

The background of the entire page is decorated with faint, light-gray illustrations of the twelve zodiac signs. These figures are arranged in a circular pattern around the central text. Each figure is a stylized, minimalist representation of a person in various poses, some holding objects like a bowl, a torch, or a flower. The overall aesthetic is clean and modern.

Elements of The Zodiac

Our custom rituals are uniquely designed to reflect the four elements of the zodiac: Fire, Earth, Air, and Water.

Fire – Sagittarius, Leo, Aries

Like fire itself, fire signs tend to be passionate, dynamic, and temperamental.
Brave, Artistic, Confident, Passionate, Independent

Earth – Taurus, Virgo, Capricorn

The Earth signs represent a sacred, spiritual path. Earth signs keep it real. They are the “grounded” people on the planet, the ones who bring us down to earth and remind us to start with a solid foundation.
Detail-oriented, Down-to-Earth, Cultivated, Grounded, Practical

Air – Libra, Aquarius, Gemini

Air is what connects our hearts and our minds to the world around us. Air is the linking element. Air signs are all about action, ideas, and motion—they are the “winds of change.”
Witty, Social, Spacey, Intellectual, Good Listeners.

Water – Pisces, Scorpio, Cancer

Water is about emotions. Water feels. Intuitive, emotional and ultra-sensitive, water signs can be as mysterious as the ocean itself. Like water, they can be refreshing, or they can drown you in their depths.
Imaginative, Empathetic, Emotional, Nurturing, Intuitive

Nail Enhancements

Soft Gel

A soft Gel extension system is designed to be flexible and easy to remove. The primary advantage is that they can be soaked off with acetone, like gel polish. This enhancement is best for thin extensions or color layering.

Gel-X

A soft gel nail extension system designed to be flexible and easy to remove. Gel-X tips and the Extend Gel are both made with a soft gel formula that can be soaked off with acetone, like traditional gel polish. Gel-X extensions retain a natural, flexible feel after application, unlike the rigid feel of acrylics. The pre-shaped Gel-X tips allow for a quicker application process compared to sculpting with builder gel. Gel-X extensions can last for several weeks with proper application and care.

Hard Gel and Acrylic

These enhancements are ideal for longer-lasting extensions, nail repairs, and clients who need a stronger, durable finish. These can be applied onto natural nails or and extension tip. Both require filling in order to be removed.

Super Gel Overlay

This enhancement can be added to your service. It includes adding a layer of gel builder to your nails and is applied before polish or gel.

Nail Art

We offer a variety of nail art options to enhance your manicure service. Guests can choose glitter, chrome, french finishes, or hand painted designs.

Our nail artists can create and customize hand-sculpted designs for you.

Note, nail art requires a consultation.
