Business Analyst

Location: Wilmington, DE | **Employment Type:** Full-time

Overview:
We are seeking a Business Analyst to work closely with stakeholders to gather, document, and analyze business requirements, ensuring technology solutions align with organizational goals.

Responsibilities:

- Gather and document functional and technical requirements.

- Collaborate with development teams to translate business needs into solutions.

- Create process flows, wireframes, and use cases.

- Conduct gap analysis and impact assessments.

- Support UAT planning and execution.

Qualifications:

- Bachelor's degree in Business, IT, or related field.

- 3+ years as a Business Analyst in IT projects.

- Strong documentation, analytical, and communication skills.

- Experience with tools like JIRA, Confluence, or Azure DevOps.
