Introduction

WHO ARE WE?

Incorporated in the year 1990, Chandra Prakash & Company was founded with an aim to serve our clients in the natural fiber industry, efficiently. Based in Jaipur (Rajasthan), the company is known as a trustworthy Manufacturer and Supplier of Fibers, Ropes, Yarn, and Bamboo Basket.

*The company has carved a niche for itself in the competitive market and has achieved immense growth and development under the expert supervision of **Mr. Girish Shah and Mr. Chandra Prakash Shah**, who have over 50 years of experience individually.*

INFRASTRUCTURE

Chandra Prakash & Company is backed by hi-end infrastructure, spread over a vast area of land. Our infrastructure comprises of several manufacturing units that equipped with the latest technology, assisting in the bulk production and swift & easy formulations of the products. We also have a warehouse unit that is facilitated with requisite amenities to stock the products in a well-organized manner. Further, all our products and units are well managed by expert staff.

QUALITY ASSURANCE

Since inception, quality has been our key concern and we pay utmost attention to maintain the quality aspect in our entire product range. Besides using quality raw materials to fabricate the products, we make sure that the products are thoroughly tested on several parameters such as strength, finish, and durability.

JUTE

Fibre and Yarn

Prized for its eco-friendliness, jute is a sustainable natural fiber renowned for its benefits. As a biodegradable and renewable resource, it minimizes environmental impact. It's versatile too, with applications ranging from durable packaging materials and textiles to stylish fashion and home decor, making it an ideal choice for those who prioritize both sustainability and versatility in their products.

1 Ply**

Tagging rope with gummed fiber available in ball form and different sizes.

We manufacture rugs crafted from the eco-friendly and sustainable jute fibers. These rugs offer a perfect blend of natural texture and durability. Ideal for adding a touch of rustic charm to your home decor, jute rugs provide both style and sustainability, making them a popular choice for eco-conscious interior design.

We also manufacture bags made from Jute, Canvas, Cotton, Juco etc.

Hemp: The miracle plant

Hemp is a versatile plant that can be used for a variety of purposes such as paper, textiles, and building materials. Hemp fibers are known for their strength and durability, making them ideal for use in products such as rope and twine.

We are manufacturing Hemp Fiber in it's natural form and also in Yarn form.

Rugs made from Hemp fiber Yarn

Water Hyacinth

We manufacture fibre and yarns in **Single and Braided forms**

*It is considered a problem because it is an **invasive species** that can grow rapidly and form dense mats on the surface of water bodies. These mats can block sunlight and reduce oxygen levels in the water, which can harm aquatic plants and animals. Additionally, water hyacinth can clog waterways, interfere with navigation, and impact the fishing and agriculture industries. It also provides a breeding ground for mosquitoes which can spread diseases like malaria and dengue fever.*

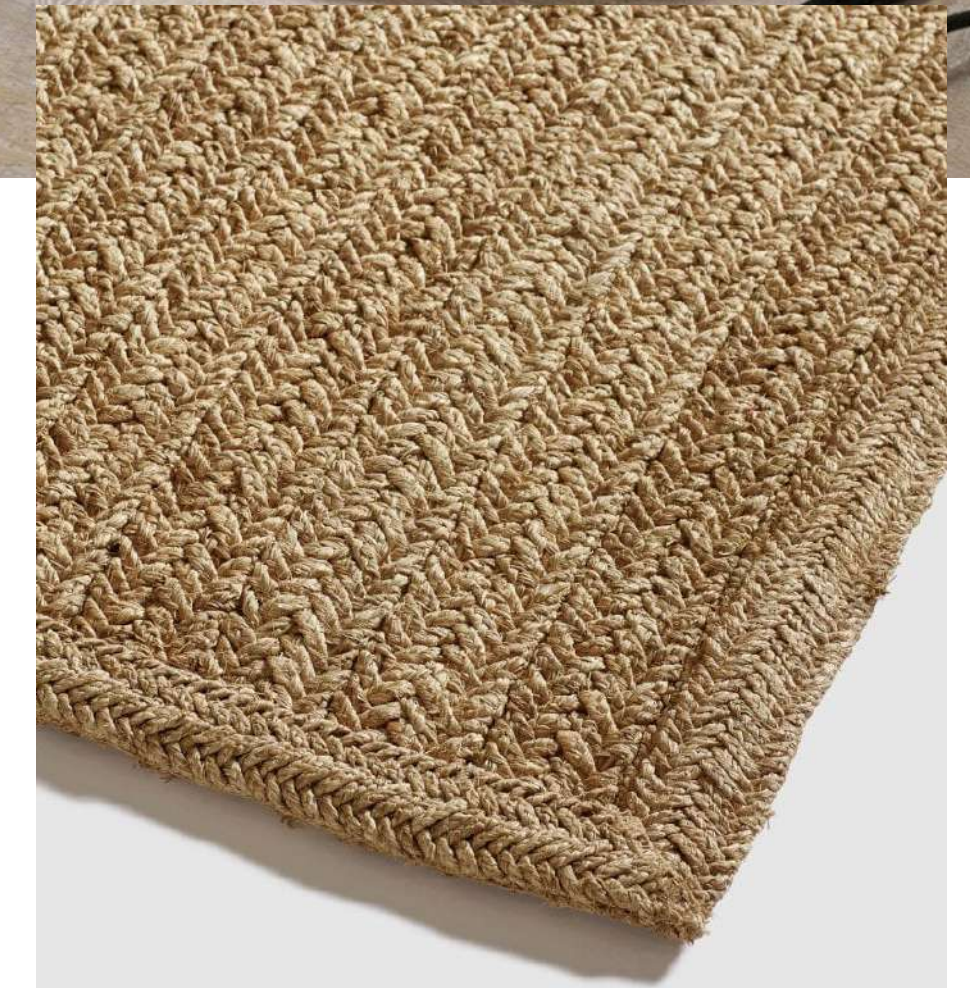

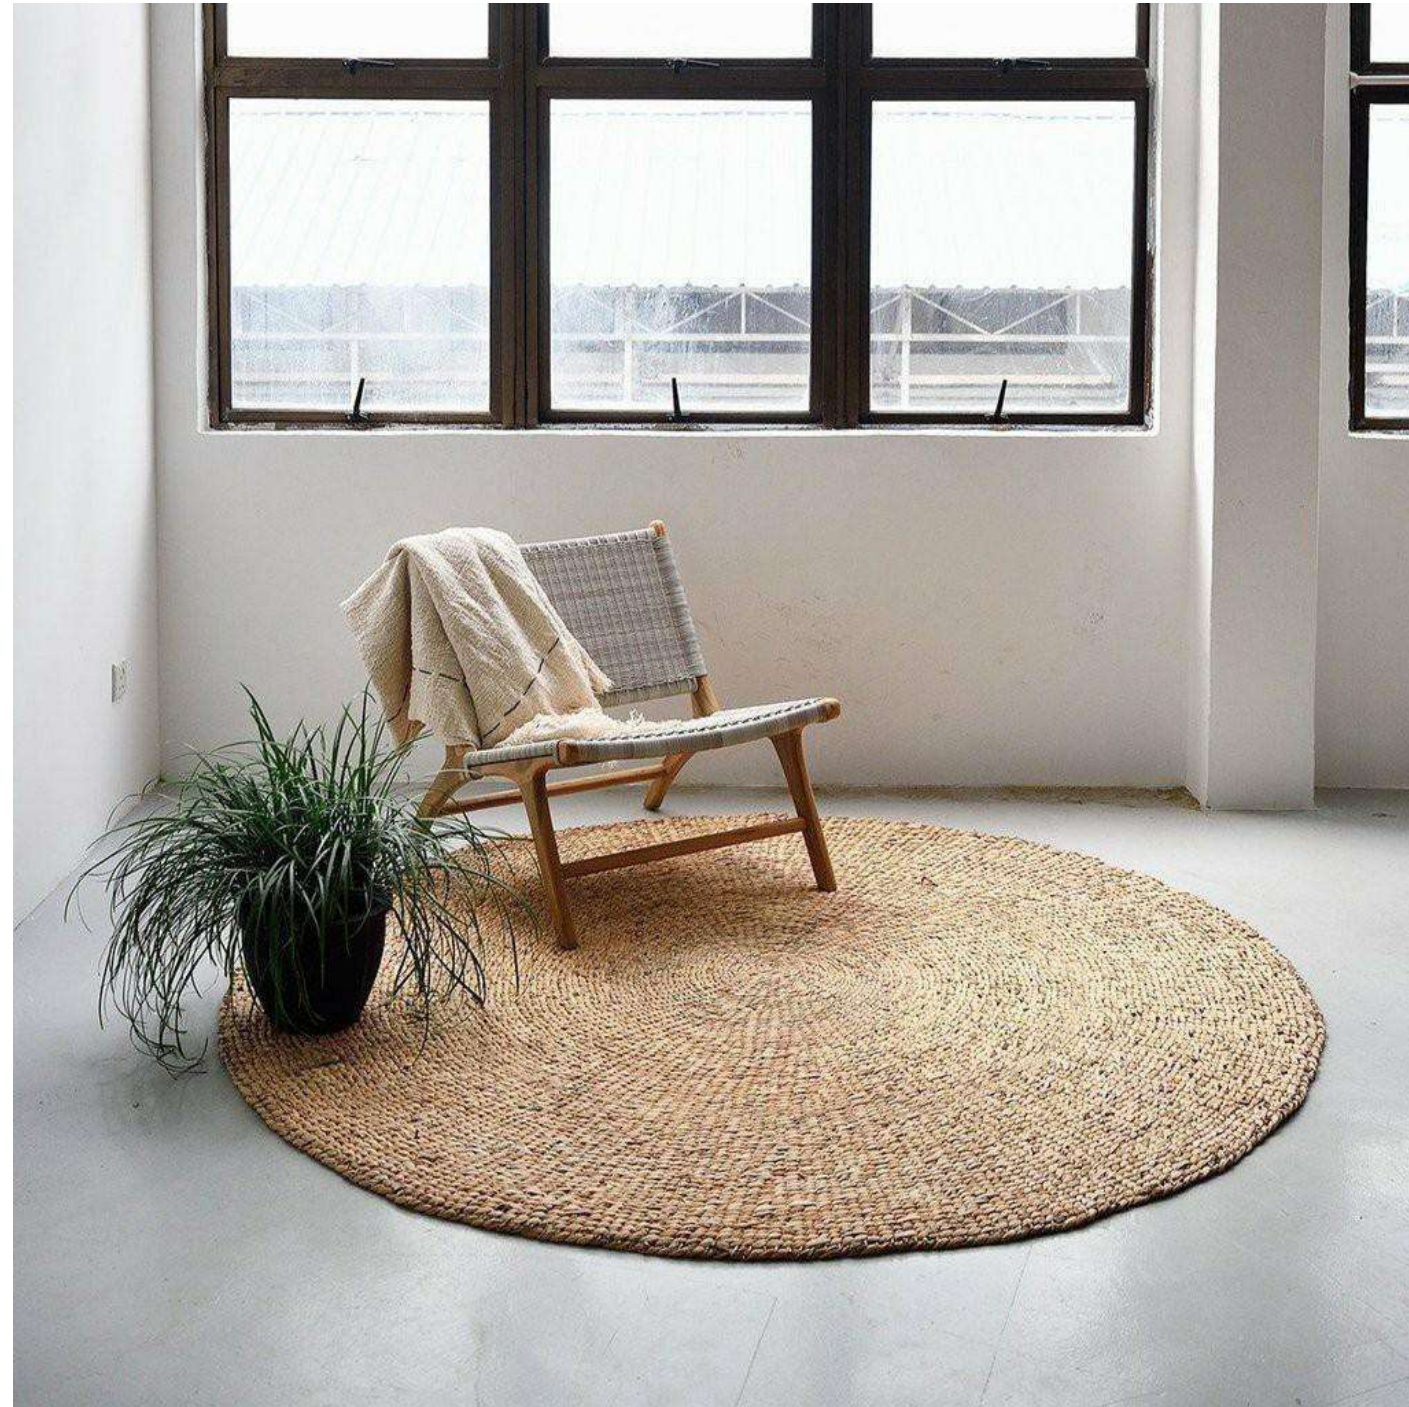

We manufacture in Single Ply and fiber form. We can also manufacture rugs, bags and other handicrafts using Water Hyacinth fiber, Yarn etc.

SINGLE PLY

BRAIDED FORM

Rugs and placemats made from Water Hyacinth fiber and yarn.

Kenaf

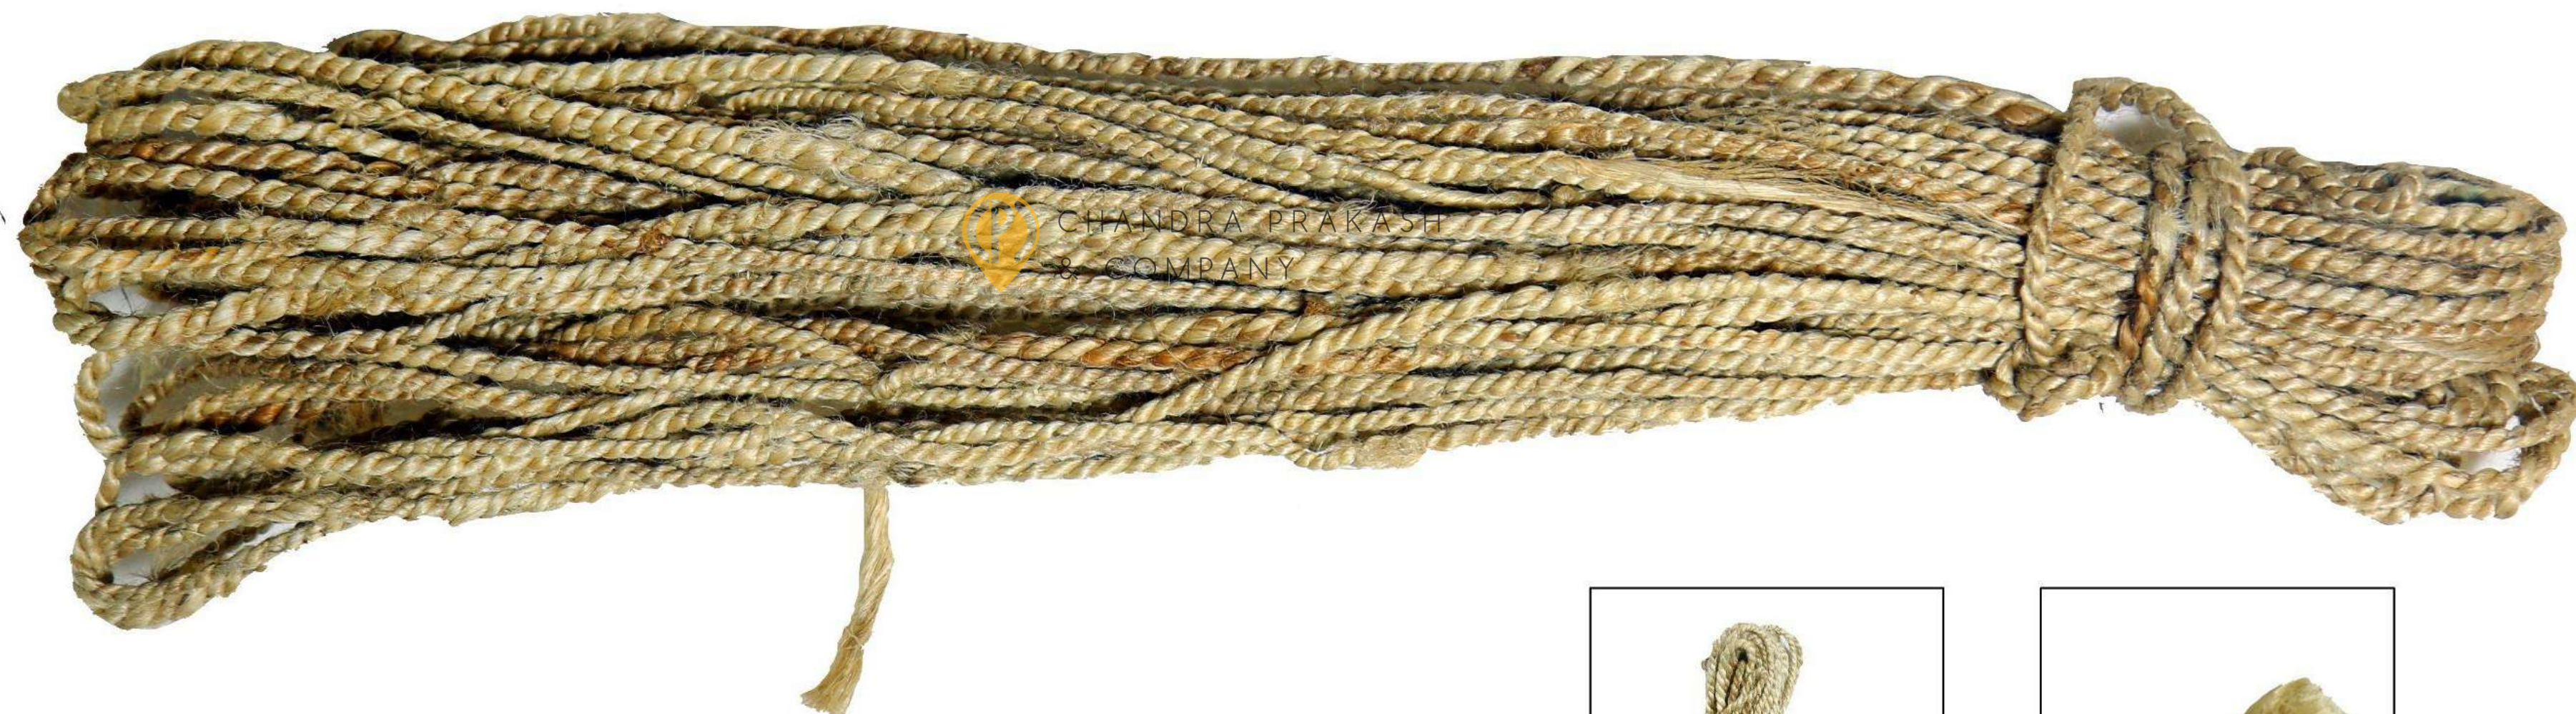

Unleash the potential of Kenaf fiber, a remarkable eco-friendly material with a soft texture and robust strength. Ideal for textiles, paper, and sustainable composites, Kenaf offers a world of possibilities for greener, more versatile product designs.

Applications:

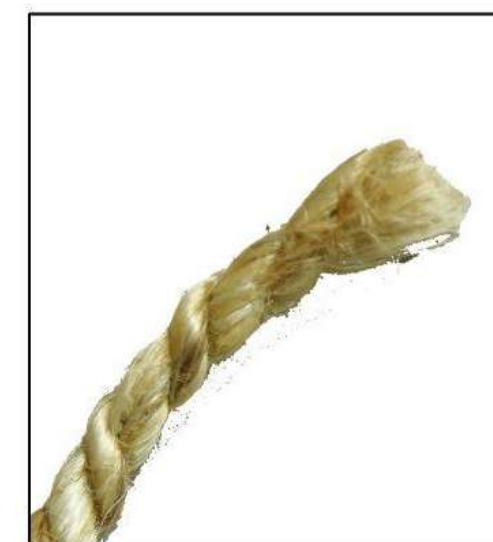

1. Textile
2. Paper and Pulp
3. Automotive and Industrial Composites
4. Building and Construction
5. Fiberboard and Packaging

KENAF FIBER

Also available in:
Single Ply, Two Ply, Three Ply, Braided

KENAF FIBER YARN; 2 PLY HANDSPUN

Rugs made from dyed Kenaf fibre yarn

Banana fiber

Available in:
All Handspun and Machine spun variations

Derived from the long, slender leaves of the banana plant, banana fiber is a unique and sustainable natural material. It offers a remarkable blend of strength and flexibility, making it an excellent choice for handcrafted textiles, eco-friendly fashion, and artistic creations. Embrace the beauty of nature with the exotic allure of banana fiber in your designs.

We turn discarded agricultural waste, often burned by farmers, into eco-friendly textiles, reducing pollution and creating new income opportunities for rural communities.

BANANA FIBER YARN

Spun from the robust fibers of banana plants. This eco-friendly yarn combines strength and a touch of exotic elegance, making it a unique choice for your knitting and crochet projects. Infuse your creations with the natural allure of Banana Fiber Yarn, and be part of a greener, more vibrant textile future.

BANANA BARK YARN (2PLY)

Experience the exotic allure of our Banana Bark Yarn, a sustainable wonder hailing from banana plants. This eco-friendly yarn, spun from the discarded bark, combines strength and natural texture, adding a touch of rustic elegance to your knitting and crafting projects.

Rugs and handicrafts made from Banana fiber and Banana bark

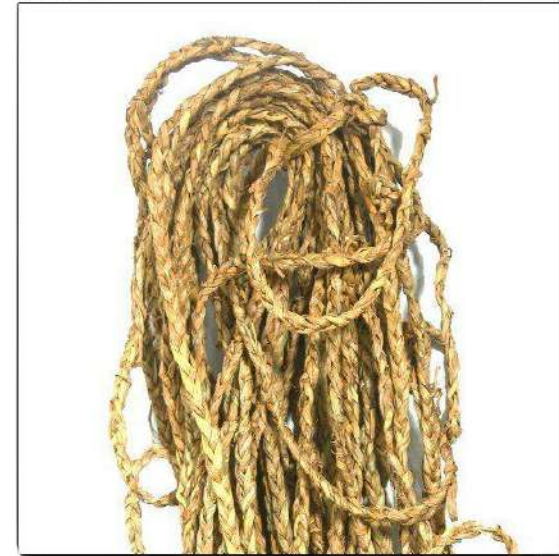

Water Reed Yarn

Explore the elegance of Water Reed, a wetland plant renowned for its slender, flexible, and sustainable fibers. Harvested from the serene banks of water bodies, these fibers offer a unique balance of strength and pliability.

*Available in **Natural and Braided form***

Ideal for weaving baskets, mats, and decorative accents, Water Reed Fiber brings a touch of natural beauty to your creations while contributing to wetland conservation.

WATER REED BRAIDED YARN

ALSO AVAILABLE IN SINGLE PLY

Placemats and Rugs made from Water Reed.

Rice Grass

Available in Overlap and Braided

Uncover the enchantment of Ricegrass, a natural fiber prized for its delicate appearance and versatile applications. This fine and pliable material adds a touch of elegance to your creations, whether in weaving baskets, crafting mats, or designing intricate decorative pieces. Elevate your projects with the organic charm of Ricegrass, a choice that blends rustic aesthetics with nature's grace.

We turn discarded agricultural waste, often burned by farmers, into eco-friendly textiles, reducing pollution and creating new income opportunities for rural communities.

RICE GRASS OVERLAP YARN

Suitable to be used in Furniture

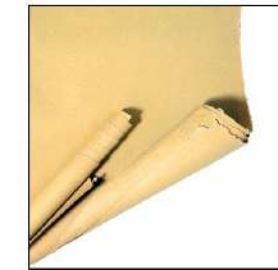

RICE GRASS YARN; BRAIDED TWO PLY

Harvested from the arid plains of India, **SABAI GRASS**, also known as "Sabaii" or "Sabaiya," offers nature's resilience and beauty. Crafted into Sabai Grass Paper, this material combines strength and rustic charm. **Available in 2 ply and braided.**

Used traditionally for making baskets, mats, and furniture. Sabai Grass has now found its way into eco-friendly paper production, bringing a touch of the countryside to your writing and artistic creations.

RECYCLED PLASTIC YARN

Also available in multiple colors, **Gold, Pink, Green etc.**

In 3 ply, 2 ply, single ply

Embrace sustainability and creativity with our Recycled Plastic Yarn, a revolutionary solution born from waste. Crafted from discarded plastics, this yarn combines eco-consciousness with versatility. Whether for knitting, crochet, or textile art, it transforms environmental concern into colorful, durable, and stylish creations. Join us in turning plastic waste into a brighter, more sustainable future.

SUNN HEMP YARN

Delve into the world of Sunn Hemp, a versatile and sustainable plant known for its rapid growth and vibrant golden blossoms. Beyond its visual appeal, this hardy crop enriches the soil and acts as a natural soil conditioner.
