LITER

An Easy Access to Care

AcidoMix

Ingredients:

Lactic Acid	100,000 mg	Tartaric Acid	15,000 mg
Formic Acid	180,000 mg	Malic Acid	10,000 mg
Citric Acid	65,000 mg	Copper	10,000 mg
Acetic Acid	85,000 mg	Butyric Acid	50,000 mg
Propionic Acid	100,000 mg	Sorbitol	10,000 mg
Phosphoric Acid	80,000 mg		

Indications:

Formic acid promotes intestinal health and has an antimicrobial effect of limiting pathogens in the feed and their subsequent establishment in the gastrointestinal tract.

Lactic acid functions as a flavor enhancer, pH regulator, preservative, and source of mineral fortification.

Propionic acid reduces the growth of pathogens and has a growth-promoting effect by utilizing nutrient digestion.

Butyric acid acts as a readily available energy source and stimulates gut and stomach mucosal morphology for efficient nutrient absorption.

AcidoMix provides a beneficial effect on the performance of animals by reducing the pH of the stomach and gut thus decreasing pathogenic bacteria growth that affects intestinal health such as Salmonella, Campylobacter, and Escherichia coli.

AcidoMix promotes beneficial gut flora and enhances gut integrity.

AcidoMix with complex acidifier supplementation increases both the villus height and crypt depth in the intestine, enhancing healthy tissue integrity and absorption ability.

AcidoMix improves both ME and nutrient digestibility.

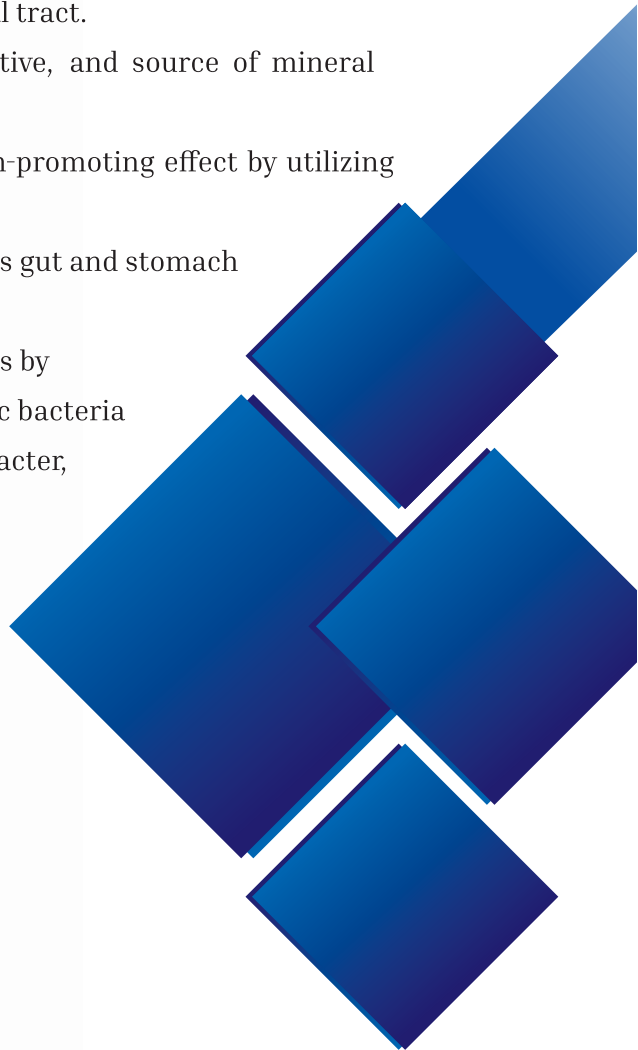

AcidoMix stimulates immune response in animals.

Dosage and Administration:

Poultry: 1ml per 5L of drinking water for 3-5 consecutive days.

Cattle: 1ml per 2L of drinking water.

Packing: 10L/can.
