

Cross Country Land Services, LLC

Veteran Owned | Maine DEP Certified
Specializing in Compliant Site Execution

CAPABILITY STATEMENT

COMPANY OVERVIEW

Cross Country Land Services, LLC is a Veteran-Owned Small Business (VOSB) and a strategic infrastructure partner for large-scale civil, state, and federal contracts. Based in Maine, we provide a unified, end-to-end approach to site execution, from high-production clearing to final precision grade. By maintaining 10 full-time, highly-certified crews and an extensive heavy-duty fleet, we eliminate subcontractor bottlenecks and provide a single point of accountability for complex, high-stakes projects.

CORE COMPETENCIES

- Wildfire Mitigation & Fuel Reduction: Strategic vegetation management, creation of defensible space, and fuel load reduction to protect critical infrastructure and high-value timberlands.
- Mass Land Clearing & ROW: Rapid vegetation removal and right-of-way preparation using high-horsepower industrial assets with LGP footprints to minimize soil disturbance.
- Civil & Site Infrastructure: Precision excavation and grading; specialized trenching for water, sewer, gas, and electric, as well as critical fiber optic and telecommunications infrastructure.
- Environmental & DEP Compliance: Erosion & Sediment Control, specialized Shoreline & Slope stabilization, Stream & Tidal Crossings, and Wetland Restoration.
- Biosecurity & Stewardship: Strict adherence to invasive species mitigation. Biodegradable hydraulic fluids used in sensitive riparian zones and an LGP fleet to ensure minimal soil compaction.
- Remote Site Execution: Mobile Operations Capable with self-sustained crews for remote or off-grid site execution.

THE STRATEGIC ADVANTAGE

- Safety Excellence: Zero claims and zero recordable injuries over the last 3 years. 100% of our 10 full-time crews are Maine DEP-certified and OSHA 10 Construction certified.
- Carbon-Efficient Mulching: On-site processing eliminates thousands of truck-haul miles and associated carbon emissions, accelerating project timelines and reducing environmental footprint.
- Unrivaled Bonding & Capacity: \$25,000,000 single-project bonding capacity, positioned for major municipal and federal infrastructure.
- Administrative Readiness: Active SAM.gov registration; Electronic Invoicing (iRAPT/WAWF) Capable; Government Purchase Cards (GPC) Accepted.
- Teaming Flexibility: Available for Prime Contracting or Strategic Subcontracting partnerships with large-scale Civil Engineering and Environmental Consulting firms.

WILDFIRE & DISASTER RECOVERY SERVICES

- Fuel Load Management: High-production mulching to eliminate hazardous ladder fuels and forest floor debris.
- Defensible Space & Firebreaks: Engineering strategic breaks to protect municipal assets and federal installations.
- Post-Fire Rehabilitation: Rapid mobilization for erosion control and slope stabilization on charred terrain.

COMPANY DATA & CODES

UEI: W7ZHSQWKC8N6 | CAGE: 1AEB9 | Status: VOSB

Government Purchase Cards (GPC) Accepted

Bonding: \$25M Single / \$50M Aggregate | Safety Rating: 3-Year Zero-Incident History

NAICS CODES:

- Primary: 238910 – Site Preparation Contractors
- Secondary: 115310 (Forestry Support), 562910 (Remediation), 237110 (Utility Construction)

PSC CODES:

- F003: Forest/Range Fire Suppression/Presuppression
- P100: Prep/Alteration of Construction Site | F006: Land Reclamation

SPECIALIZED EQUIPMENT & ASSETS

Industrial Mulching Fleet:

- Prinoth Raptor 500 & CMI 400: High-production industrial assets for mass clearing.
- ASV RT-135 & RT-120: Industry-leading torque for heavy forestry applications.
- CAT 275XE: Precision tracked mulching for technical or tight-access clearing.

Heavy Excavation & Earthmoving:

- Link-Belt & CAT Excavators: Heavy units for mass excavation and utility installation.
- Liebherr & CAT LGP Dozers: Low-ground-pressure assets for precision grading and stabilization.
