Présentation de L'ETS DIBA AGROBUSINESS	

DIBA AGROBUSINESS was founded in October 2022 in the Democratic Republic of Congo. DIBA AGROBUSINESS specializes in the production, processing and marketing of 100% Congolese coffee collected from small-scale producers in Kalehe. From planting to export, it guarantees high-quality, traceable, aromatic coffee grown at altitude in the mountainous regions of eastern DRC.

DIBA AGROBUSINESS is a social enterprise that oversees products produced in line with sustainability standards, and returns annual dividends to the producers it supervises.

It has a washing station equipped with a Penagos 2500 machine, 5 fermentation tanks and 20 drying tables. The coffee processed at the washing station comes from 210 producers supervised by the company's agricultural instructors, and who are in the process of obtaining organic certification. We are convinced that development is possible through the
