As 2024 unfolds, the vision for our outdoor spaces transcends traditional aesthetics, aligning more closely with ideals of luxury, comfort, and sustainability.

Luce Garden furniture brings together a centuries old tradition of handcrafted work with a modern manufacturing approach that perfectly blends the traditional aesthetic with top quality, durable materials, outdoor designs perfectly suited for the modern family and sustainable luxury.

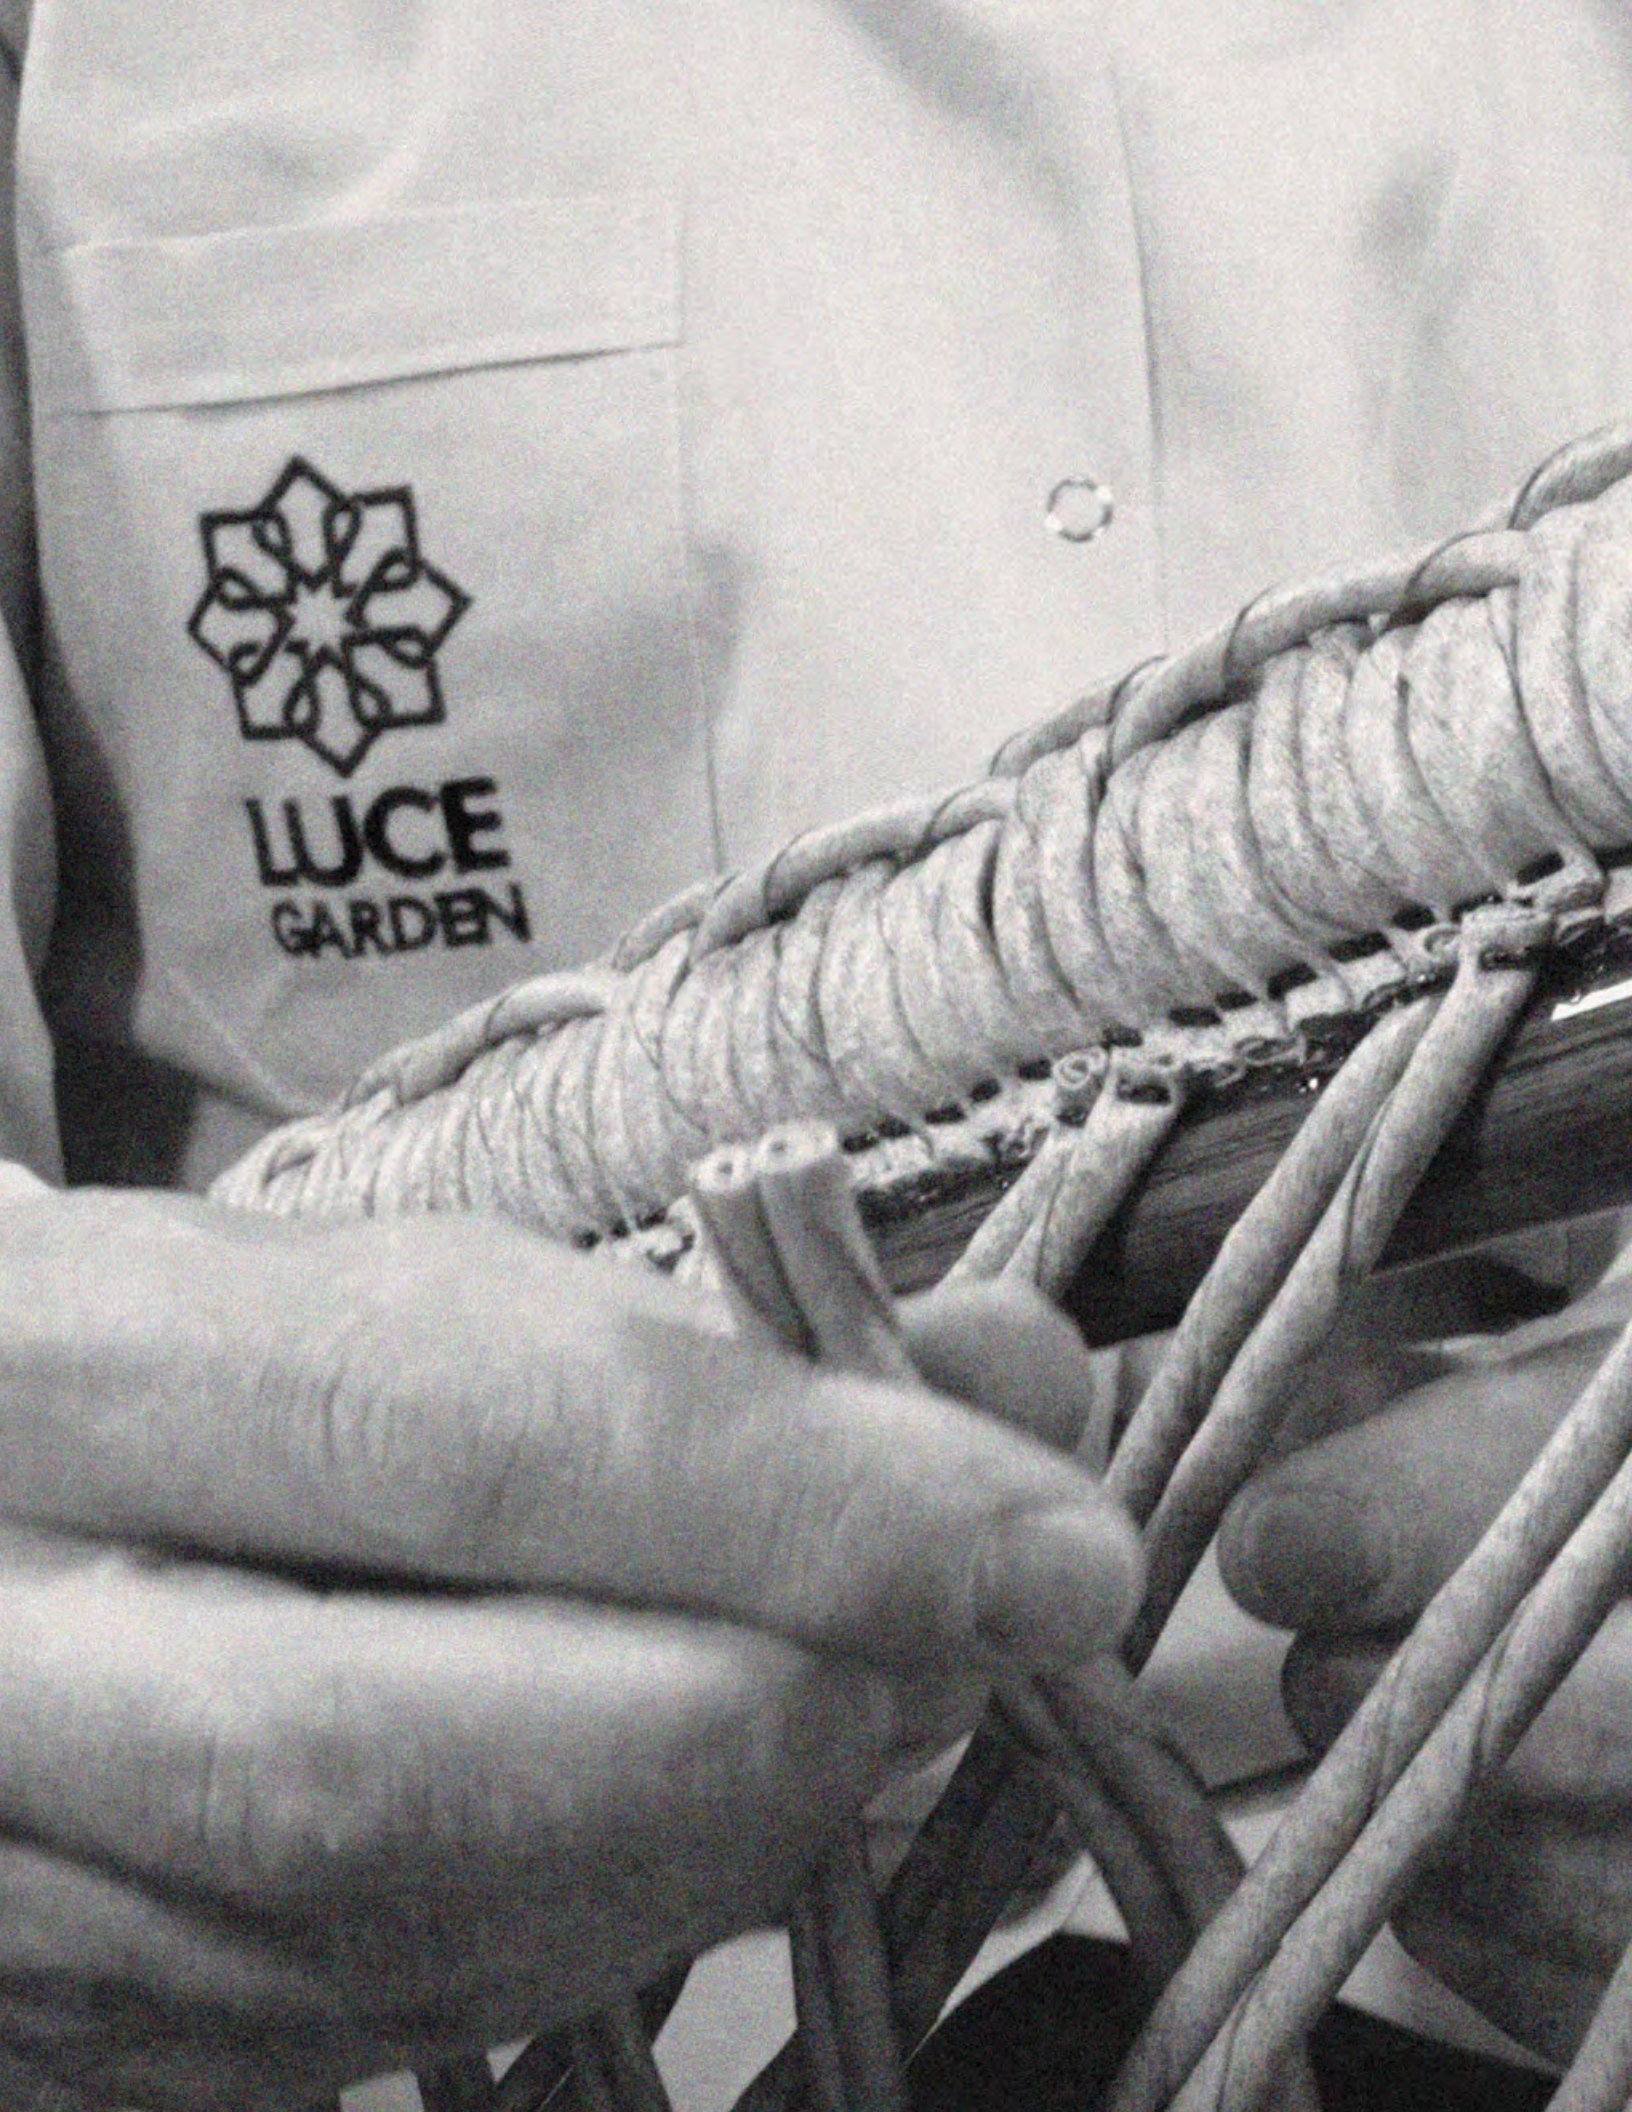

INSPIRED BY NATURE, DESIGNED FOR LIFE:

THE LUCE GARDEN RATTAN COLLECTION

In the realm of design where nature and craftsmanship converge,
Luce Garden stands as a beacon of innovation and elegance.

With a philosophy deeply rooted in the belief that the greatest designs are those inspired by the natural world, Luce Garden's rattan furniture collection is a testament to this principle. "Inspired by Nature, Designed for Life" captures the essence of Luce Garden's approach, where every piece of furniture extends beyond the purely functional to become a piece of art that brings the tranquility and beauty of nature into our homes and lives.

Crafting Harmony with Rattan

Rattan, with its flexibility, strength and natural beauty, serves as the perfect medium for Luce Garden's design ethos. Sourced from the heart of the rainforest, this sustainable material is chosen for its low environmental impact and its ability to be shaped into forms that echo the organic lines found in nature. Luce Garden's craftsmen transform this versatile vine into exquisite furniture that speaks to both the soul and the sense of touch, creating pieces that are as comfortable and durable as they are beautiful.

Sustainable Elegance

Luce Garden's commitment to sustainability is expressed in every curve and weave of its rattan collection. By embracing rattan, a material that grows back rapidly and helps preserve forest

GARDEN'S RATTAN FURNITURE.

areas, Luce Garden not only pays homage to the environment but also ensures that their furniture carries forward the legacy of ecological mindfulness. Each piece is a celebration of the planet's resources, designed to minimize impact and maximize longevity and style.

Designs for Modern Living

The biophilic design principles are vividly brought to life in Luce Garden's rattan collection, which aims to strengthen the bond between the natural world and our living spaces. Incorporating elements like natural light, open airiness, and the natural tactile textures of rattan, Luce Garden's furniture is crafted to

enhance well-being, stimulate the senses, and invite the calming influence of nature into every moment spent indoors.

Personalized Spaces with Luce Garden

With Luce Garden, personalizing your living space becomes an act of connecting with nature. The rattan collection offers a diverse range of styles, from the minimalist to the ornate, all designed to complement the unique aesthetics of your home. Whether it's a serene retreat in the garden or a cozy nook by the window, Luce Garden's furniture is designed to create spaces that reflect your personal journey and your deepening relationship with the natural world.

"Inspired by Nature, Designed for Life" is not just a motto; it's the essence of Luce Garden's rattan collection. It represents a commitment to creating furniture that embodies the harmony, resilience, and beauty of the natural world. As we look to enrich our lives and our environments, Luce Garden invites us to embrace the timeless elegance of rattan, thoughtfully designed for the rhythm of life.

SUPERIOR MATERIALS. THE LUCE GARDEN DIFFERENCE.

The highest quality rattan knitting ropes, wrapped around aluminum frames, polyurethane cushions covered in durable, 100% olefin fiber produce beautiful furniture that will last a lifetime.

Luce Garden outdoor furniture is manufactured using special production synthetic rattan knitting threads imported from Wintec, a pioneer in the world of garden furniture products. It is 100% recyclable, non-toxic and applies UV stabilizing technology to protect it from harmful UV rays and extreme weather conditions.

By utilizing this special material, we are able to offer all of our furniture groups in eight different colors, one of which is sure to complement your home and garden's decor. And this particular material, besides being long lasting and beautiful, contains no substances harmful to human health.

Our rattan seating groups, still assembled by the hands of our artisans, are resistant to water, rain, wind, moisture, and cold. With the

added benefit of UV-resistance, our products will prove to be superior in durability compared with any other garden furniture products. Our synthetic rattan threads are also resistant to aging, decay and infestation frequently seen in outdoor furniture. All our products have successfully passed the cracking and drying tests as well.

You can choose any Luce Garden seating group with confidence, knowing that the materials and the workmanship will ensure this furniture will last for years to come.

A TRADITION OF
TIMELESS DESIGNS

The polyurethane sponges which make up the four-inch thick back and seat cushions in our outdoor furniture provide a comfortable sensation to users due to their irregular cell structures. This helps absorb pressure in the back and seat areas and also helps extend the durability of the cushions. We are confident these cushions will far outlast ordinary cushions.

Cushion fabrics, available in eight different colors and textures, are made with 100 Olefin fibre specially designed for outdoor use. They are easy to clean, are designed with advance water repellency in outdoor conditions and have successfully passed seven different tests including weather conditions, UV rays, seawater, chlorinated pool water and anti-scratch properties.
