

CONCEPT AND FEATURES OF EXPANDABLE CONTAINERS

Expandable container house is convenient to assemble, can be moved frequently, more importantly, large space for mobile living. The production period is approx 20 days, we self-develop and all fitting have been assembled in the factory. The house will be folded to save space during transportation, when shipped to destinations, it can be quickly and easily installed.

Flexibility and mobility

- Flexible structural design
- Quick disassembly, relocation, and assembly
- Ideal for temporary buildings and mobility needs

Customizable

- Customizable structure and interior layout
- Flexibility in room sizes, kitchen, bathrooms, etc.
- Tailored to specific requirements and purposes

Quick installation

- Prefabricated and modular design
- Quick and easy installation
- Shortened construction time and increased efficiency
- Savings in labor and cost

Diversified applications

- Temporary housing, Offices
- Commercial purposes
- Educational facilities
- Medical facilities
- Tourism and hotel industry

Sturdy and durable

- Made from high-strength steel materials
- Excellent durability and resistance to wind and seismic forces
- Adaptability to harsh environments and climates
- Long lifespan and stable performance

Environmental protection and energy saving

- Environmental-friendly materials
- Reduced energy consumption and environmental impact
- High reusability and minimal resource wastage

INSTALLATION PROCEDURE

- **FAST ASSEMBLING**-averagely **5 workers** can achieve 1 container opened within **10mins**. The container also can be assembled in factory and then transferred to the site.

- **SAFE AND DURABLE**-over **15-20 years** life span, seismic resistance to **8** degree, wind resistance to **11** degree.

- We will first finish prefabricated in the factory, folded up the overall transport, save space after shipping to the destination can be used 5 people can finish operation.

- Save shipping cost-folded up the overall transport, save space.

5 STEPS + 10 MINUTES = 1 HOUSE

OPTIONAL CONFIGURATION

LIVORHAUS®
Affordable Luxury. Portable Paradise.

TYPES AND SPECIFICATIONS

20 FT BASIC CHARACTERISTICS

External Dimensions (mm):

W6320 * L5900 * H2480 (side:2270)

Internal Dimensions (mm):

W6160 * L5560 * H2240 (side:2150)

Folded Dimensions (mm):

W2200 * L5900 * H2480

Total Weight (kg):

Advantages of bamboo wood fiber board

- 1.Easy to clean: the treated appearance is easy to clean and sanitary, can be directly wiped with water, no blistering and deformation.
- 2.Fashionable and elegant: rich and diverse types, many colors, can be designed and matched according to personal preferences, elegant and exquisite.
- 3.Time saving: using ordinary buckle board device, it can be directly folded, spliced and overlapped, easy to install and reduce decoration time.
- 4.Super sound insulation: the sound insulation effect reaches twenty-nine decibels, which is similar to the real wall, making the room quiet and comfortable.
- 5.Super hardness: made by using original ecological bamboo wood fiber to improve hardness, anti-collision, anti-friction and not easy to scratch.
