WISSENDURST

INTERCOLLEGE STUDENT ACADEMIC CONFERENCE

JUNE 12 | 13 | 14

ABOUT ESIC MCH

Situated in the heart of Chennai, ESIC Medical College and Hospital, KK Nagar provides for the medical needs of all patients insured under the ESI Act in Tamil Nadu. The hospital, a nodal centre, possesses state-of-the-art infrastructure with experienced doctors and healthcare staff, ensuring high quality care to its patients.

The medical college was established in the year 2013 with modern facilities to train undergraduates and postgraduate medical students. The college, with its facilities and dedicated faculty, also houses a research wing with a number of completed and ongoing research projects to its name.

The college has robust clubs for extracurricular activities such as sports, cultural, debates and quizzes, run by students and guided by faculty. These come together to host ethnic day, sports and cultural fests, celebrations, quizzes, CMEs, debates and many more events all year round, providing the perfect balance between studies and extracurricular activities to its students.

WISSENDURST '25

Following the success of our previous edition, ESIC Medical College and Hospital, KK Nagar, Chennai is back with Wissendurst 2025, the annual intercollegiate medical conference for undergraduate medical students.

Staying true to the meaning of its name, we bring you the fifth version of this event, all set to fuel your thirst for knowledge. From captivating workshops, electrifying battles of words, to intriguing presentations, inspiring guest lectures and the grand Intercollegiate Quiz, this conference is sure to leave you wanting for more.

If you think you have seen enough, think again before you miss what we promise to be the one of the best investments of your time. So what are you waiting for? Buckle up as you embark on a mystical odyssey of knowledge, learning and fun!

NOTE FROM COMMITTEE

We are thrilled to bring you this year's Wissendurst, our intercollege academic conference. We are back with more events than ever before and many firsts at ESIC Medical College, KK Nagar, Chennai. An array of workshops and events spread across a span of 3 days, we look forward to contributing to each and every one of your educational experiences at Wissendurst '25! We have revamped the formats of our renowned quiz - Minerva, Model United Nations, and presentations to offer you a much more enriched and holistic understanding of the field we all so love. Giving you a new perspective to learning is a promise from us. Also stand a chance to win from an exciting prize pool of over **₹ 1 lakh!**

We are grateful for all the support you have offered us these past years during the previous editions and look forward to exceeding your expectations, once again. Come to ESIC on the 12th, 13th and 14th of this June to have your minds blown, yet again!

Best Regards

The Organizing Committee

Wissendurst 2025

REGISTRATION

The national level intercollegiate conference is open to all bonafide students of medical colleges and universities.

CANDIDATE REGISTRATION

- Registration must be completed online, on our website www.wissendurstesic.co.in
- Conference registrations start on **3rd May, 2025**
<https://forms.gle/Jq8hDopiyCdvGaB3A>
- Fee per candidate: Rs. 250

It is mandatory for every single candidate to register and receive a unique ID before registering for all events.

(Except Quiz and Autopsy Workshop)

- Candidate registration once done, cannot be cancelled or refunded at any cost.
- Following registration, candidates will receive a confirmation email with their unique ID (within 24 to 48 hours). Make sure to check your inbox and spam for the same.
- This unique Id will be used for all event registrations (except Quiz and Autopsy Workshop) and is to be produced on the day of the event.

REGISTRATION FOR EVENTS

- Registrations for individual events start on **3rd May 2025, 12 Noon.**
- There are a total of 15 Workshops, Quizzes at 2 levels, a Model United Nations, Case, Poster and Research presentations, and Medclicks spread across 3 days.
- Each workshop has a specific number of slots available.
- Participants will be selected on a first come first serve basis.
- There is no upper limit to the number of events a participant can take part in.
- Early bird registrations for all workshops close on **24th May, 2025.** Make sure to register soon!
- Please check the complete event schedule on **Page 54** to make sure there is no clash in the timings of any two events you wish to register for. Any unavoidable overlaps will be taken care of from our end.

Scan or touch for conference
registration

STEPS TO REGISTER

- Registrations will be carried out online on our website - **<https://www.wissendurstesic.co.in>**
- Google forms require submission of candidate/team member details, unique ID(s) received after candidate registration, photo(s) of College ID cards, and screenshot of successfully completed payment.
- Registration will not be valid without the Unique ID. (Except for Quiz and Autopsy Workshop)
- Payment will be through UPI QR codes
- Event registration confirmation will be sent via email.
- Confirmation email with unique ID and college ID card need to be produced on the day of the event.

JUNE 12TH & 13TH

A BETA CATENIN INITIATIVE

MINERVA

THE QUIZ

The 4th edition of Minerva has arrived in all its glory! This time, we're bringing not one, but two thrilling challenges: the Junior Quiz and the Systemic Quiz. Embrace yourselves for an intellectually stimulating session filled with fascinating medical facts, mind bending trivia and pure intellectual adrenaline!

Raphael's School of Athens (1509–1511) is a Renaissance masterpiece that brings together the greatest minds of classical antiquity—Plato, Aristotle, Socrates, Pythagoras, and more—gathered in a majestic architectural setting. Painted in the Vatican, it's less a history lesson and more a visual manifesto of reason, philosophy, and human potential, blending classical knowledge with Renaissance ideals.

A SPEAKERS COLLECTIVE INITIATIVE

MUN

MODEL UNITED NATIONS

ZOMBIE APOCALYPSE - THE FINAL RESOLUTION

Step into a high stakes committee in a world where a zombie pandemic threatens humanity! Representing their nations, delegates must strategize for containing the growing threat, safeguarding their people and potentially curing the disease, all while walking the tightrope of international relations! Navigate through various dilemmas and attempt to vanquish this threat - or let the undead reign supreme.

The Dream of Peace by Henrik Sørensen is a mural created in 1939, displayed at the United Nations building in Geneva. It portrays an idealized vision where humanity strives for harmony, justice, and international cooperation after the brutal lessons of war.

APGAR'S ANALYSIS

RESEARCH PRESENTATION

Drift through uncharted territories, for all those who wander are not lost. This is a unique opportunity to present your research to a diverse and engaged audience, receive valuable feedback, and connect with fellow experts and enthusiasts. Share your research, spark new conversations and be part of a vibrant exchange of ideas!

"The Persistence of Memory," also known as "Melting Clocks," is a 1931 painting by Salvador Dali; a quintessential example of Surrealism, giving a notion of reality and time, seeking something "out of the box".....which resonates with research and "abstract thinking".

CURIE'S CONFERENCE

CASE PRESENTATION

Have you come across a unique and challenging clinical case?

Step into the spotlight and bring your experience to life!

Whether you're presenting alone or with a partner, this is your moment to shine.

Impress a panel of seasoned experts and contribute to the ever-growing field of clinical excellence.

Your case could be the key to unlocking new perspectives in medicine!

The Doctor is an 1891 painting by Luke Fildes : that depicts a Victorian doctor observing the critical stage in a child's illness while the parents gaze on helplessly from the periphery. It has been used to portray the values of the ideal physician and the inadequacies of the medical profession.

MARIKA'S SKELETOS

THE ORTHOPAEDICS WORKSHOP

Want to master the art of mending broken bones like the trailblazing orthopedic surgeon Marika Daniilidou? Join our hands-on Orthopaedic Workshop, where skill meets precision and theory meets real world practice .

The Valley of Dry Bones painting, inspired by the biblical vision in Ezekiel 37, depicts a dramatic and symbolic scene where dry, scattered bones come to life, forming human figures. The artwork represents rebirth, hope, and divine power, as God's spirit restores life to what was once dead.

VISION OF SEMM

THE SURGERY WORKSHOP

The mastery of surgical skills is not a joke.

What makes a great surgeon isn't just steady hands - it's a strong vision for the future. So suture up and explore the future of surgery!

Join our hands-on workshop to learn the fundamentals and develop the laparoscopic skills you'll need to lead in tomorrow's operating room.

"The Agnew Clinic" (1889) by Thomas Eakins is a remarkable realist painting that captures a surgical operation at the University of Pennsylvania. It depicts Dr. David Hayes Agnew, a renowned surgeon, performing a mastectomy in front of a group of medical students. The painting is notable for its clinical accuracy, detailed portrayal of the surgical procedure, and the depiction of both the medical team and the anatomy involved.

ALHAZEN OPTICA

THE OPHTHALMOLOGY WORKSHOP

Our eyes are the windows to the world, the vital instruments that guide us through both light and darkness. Step into the role of a true overseer — protect and preserve the vision of future generations.

The Japanese Footbridge by Claude Monet is a serene painting from his water lily series, created in the early 20th century. It depicts a graceful arched bridge over a pond filled with water lilies, set in Monet's garden at Giverny. Over time, the bridge and water lilies evolved in his work from more detailed depictions to increasingly abstract, emotional interpretations—mirroring Monet's changing vision and his struggle with eyesight as he aged.

SNOWPRINTS- MAPPING COMMUNITY HEALTH

THE COMMUNITY MEDICINE WORKSHOP

Public health stands at the heart of Community Medicine. Its not just theory, its survival. When disaster strikes, you're not in a lecture hall, you're in the frontline. Learn what it takes to be the first responder and the final frontier in our hands on workshop where we train you to think fast, work together, and hold the line when public health is under siege.

"Triumph Over the Plague" is a dramatic Baroque painting by Pietro da Cortona, created in the 17th century as part of the ceiling frescoes in the Palazzo Barberini in Rome. It symbolizes the Church's victory over disease and death, portraying divine and allegorical figures driving away the plague.

SNOWPRINTS - MAPPING COMMUNITY HEALTH

FOR SALE

600/- PER TEAM

THE COMMUNITY MEDICINE WORKSHOP

PUBLIC HEALTH QUEST: A COMMUNITY MEDICINE TREASURE HUNT

Unlock the mysteries of Community Medicine in a thrilling race against time!

Teams of three will journey across eight dynamic stations, each testing their skills in outbreak investigation, vaccination, nutrition, sanitation, and a wide range of other essential Public Health domains.

Solve clues, crack health riddles, and race toward victory - all while learning the essentials of Public Health in an unforgettable way!

Three participants per team. Lone wolves are welcome.

Based on entries, qualifying games may be held.

Exciting prizes for the fastest and smartest teams!

JACOBI'S LESSON

THE PAEDIATRICS WORKSHOP

A moment of hesitation can cost a life. Join our Neonatal Resuscitation Workshop, where we train you to act fast and fight for every tiny heartbeat. In the delivery room, one minute can mean the difference between life and death. As Virginia Apgar said :

"Nobody, but nobody, is going to stop breathing on me."

Learn to be the one who makes sure they don't.

Sir George Harvey - The Schule Skailin' : The title refers to the breaking up of school at the end of the day. Most of the children hurtle towards the exit, with one or two whose work has been bad retained for punishment. Along with the minister, the schoolmaster was a ruling power in a small rural community.

PLITZER'S E.A.R

THE ENT WORKSHOP

Get ready to lose yourself down the rabbit hole of twisting pathways and winding tunnels.

Join us as we delve into the mysteries of the intricate labyrinths of the head in our all-new ENT Workshop.

Self-Portrait with Bandaged Ear by Vincent van Gogh was painted in 1889, shortly after he mutilated his left ear during a mental health crisis. In the painting, Van Gogh appears calm yet introspective, wearing a green coat and fur hat, with a bandage covering his ear.

FRANKLIN'S HELICES

THE BIOCHEMISTRY WORKSHOP

**Step into a world unseen,
Where DNA is pure and keen.
With tools in hand, we'll break it free,
Unlocking secrets, you and me.
From cells to strands, we'll learn the way,
Discover how life's coded, day by day.
Then take home your dna in style,
In a resin locket, for a while.**

Galacidalacidesoxyribonucleicacid" (1963) by Salvador Dali juxtaposes crucifixion imagery with atomic structures and soldiers in geometric formations, suggesting the tension between faith, violence, and scientific discovery. It's both a tribute to DNA's discovery and a statement on the interconnectedness of the cosmos, matter, and mortality

BARRE – SINOUSI'S MICROBIOME

THE MICROBIOLOGY WORKSHOP

Curious about the invisible enemies making our community sick? Microbiology helps us to uncover these hidden nemeses lurking all around us! Join our hands on workshop and see real life action from tracking pathogens, to exposing outbreaks and understanding the power of the microscopic life shaping our world.

Ernst Haeckel's *Kunstformen der Natur* (Art Forms in Nature, 1904) is a stunning fusion of biology and aesthetics, presenting detailed, symmetrical illustrations of organisms—from radiolarians and jellyfish to plants and microbes. More than just scientific drawings, these plates showcase the mathematical beauty and complexity of life, emphasizing Haeckel's belief in nature as both an evolutionary system and an artistic masterpiece.

LENS OF LOCARD

CRIME SCENE INVESTIGATION

Sometimes, it's not the loud violence of the crime that reveals the truth - but the silent, slow unravelling of forensic clues. This is the story of two friends - one silenced by speed, the other by poison. And how a patch of dirt and tread marks speak louder than any witness ever could.

"The Jealous Husband" by Titian (Tiziano Vecellio) is a dramatic and expressive painting that explores themes of jealousy and mistrust in romantic relationships. Likely created in the 16th century, the work depicts a tense scene where a man watches or confronts a woman, his emotions visibly intense. The rich color palette and dynamic composition are typical of Titian's Venetian style, capturing deep psychological tension.

CRIME SCENE INVESTIGATION

Now it's your turn to step into the investigators shoes.

Can you read the story written in the soil?

Can you tell what the tire tracks forgot to hide?

Armed with forensic tools and your own instincts, you will examine the evidence, trace the timeline and uncover what really happened that night.

The clues are waiting. The case is cold. Can you solve it?

UNPUBLISHED PAPERS OF DA VINCI

THE AUTOPSY WORKSHOP

"Dead men tell no tales" is a myth of the past. Modern day autopsies can unravel the full narrative behind a death. Sometimes grim, often fascinating. What the deceased leave behind isn't silence—it's science. From the grotesque to the enlightening, everybody holds a lesson. Join us to learn the art of autopsy- A chance to learn the secrets of death.

The Vitruvian Man by Leonardo da Vinci, drawn around 1490, is a famous sketch illustrating ideal human body proportions. Inspired by the writings of the ancient Roman architect Vitruvius, it shows a male figure in two overlapping positions with arms and legs outstretched inside a circle and a square.

MINDS UNCHAINED - PINEL'S PERSPECTIVE

THE PSYCHIATRY WORKSHOP

Escape the confines of the mortal body, stretch the boundaries of the brain until the human mind , soul and spirit blurs into one. Unleash your inner psyche to discover the depths of humanity.

"The Madwoman" (often referring to "The Madwoman (La Monomane de l'envie)") is a powerful portrait painted by Théodore Géricault around 1822. Part of a series on mental illness, the painting depicts a woman suffering from envy, captured with intense realism and emotional depth. Her haunted expression, disheveled appearance, and distant gaze reflect Géricault's interest in psychological states and human suffering.

THE KOUWENHOVEN CODE

THE EMERGENCY MEDICINE AND ANAESTHESIA WORKSHOP

Emergency Medicine: where every second counts and every decision defines a life. Experience medicine at its rawest-precision under pressure, courage without hesitation. To pull your fellow human beings back from the edge of death with just your mind, hands, and will, is nothing short of magic. Do you have the guts to make split-second choices that carry the weight of a life? If yes, this is the perfect workshop for you!

"Almond Blossom" (1890) by Vincent van Gogh is a beautiful and symbolic painting that features delicate blossoming almond branches set against a soft blue sky. Created to celebrate the birth of his nephew, Vincent Willem van Gogh, the painting symbolizes new life and renewal. The light, airy brushstrokes and vibrant colors reflect Van Gogh's sense of hope and joy.

OBSTETRIX BY METRODORA

THE OBGYN WORKSHOP

Obstetrics is not just medicine, it's the ultimate insurance policy for our survival. It protects mothers and their children from the brutal risks that fate can throw their way. Every healthy birth is a victory for humanity's future. Every life you safeguard is a step toward something greater. Learn the essential skills that make you a guardian of life itself. Step into obstetrics and become the protector of tomorrow.

Piero della Francesca's *Madonna del Parto* (c. 1455–1465) is a quietly powerful fresco depicting the Virgin Mary pregnant with Christ—one of the rare representations of the expectant Madonna in Renaissance art. She stands front and center, hand resting on her swollen belly, flanked by two angels pulling back a tent-like curtain, as if revealing a sacred mystery. The composition is symmetrical, solemn, and serene with Mary's expression both introspective and monumental.

THE EINTHOVEN CIRCUIT

THE MEDICINE WORKSHOP

Do you hear it? The future is calling, one heartbeat at a time. If not, maybe this is the workshop for you! Train your ears to recognize the subtle whispers and rough rushes of the heart. Explore the language of cardiac sounds and decode the rhythms of life through hands-on sessions in ECG and interpretation of heart murmurs. Here we present to you an intricately curated Cardiology workshop to hone your clinical skills, for every peak, every spike holds its own meaning

Paolo Veronese's *The Healing of the Paralytic* (c. 1560s) is a grand, theatrical depiction of Christ miraculously healing a man who cannot walk—set not in ancient Jerusalem, but in a lavish Renaissance palace. True to Veronese's style, the scene is drenched in rich color, opulent architecture, and dynamic composition.
