

## **Data Scientist**

**Location:** Wilmington, DE or Remote | **Employment Type:** Full-time

### **Overview:**

Seeking a Data Scientist to build predictive models, analyze large datasets, and generate actionable insights that drive business outcomes.

### **Responsibilities:**

- Design and implement statistical models and machine learning algorithms.
- Preprocess and analyze structured and unstructured data.
- Communicate insights to non-technical stakeholders.
- Collaborate with engineering teams to deploy models.

### **Qualifications:**

- Master's or Bachelor's in Data Science, Statistics, or Computer Science.
- Strong Python/R, SQL, and ML library skills (scikit-learn, TensorFlow, PyTorch).
- Experience with big data platforms (Hadoop, Spark).
