B) READING COMPREHENSION (16 Marks)

Read the following text carefully, then answer the questions below:

16

Sea life shows us many kinds of plants and animals that live in the sea. Fish are the most famous type of sea life. They come in different shapes, sizes, and colours. Some fish, like the clownfish, live in coral reefs, while others, like the tuna, travel in the open ocean and sea. Fish have bodies which help them to swim fast and protect themselves.

Dolphins and whales, are also a part of sea life. These smart and clever creatures are known for their communication skills and amazing shows.

Sea turtles are another important part of sea life. They lay their eggs on beaches and spend most of their lives in the ocean. Sea turtles are known for their long journeys, and they help in keeping the health of coral reefs.

Corals and jellyfish are beautiful creatures that make sea life more attractive. They come in different shapes and sizes. Also, they play important roles in the sea environment. Finally, people should not throw plastic bags or bottles in the sea to protect this wonderful sea world.

a) Choose the correct answer from a, b, c and d : (6 X 2= 12 Marks)

9. The best title of the passage is:

- a) Corals and Jellyfish

B) READING COMPREHENSION (16 Marks)

16

Read the following text carefully, then answer the questions below:

Tigers are the largest wild cats in the world. There are five different kinds of wild tigers that live in the world today. Most tigers have orange and white fur with black stripes. They have good eyes and **strong** teeth. The name of a baby tiger is a 'cub'. Tigers prefer to live alone, except for mothers who live with their cubs. The best-known tigers are found in India and are called 'The Royal Bengal Tigers!'

Tigers sleep and rest during the day and hunt at night. They can see very well in the dark. They are meat-eaters. They do not eat plants. They eat animals. They can even eat small elephants. A tiger's body is heavy, so tigers cannot run fast. **They** can run only for short distances.

Tigers live in forests and like to climb trees. When the weather is hot, they swim in the water to get away from the hot sun. They are excellent swimmers and sometimes they catch and eat fish.
