Hello everyone. Today I want to tell you about the most exciting holiday I ever had. Last summer, my family and I went to an amazing adventure park near the coast. It was a place full of action and sports.

The park was next to a huge, beautiful lake. The first thing I saw were people doing water skiing. They moved so fast on the water! My older brother, who is very brave, tried kite surfing, and he was flying above the waves. It looked difficult but so cool. I didn't try those, but I went diving with my dad. We put on special masks and went under the water to see all the colourful fish. It was quiet and beautiful down there.

But the adventure wasn't only in the water. One afternoon, we went to a special track for go-karting. I raced against my dad, and I almost won! It was my favourite activity of the whole holiday. The next day, we did something more relaxing. We went horse-riding on a gentle path through a green forest. My horse's name was Star, and she was very friendly.

The park also had a giant wall for rock climbing. I was a bit scared at first, but I put on the helmet and the ropes and started to climb. I didn't get to the very top, but I was proud of how high I went!

Every morning, before the big adventures, my mum and I went for a short run. Just some easy jogging around the lake to see the sunrise. It was the best holiday because there was something exciting to do every single day.
