PARTY AFFILIATION

Minnesota law requires that certain election duties be performed by two judges of different political parties. Statute also requires that no more than half of the election judges assigned in a precinct may be members of the same political party. Minnesota law defines member as an individual who supports the general principles of that party's constitution, voted for the majority of that party's candidates in the last general election, or intends to vote for a majority of that party's candidates in the next election.
