface finishing and machining solutions for over a century. Through this strategic partnership, Tooling India provides customers with direct access to Suhner's full spectrum of precision-engineered products, including high-performance Abrasives, robust Pneumatic Tools, versatile Electrical Power Tools, and advanced Flexible Shaft Machines, ensuring local industries can achieve the highest standards of quality, precision, and efficiency in their metal processing and finishing operations.

SUHDNER®

Tooling India Enterprises supplies world-class German abrasives designed for precision deburring, surface finishing, and polishing of metal components. Our range includes innovative abrasive belts, wheels, discs, and brushes engineered to deliver consistent performance and superior finish quality. Trusted across industries, our products help manufacturers achieve smooth, burr-free components with exceptional accuracy and durability. Backed by advanced German technology and local expertise, Tooling India Enterprises ensures reliable solutions for all your finishing applications. Enhance your production efficiency and component aesthetics with our premium abrasives — the perfect blend of performance, quality, and value.

Tonichi Japan

We, Tooling India Enterprises, supply high-precision Tonichi Japan torque wrenches for all your assembly needs. Engineered for accuracy and reliability, Tonichi tools ensure consistent torque control across various applications. Choose our trusted solutions to enhance quality, safety, and efficiency in your assembly and production processes.

Tooling India Enterprises is one of the largest sellers of pneumatic tools, offering an extensive range that includes both imported products and leading domestic brands. We deal in all types of pneumatic tools, catering to diverse industrial, workshop, and manufacturing requirements. Our wide portfolio covers everything from general-purpose tools to specialized pneumatic solutions, ensuring customers find the right product for every application. With a strong focus on quality, performance, and reliability, Tooling India Enterprises supplies only trusted brands that meet industry standards. Backed by deep product knowledge, competitive pricing, and prompt service, we have built a strong reputation as a reliable one-stop destination for pneumatic tools. Our ability to provide multiple brands and import options under one roof makes us a preferred partner for customers seeking variety, authenticity, and dependable support.

requirements
with us."*

Discover The Power of Speeco

Tooling India Enterprises – Authorized Distributors of Speeco Power Tools

Tooling India Enterprises proudly stands as an Authorized Distributor of Speeco Power Tools, delivering reliable, high-performance solutions to customers across industries. Our association with Speeco reflects our commitment to quality, trust, and technical excellence. As an authorized distributor, Tooling India Enterprises ensures that customers receive 100% genuine Speeco Power Tools, backed by manufacturer assurance, consistent quality standards, and dependable after-sales support.

Speeco Power Tools are widely recognized for their robust build, superior performance, and long operational life. Through Tooling India Enterprises, these strengths are made easily accessible to professionals, workshops, and industrial users who demand efficiency and durability. We provide expert product guidance, helping customers select the right tools for their specific applications, thereby maximizing productivity and safety. At Tooling India Enterprises, customer satisfaction is our core strength. Our strong distribution network, prompt service, and reliable product availability make us a trusted partner in the power tools segment. By combining Speeco's advanced engineering with our market expertise and service commitment, we deliver value-driven solutions that support business growth.

Tooling India Enterprises continues to strengthen its reputation as a dependable source for Speeco Power Tools, reinforcing long-term relationships built on quality, authenticity, and professional integrity.

Tooling India Enterprises provides complete solutions for all your fabrication requirements.

Tooling India Enterprises is a trusted name in industrial supply chain solutions, offering a wide range of engineering consumable products and services tailored to meet every customer's unique requirement. Just like a reliable freight partner, we ensure timely sourcing and delivery of industrial tools, equipment, and materials — no matter how specific the need.

We work closely with leading global brands and manufacturers to deliver customized solutions across various industries, including automotive, aerospace, food processing, and general engineering. Our goal is to provide reliable, world-class products that enhance performance, productivity, and efficiency in every application.

At Tooling India Enterprises, we believe every customer deserves a personalized approach. Our team understands your applications, identifies the right product, and ensures you receive exactly what your operation requires. Backed by over a decade of experience and a strong supplier network, we make procurement simple, efficient, and dependable.

Whether you need a single specialized tool or a comprehensive range of engineering consumable products, we deliver with commitment, quality, and care — helping your business achieve operational excellence with confidence.
