SURGICAL & EXAMINATION GLOVES

Surgical are sterile type of gloves used in surgeries. Examination Gloves are the general purpose gloves. We follow a systematic process in building the entire plant. We specially take care for minimum rejection and reducing per piece cost to create maximum profits for our clients. Chain and holder are specially developed using imported steel to withstand constant temperature fluctuation. We create turnkey projects and also support in plant layout and civil related guidance.

	Model	Machine Size (m) (L x W x H)	Min Plant Size (m) (Lx W x H)	Layer	Max Capacity (pcs /day)	Power (kW/hr)
Surgical Gloves (Single Former)	VSI-GL-80x8	80x2.3x8.5	85x20x9.5	8	184000	60
	VSI- GL-100x8	100x2.3x8.5	105x20x9.5	8	230000	70
	VSI- GL-110x8	110x2.3x8.5	115x20x9.5	8	253000	75
	VSI- GL-120x8	120x2.3x8.5	125x20x9.5	8	276000	80
	VSI- GL-150x8	150x2.3x8.5	155x20x9.5	8	346000	95
	VSI- GL-180x8	180x2.3x8.5	185x20x9.5	8	415000	110
Examination Glove (Double Former)	VSI- GL-100x10	100x2.3x10	105x25x11	8	461000	120
	VSI- GL-120x10	120x2.3x10	125x25x11	8	553000	140
	VSI- GL-150x10	150x2.3x10	155x25x11	8	691000	170
	VSI- GL-180x10	180x2.3x10	185x25x11	8	829000	210
	VSI- GL-200x10	200x2.3x10	205x25x11	8	922000	220
	VSI- GL-180x11	180x2.3x11	185x25x12	10	1037000	240
	VSI- GL-200x11	200x2.3x11	205x25x12	10	1152000	250

BALLOON DIPPING MACHINE

Balloon dipping machines are utilized in the production of party balloons, helium balloons, and a variety of general-purpose balloons in different shapes and sizes. Our equipment is designed to produce balloons weighing between 1.5 grams and 5 grams. We can manufacture balloons in eight distinct colors. The production capacity can reach up to 12 lakh pieces per day.

Model	VSI-45 BL	VSI-60BL	VSI-80BL	VSI-100 BL
Dimension (L*W*H*) (m)	45*1.26*4.45	60*1.26*4.45	80*1.26*4.45	100*1.26*4.45
	45*1.70*4.45	60*1.70*4.45	80*1.70*4.45	100*1.7*4.45
	45*2.23*4.45	60*2.23*4.45	80*2.23*4.45	100*2.23*4.45
Layer	2	2	2	2
Mould/row	16/24/32	16/24/32	16/24/32	16/24/32
Mould(pcs)	10912/16368/21824	14944/22416/29888	20272/30408/40544	25600/38400/51200
Capacity (pcs/hr)	10560/15840/21120	14400/21600/28800	19200/28800/38400	24000/36000/48000
Heat (Kcal/hr)	250000	400000	500000	625000
Power (kW/hr)	23kw	29kw	32kw	40kw
Usage of Latex (ton)	2.5	3	3.5	4.5
Worker	5	5	6	7
Water (ton)	30	40	50	60
Heating Source	Thermopack.			
Voltage(V)	380/220V 50-60HZ			

CONDOM DIPPING MACHINE

We create high quality Condom Dipping Machines as per the industry standards. We also provide customization on machine sizes as per the production requirement of client. Maintaining high efficiency and quality while bringing down per piece cost is our prime focus. Three basic sizes of machines are as follows:

Model	Machine Size (m) (LxWxH)	Max Capacity (day/pcs)	Water consumption (Ltr./hr)	Power (kw/hr)
VSI-CM-40x6	40X4X6	1,00,000	2000	50
VSI-CM-55x6	55x4x6	1,50,000	4000	55
VSI-CM-65x6	65x4x6	2,50,000	6000	60

ABOUT US

AT **V.S INDUSTRIES** We take care of your Dipping Lines, automation and material handling requirements. We have expertise in manufacturing SPMs, Assembly lines, Conveyor system, Cranes, Drilling & Tapping machine & Leak testing machine. We have a wide range of products and are always on a path of developing new products for our precious customers. We have been serving industrial giants since 15 years.
