2. Service Description

The Consultant provides strategic, organizational, and operational consulting as well as intermediary and management services. The Consultant operates independently of any government and may involve third-party experts where necessary. The Consultant remains responsible for coordination and quality assurance.

6. Liability

The Consultant is liable only for willful misconduct or gross negligence. No liability is assumed for indirect, consequential, or financial losses. Recommendations do not constitute legal, financial, or tax advice.

7. Data Protection and Confidentiality

All data provided by clients are treated confidentially and used solely for contract performance. Personal data is processed in compliance with applicable data protection laws. Data is not disclosed to third parties without consent.
