

SHOT by SHEN Photography

Private Sessions

Every person has a story worth capturing.

At **SHOT by SHEN Photography**, we design private sessions that bring out your individuality, confidence, and personality in a comfortable, creative setting.

Whether for personal branding, portfolio work, or a self-expression project, our focus is on creating images that reflect the real you.

Portraits & Headshots

Professional, expressive portraits for creatives, models, and professionals.

Each session is guided to highlight your best features, using expert lighting, angles, and composition to create flattering, impactful imagery.

Studio or Outdoor Shoots

Choose between the controlled precision of a studio setup or the natural atmosphere of outdoor locations.

We assist with styling, poses, and direction to ensure every shot feels effortless and true to your personality.

Creative Concepts & Fashion Editorials

For those seeking something bold and artistic, we craft stylized shoots that merge fashion, mood, and storytelling.

These sessions are perfect for models, influencers, and creatives who want portfolio-quality visuals that stand out.

Short Video Portraits

Our cinematic video portraits are perfect for digital use from social media reels to website features.

We use motion, music, and storytelling to bring personality to life on screen.

Our Focus

Every session is built around authenticity and artistry.

We create a space where you can relax, express yourself, and shine.

The result is a collection of visuals that feel modern, natural, and completely unique to you.
