Who are we ?

- **MEDIAANA** is a leading French production and live transmission company, offering a full range of media services filming, editing, post-production, and live transmission across Europe.
- With a team of skilled professionals and state-of-the-art technology, we deliver high-quality, tailored content for every need.
- From live events to creative projects, **MEDIAANA** combines expertise and innovation to bring your vision to life. Let's create something unforgettable.

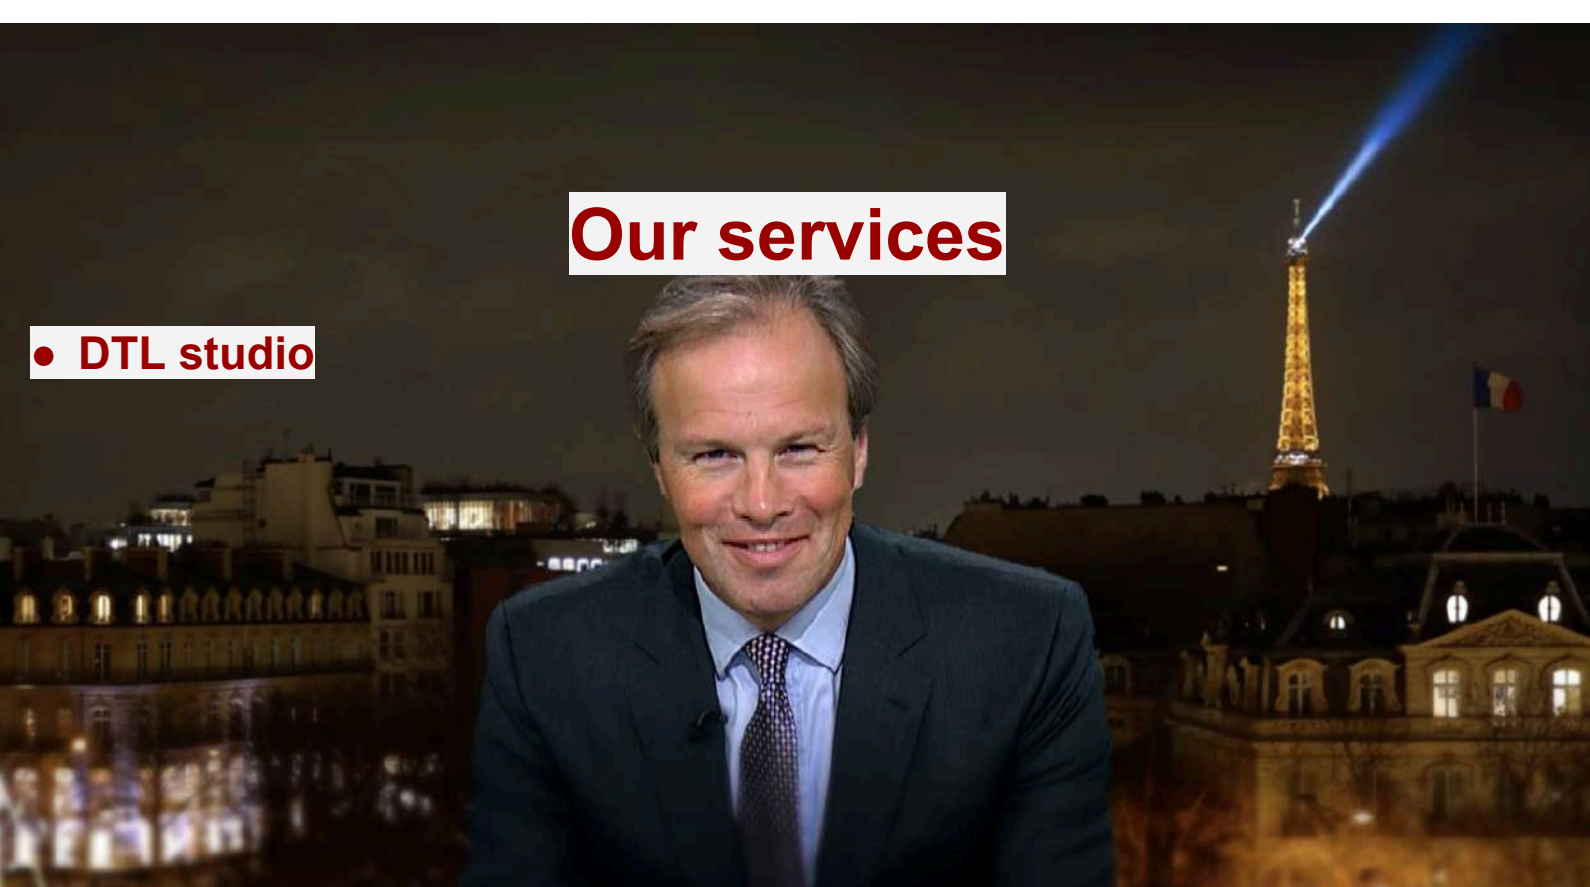

Mediana Films have a very strategic location in the heart of Paris, offering exclusive live views of iconic landmarks like the Eiffel Tower and Arc de Triomphe etc. This prime spot allows for unparalleled live broadcasting, content production, and fast access to event coverage from the heart of the French capital.

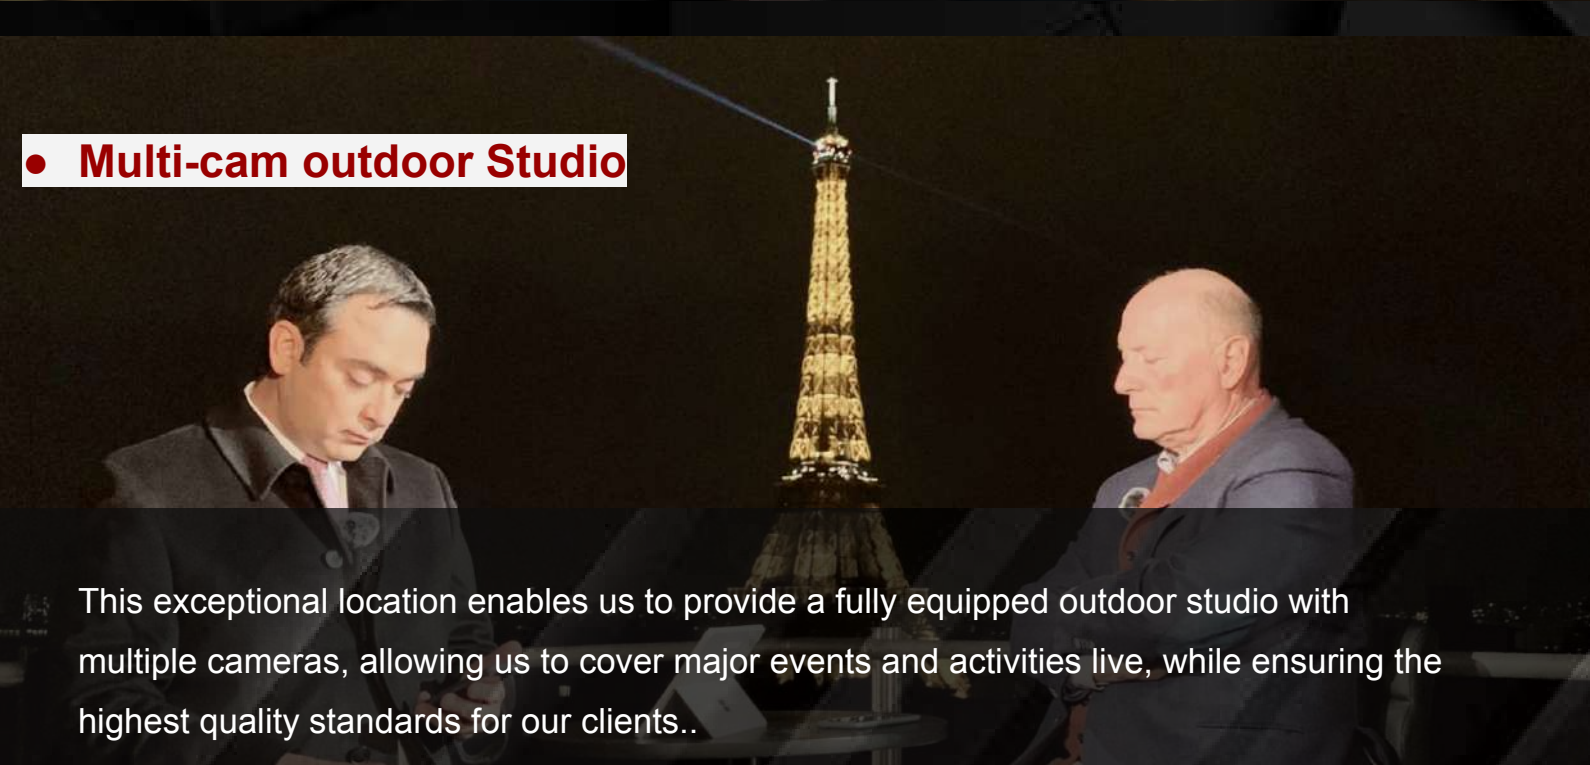

Our services

• DTL studio

We have two fully-equipped DTL studios, allowing reporters and experts to deliver live inputs with exceptional quality, whether for news channels or talk shows. Using the latest transmission technologies such as TVU, AVI WEST, and LIVE U, we ensure seamless and high-quality broadcasts.

• Multi-cam outdoor Studio

This exceptional location enables us to provide a fully equipped outdoor studio with multiple cameras, allowing us to cover major events and activities live, while ensuring the highest quality standards for our clients..

- **Live stand-up positions**

Our headquarters boasts a direct view of the Eiffel Tower and the Arc de Triomphe, providing us with a unique competitive advantage.

● News packages, Documentaries

Our experienced cameramen ensure top-tier visuals for any news story. With high-definition equipment and an eye for detail, we capture every moment with precision and clarity.

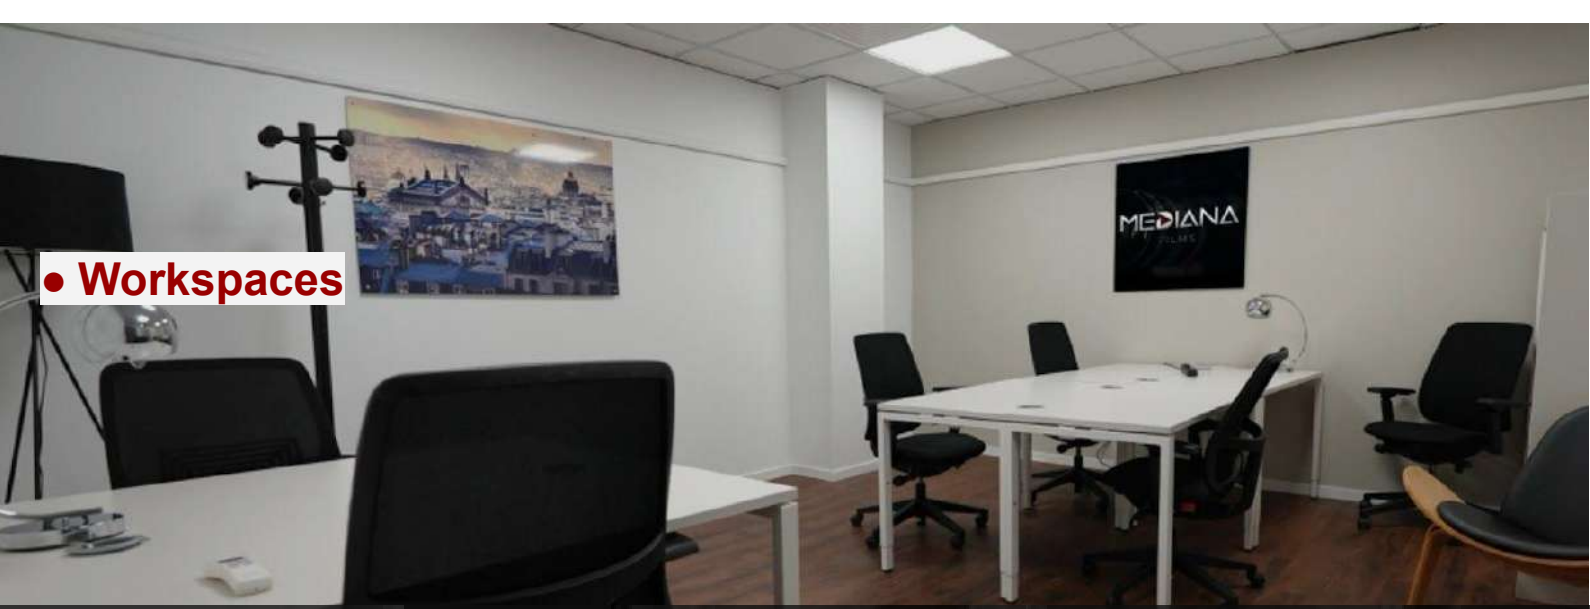

● Post-production

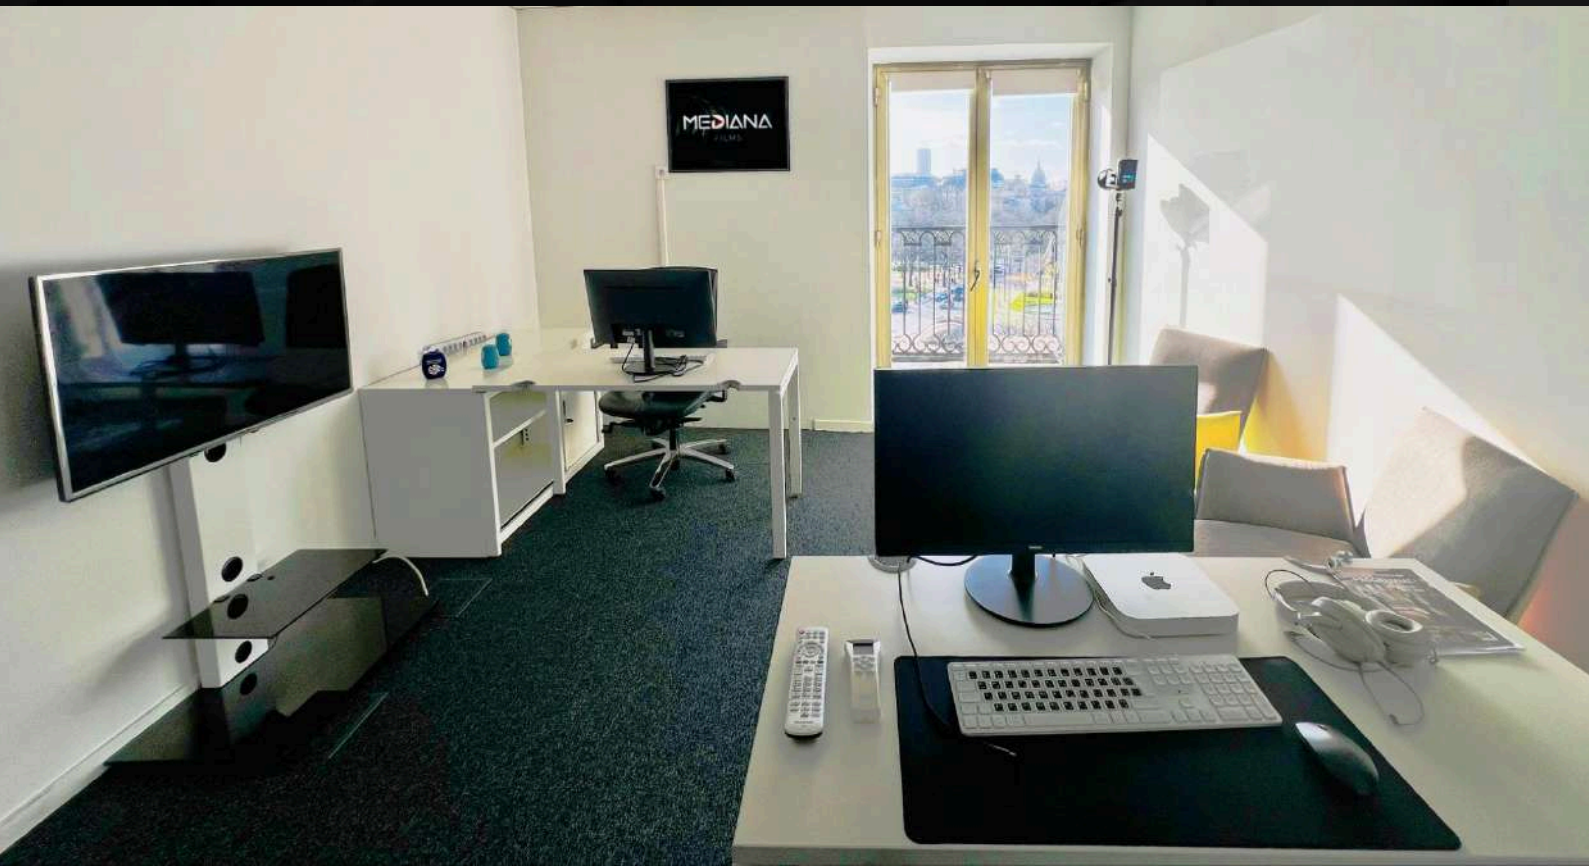

Our headquarters features three state-of-the-art editing studios, equipped with the latest software and equipment, offering professional editing, color correction, and the production of high-quality reports and documentaries that meet global industry standards.

● Workspaces

Private offices for journalists and correspondents, meeting rooms, and state-of-the-art workspaces.
