

ProMint

Herbal bronchodilator and expectorant

Oral Solution 1 Liter

An Easy Access to Care

ProMint

Herbal bronchodilator and expectorant

Ingredients

Compositions of each liter:

Eucalyptus oil	140.000 mg	Menthol	25.000 mg
Peppermint oil	70.000 mg	Bromhexine HCl	2.400 mg
Thyme oil	45.000 mg		

Indications

Eucalyptus oil can act both as an antimicrobial and antiphlogistic agent, thus also potentially reducing the production of inflammatory mediators.

Menthol is a natural analgesic, antitussive, and cooling compound, can inhibit pulmonary ventilation and reduce the sensation of dyspnea.

Peppermint is used against endoparasites, anticoccidial (*Eimeria* spp.), antiviral (Newcastle disease) in poultry. The oil has larvicidal activity against *Aedes aegypti*, *Anopheles stephensi* and *Culex quinquefasciatus* mosquitoes. Peppermint supplement in the diet of laying hens has been proven to significantly increase egg weight, egg production, egg mass and feed intake.

Thyme has antioxidant, anti-inflammatory, and antineoplastic actions. Moreover, thyme has long been known for its antiviral, antibacterial, antifungal, and antiseptic activities, in addition to remarkable disruption of microbial biofilms.

Promint has powerful decongestants, expectorants, antimicrobials, help to break down mucous, and aid in respiratory disease relief.

Promint prevent and treat coccidiosis and bacterial inflammation.

Promint prevent viral diseases.

Promint increase egg production, egg weight, egg quality and egg product.

Promint increase feed intake.

Promint decrease mortality.

Promint increase digestibility
