Introduction

At Global Agriculture Consultancy, we understand that agriculture is the backbone of global food security and economic development. Our mission is to bridge the expertise gap in the sector by providing world-class consulting services that address the evolving challenges and opportunities in agriculture, agribusiness, and food processing. From strategic advisory and project management to technology integration and market intelligence, we deliver holistic solutions tailored to the unique needs of our clients. GAC's proven track record of success spans continents, with a portfolio of projects that have transformed agricultural landscapes, enhanced livelihoods, and driven sustainable growth.

About GAC

Established with a vision to revolutionize agriculture, GAC has become a trusted name in agribusiness consulting. Our team comprises seasoned professionals, industry leaders, and subject-matter experts from diverse backgrounds, including crop science, food technology, agronomy, animal husbandry, and agri-finance. We pride ourselves on our collaborative approach, leveraging global best practices and local insights to deliver results that matter. GAC's strength lies in its ability to mobilize multidisciplinary expertise, foster innovation, and build strategic partnerships that drive impactful change across the agricultural ecosystem.

Vision

Mission & Values

Vision:

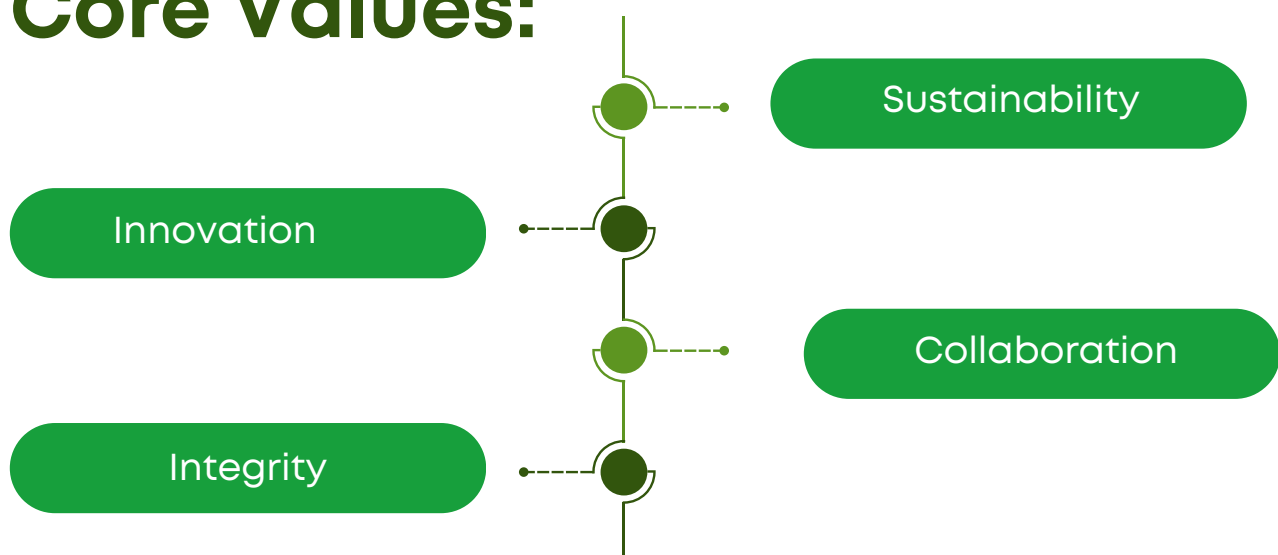

To be the most preferred global consulting group for agribusiness, food security, and sustainable agricultural development.

Mission:

To provide competent, innovative, and sustainable consulting and project management services that empower clients in the food and agriculture sector to achieve measurable impact and long-term success.

Core Values:

Our Services

GAC offers a comprehensive suite of services designed to support clients at every stage of the agricultural value chain:

✓ Strategic Advisory:

Business planning, growth strategy, and sustainable agribusiness model development.

✓ Project Management:

End-to-end project planning, execution, monitoring, and evaluation.

✓ Business Research & Feasibility Studies:

Market assessment, risk analysis, and investment planning.

✓ Market Entry & Diversification:

Facilitating entry into new markets and product segments.

✓ Food Processing & Supply Chain Optimization:

Enhancing efficiency, traceability, and value addition.

Our Services

GAC offers a comprehensive suite of services designed to support clients at every stage of the agricultural value chain:

✓ Infrastructure Development:

Designing and implementing agri-infrastructure and logistics solutions.

✓ Digital Agriculture & Smart Farming:

Integrating modern technologies for precision agriculture and data-driven decision-making.

✓ Policy Advisory & Regulatory Compliance:

Navigating legal frameworks and ensuring adherence to standards.

✓ Capacity Building & Training:

Empowering stakeholders through knowledge transfer and skill development.

✓ Trade Events & Business Services:

Organizing and supporting participation in global agri-business events.

Our Projects

✓ **Nigeria – Cotton Input Support & Training (3,500+ Farmers)**

Distributed 5,000+ MT of certified seeds and fertilizers to smallholder cotton farmers across Katsina and Kaduna. Provided agronomic training and field support to enhance yields and livelihoods.

✓ **Benin – 22,000 Hectare Soybean Outgrower Model**

Enabled soybean farming on 22,000 ha with input kits, field demonstrations, cooperative capacity building, and market linkage support, improving incomes and regional food security.

✓ **Nigeria – Seed Multiplication Farm for Maize & Legumes**

Developed irrigated seed farm with quality control, foundation seed introduction, and training. Linked with co-ops and state agencies to scale certified seed access across Nigeria.

✓ **West Africa – Farmer Training Program (5,000+ Farmers, 3 Countries)**

Conducted 30+ multilingual, hands-on sessions on GAP, pest control, and climate-smart practices. Distributed learning kits and boosted productivity for thousands of smallholder farmers.

✓ **Zambia – Commercial Mechanized Farm (Large-Scale, Soybean & Maize)**

Executed a precision farming project using GPS-enabled equipment, center pivots, and hybrid seeds. Trained 100+ locals and developed export-oriented supply chain infrastructure.

✓ **East Africa – 5,000 ha Land Development for Maize, Soybean & Pulses**

Cleared and converted forested land into climate-smart farmland. Installed camps, machinery depots, and irrigation systems to launch large-scale, mechanized crop production.

Our Projects

✓ **East Africa – Aerial to Harvest: Precision Maize Farm**

Executed full cycle from aerial survey to harvest. Set up grain silos, soil conditioning, mechanized sowing, and crop monitoring to build a scalable, export-ready maize production model.

✓ **East Africa – 2,000 ha Sugarcane Project with Advanced Irrigation**

Installed drip and pivot irrigation with fertigation units. Trained local staff and ensured stakeholder engagement for high-yield sugarcane cultivation aimed at industrial processing.

✓ **Tanzania & Sierra Leone – Maize & Cassava (800 ha)**

Modernized cassava (Sierra Leone) and maize (Tanzania) farming with center pivots, storage silos, and input protocols. Emphasized inclusive employment and cross-border technical coordination.

✓ **Tanzania – Mechanized Maize Farming**

Implemented commercial maize production with modern tractors, drills, and agronomic training. Demonstrated improved spacing, soil health, and equipment use in field sessions.

✓ **UAE – Hydroponic Leafy Greens Project**

Designed a large-scale hydroponic farm using NFT systems and climate-controlled greenhouses. Focused on high-yield lettuce production with automation for arid zones.

✓ **Africa – Ginger Processing & Export Facility**

Set up a dedicated processing and packing unit for ginger exports. Streamlined operations from cleaning to international packaging, enhancing value addition at the source.
