Oracle ERP Functional Consultant

Location: Remote | Employment Type: Full-time

Overview:
We are looking for an Oracle ERP Functional Consultant to implement, configure, and support Oracle ERP modules. The role involves collaborating with business teams to streamline processes and deliver ERP solutions that meet organizational needs.

Responsibilities:

- Configure and customize Oracle ERP modules (Finance, SCM, HCM, etc.).

- Gather requirements and document business processes.

- Provide end-user training and support.

- Work closely with technical teams to ensure smooth system integrations.

- Troubleshoot and resolve ERP-related issues.

Qualifications:

- Bachelor's degree in IT, Business, or related field.

- 3+ years of Oracle ERP functional consulting experience.

- Strong knowledge of relevant Oracle modules and workflows.
