

Nutritional blend of Anti-Oxidants,
Immunomodulators & Hatchability Regulators

AB-Esel 20

- ☀ Immune Booster
- ☀ Hatchability and fertility improvement
- ☀ Better Growth
- ☀ Heat Stress

An Easy Access to Care

AB-Esel 20

Ingredients:

Compositions of each liter:

| | |
|-----------------|------------|
| Vitamin E | 200,000 mg |
| Sorbitol | 10,000 mg |
| Zinc | 4,000 mg |
| Selenium | 1,000 mg |

Indications:

Vitamin E is a fat-soluble intracellular antioxidant, involved in establishing unsaturated fatty acids.

Sorbitol increases bile salt excretion and helps to improve the performance of poultry.

Zinc is a necessary element for many aspects including growth, mineral deposition, enzyme function, and protein synthesis.

Selenium is an essential nutrient for animals that is important for the maintenance of homeostasis with anti-inflammatory and potential antimicrobial capacity. Selenium is a component of the enzyme glutathione peroxidase, which has a strong antioxidant effect by destroying oxidizing agents like free radicals and oxidated unsaturated fatty acids.

The main antioxidant property is preventing the formation of toxic free radicals and oxidation of the unsaturated fatty acids in the body. These free radicals can be formed in periods of disease or stress in the body.

AB-Esel 20 reduces Vitamin E and Selenium deficiencies.

AB-Esel 20 improves the immune system.

AB-Esel 20 prevents Encephalomalacia.

AB-Esel 20 prevents Muscular dystrophy.

AB-Esel 20 improves hatchability and fertility.

AB-Esel 20 improves growth and pectoral muscle quality.

AB-Esel 20 reduces heat stress.

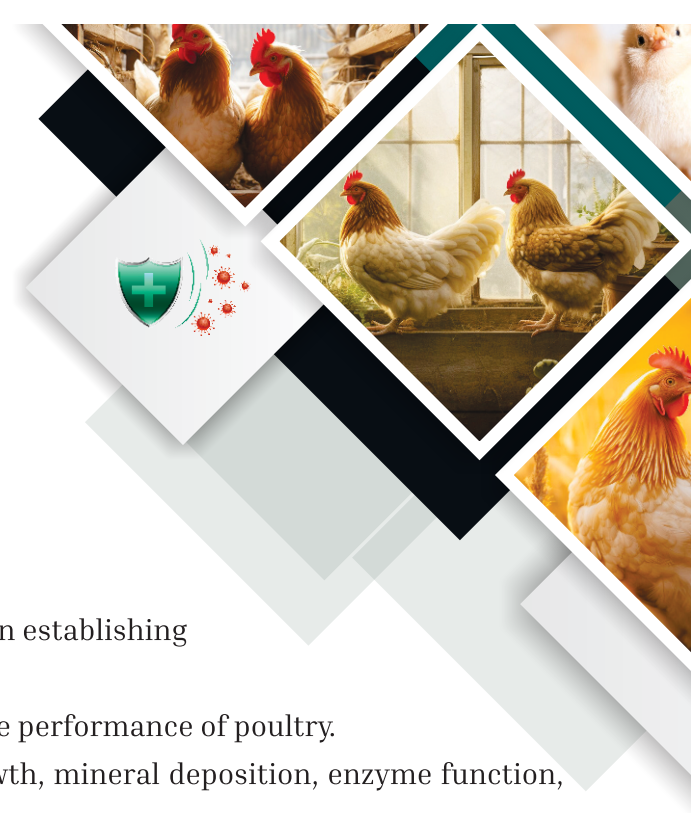

Dosage and Administration:

For oral administration.

Poultry: 1L per 8000L of drinking water for 3 – 5 days.

Chicks (<21 days): 1L per 2000 – 4000L of drinking water for 3 – 5 days.

Packing: 1L/bottle.
