

OV TOROS

Concussion Policy

OV Toros FC recognizes the potential danger and long-term health consequences of this often difficult to diagnose form of traumatic brain injury. The policy is intended to provide easy-to-understand guidelines related to players who have been diagnosed with or are suspected of having a concussion and is for coaches, parents, and players, but is to be shared with any other adults or participants in OV Toros FC.

At OV Toros FC, we want to ensure our players are provided the safest environment possible. As such, OV Toros FC is incorporating a Concussion Policy to educate our club members about concussions, help prevent concussions from occurring, and identify when a concussion may have taken place.

As members of US Club Soccer, Cal North Soccer and Nor Cal Premier Soccer, OV Toros FC coaches are required to have completed a concussion training module and have a certificate of completion on file to be updated every two years. In addition, assistant coaches and team managers also complete a concussion course as part of their training. The guidelines that OV Toros FC encourages coaches, players, and families to follow can be located at the following links below.
