Indications:

Bacillus subtilis provides several benefits for animal health including immune modulation by inhibiting the growth of harmful bacteria, ensuring efficient growth performance, and maximizing feed efficiency. **Yucca Shigera** with effective antiprotozoal and antioxidant activity, can improve digestibility and control environmental ammonia levels.

MOS enhances feed intake, and feed utilization by improving the gut's digestive and barrier function.

Phosphoric Acid acts as a pH regulator and provides favorable conditions for efficient digestive enzyme activity and antimicrobial activity.

Protox increases gut immunity and gut health by providing MOS.

Protox with probiotics improves gut health, immunity, and growth performance.

Protox increases resistance against stress and diseases by providing vitamins and minerals.

Protox removes odor by adding Yucca Shigera.

Protox reduces Mycotoxin problems by adding MOS and other toxin-binding materials.

Protox increases gut health by providing organic acids.
