## KINESTHETIC SENSE

Kinaesthesia literally means **feeling of movement**. It is the sense that provides the brain with information concerning the contracting and stretching of our muscles. This information enables us to control our movements. Kinaesthetic impulses provide an automatic system for maintaining posture, walking, talking, gesturing and performing any motor activity.

MESSAGE FROM THE

## FOUNDER.

Over the course of my versatile 22-year career, I've had the privilege of working in a variety of disciplines, including maintenance, operation, production, project management, sales & marketing, technical consulting, application engineering, training and development, and business management. However, it was my work in training and development that truly captured my heart.

I still remember my first training session in 2003, when I stood in front of a group of 15 individuals and realized that this was what I was meant to do. Since then, I've never looked back. Training and development has brought me immense joy and satisfaction, and I am grateful to the Almighty Allah for this gift.

### THAT'S A GIFT TO ME FROM THE ALMIGHTY ALLAH.

Everything happens for a reason and my being in this field has a reason to add value to other people's lives. I have transformed my life and I am on a mission to do the same for other people. These happened my way and I am helping other people make them sharper their ways.

*Khuram Shadgard*

**intro**

At our training company, we're *passionate about helping* individuals and organizations reach their full potential. As Pakistan's first training company to offer soft skills, management, and engineering training programs, we've been dedicated to this mission since 2003.

Based in Lahore, Pakistan, we offer a range of management and engineering training programs to the corporate industry across Pakistan and the Middle East. Our team has **over 10 years of experience** in helping organizations and individuals improve and achieve more.

What sets us apart from other training companies in Pakistan is our commitment to offering both management and engineering training programs. We believe that a well-rounded approach to training is key to success in any industry.

Whether you're an individual looking to improve your skills or an organization seeking to enhance your team's performance, we're here to help. Let us guide you on your journey to becoming better and achieving more.
