Vision and Mission

Vision

We look forward to expanding in the advanced future business, implementing smart ideas in the participation of successful companies, and contributing effectively to the contracting sector in an honorable and honest manner to reach the best results to meet the needs of society in all its categories to bring our company to a global level in providing services of the highest quality and professionalism.

Mission

Our mission lies in spreading the culture of quality in its true sense in the field of general contracting in Saudi Arabia, to create real competition between all companies and instructions that provide general contracting services, whether large or emerging companies and the mission that we adopt is to provide the best services at the most appropriate cost.

Goal & Values

Goal

We have a strong goal represented in building long-term partnerships with many customers in Saudi Arabia, we do our best to achieve this goal to meet the aspirations and needs of our current and future customers, and we are proceeding according to an organized plan through which we seek to expand our activities to cover our services throughout.

رؤية
VISION
2030

Values

Safety.

We prioritize the safety of our employees, clients and communities above all else.

Respect

We respect each other as a team, and our clients as well.

Integrity.

We conduct all of our business with honesty and transparency.

Quality.

We strive for excellence in all that we do, delivering top-quality work for our clients.

Innovation.

We are constantly seeking out new ways to improve our processes and deliver value to our clients.

Collaboration.

We believe teamwork and collaboration are keys to success, and we foster a culture of individuals and cooperation.

Our Services

We are an integrated construction and fit-out company that offers a wide range of services to meet the clients' needs and requirements. Each of the following features is diversified in its scope.

Construction & Fitout.

This is the bread and butter of the company. We can confidently undertake the construction of all types of buildings, land development, and industrial projects.

Design.

The company has the qualified designer to conceptualize, innovate, create, and concertize ideas in architecture and engineering of any building structures and any projects.

Project Management.

The Company has a well-trained engineers with outstanding leadership that can handle projects on time at a reasonable control, safety, procurement, equipment and logistics, budget control, human resources, planning and monitoring.

Maintenance

We Provide maintenance services for our clients both individuals and organizations such as but not limited to (companies, restaurants, hotels, hospitals, schools,.....etc) for all disciplines through our professional and specialized technical team.

Management and operation

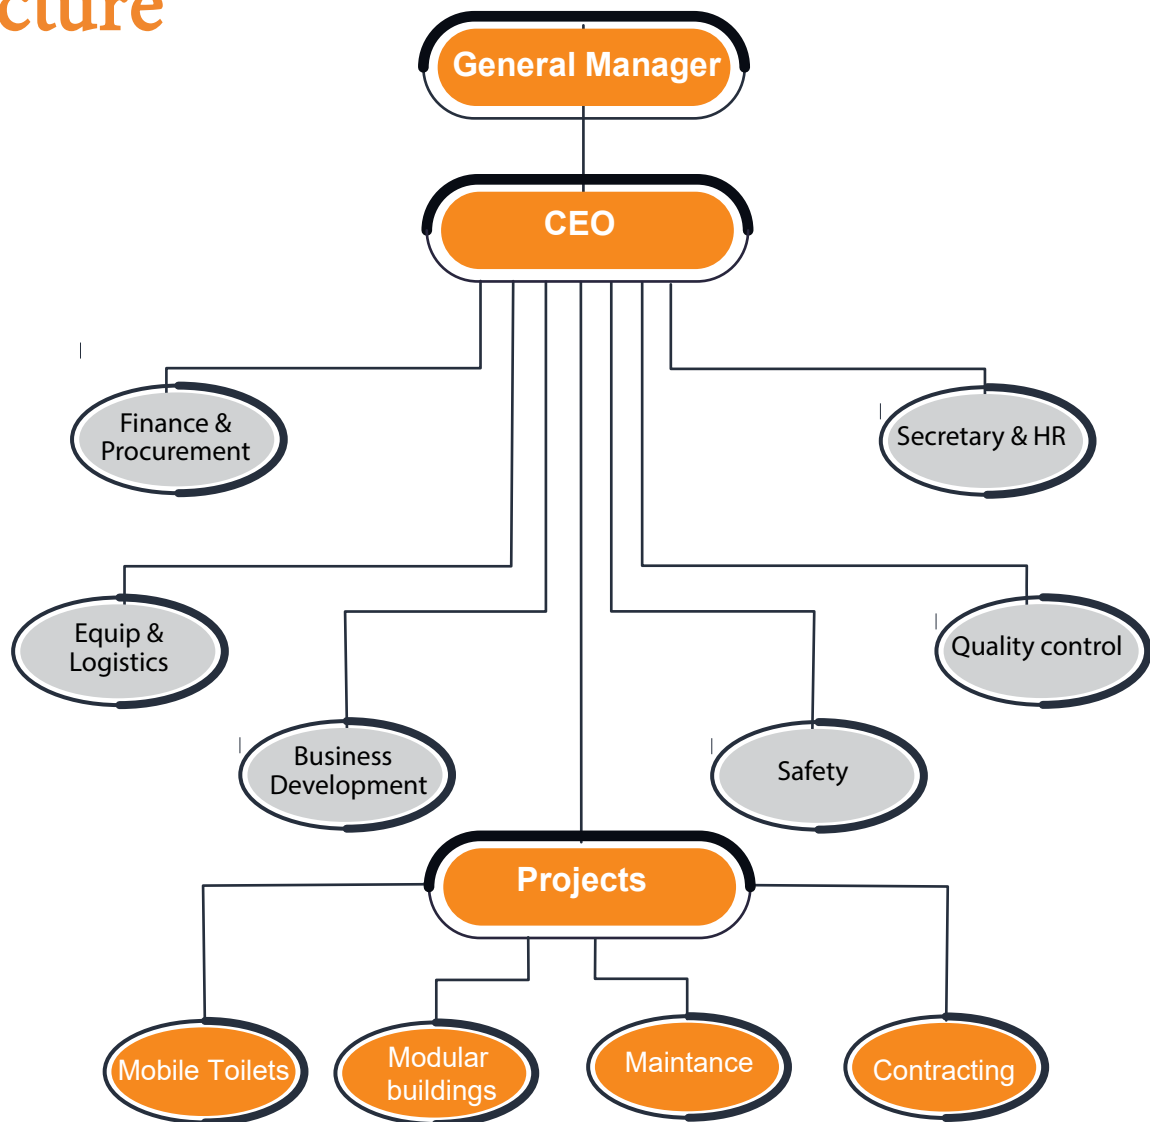

Our services include to manage and operate their facilities especially compounds and malls, we actually represent them in all aspects related to management, maintenance, marketing and leasing.

Modular Buildings

The building can easily be moved from one location to another within a few days Perhaps this makes this method of construction one of the methods that is suitable for projects that are of a temporary nature or are likely to be modified.

Organization Structure

Administrative , Equipment & logistics

Administrative

Administrative team in every organization, is the most important asset, the people that play essential roles in the performance of the company's functions and responsibilities.

Thus, We are fortunate to have highly qualified and experienced personnel. Reciprocally, we had aimed to provide our employees all the basic necessities while performing their assigned tasks and at the same time equip them through trainings and seminars to enhance their capabilities.

Equipment & logistics

Our Company has acquired varied equipment's to meet the requirements of the various projects. Inevitably, we have provided a pool of maintenance technicians and mechanics to upkeep the good working condition of these equipments. Regularly, the equipment's are checked, calibrated, tested and certified by a qualified external Third Party Inspection (when required) to assure Safety and Productivity.
