# Maximize Your Marketing Power!

*and*

## ***Beat the Competition***

- **Affordable Reach:** At a fraction of the cost of TV or radio ads, direct mail lets you reach 5,000+ homes for as little as \$0.10 per household. Compare that to TV ads costing \$1,000+ for a single spot or radio at \$200+ for a 30-second ad.
- **Tangible Impact:** Unlike social media ads that are scrolled past in seconds, postcards are physical and stay in homes—making them a perfect complement to the fleeting impressions of digital ads.
- **Localized Targeting:** While TV and radio ads cast a wide net with limited local focus, direct mail hits only the customers in your neighborhood, ensuring better ROI and reinforcing your presence from other media.
- **Cross-Channel Amplification:** Pair postcards with your current marketing strategy and create a seamless experience. Direct mail drives traffic online and boosts engagement, filling the gaps left by radio and TV ads.
