

Mini Kannan

AI Product Manager | Driving Impact Across Global Markets

Singapore | +65 91421465 | Mrinalini.nid@gmail.com | [Linkedin](#).

WWW.MRINALINIKANNAN.COM

Summary

Product Leader 14+ years building AI-enabled, data-driven and enterprise-scale products across sustainability, fintech, and digital platforms. I specialize in simplifying complex systems, driving adoption at scale, and delivering measurable business impact across global markets. Former UX leader with strong systems thinking and cross-functional execution skills.

Selected Achievements:

- **Scaled Sus-Intel adoption by 318% YoY**, onboarding **184 → 900+ corporates** across APAC.
- **Delivered Workspace’s first generative-AI pilot**, tested by **500+ wealth advisors & PMs**.
- **Contributed to LSEG’s £2.2M / 3-year Bursa Malaysia partnership**, incl. **£700K ARR**, through delivery of Scope 3 & Supplier modules.
- **Drove 3x growth** in Climate MAP usage within its launch quarter.
- **Digitised DBS’s enterprise credit process** for **1,000+ RMs & Credit Officers**, reducing manual entry and approval delays.
- **Authored LSEG’s Scope 3 methodology and ESG anomaly detection research**, influencing product and client strategy.

PROFESSIONAL EXPERIENCE

London Stock Exchange Group | Singapore (Aug 2021- Present 4.5 yrs)
Product Manager | Product Owner | [Workspace AI](#)
Sep 2025 – Present

Delivered workspace first **AI agent in partnership with Microsoft** to deliver secure, compliant financial summaries from natural-language queries - piloting with **500 portfolio managers and wealth advisors**.

- **Shipped** NL2Wealth, LSEG’s first natural-language experience, simplifying discovery of financial insights through conversational queries.
- **Co-developed** an AI agent with **Microsoft** to generate **secure, compliant** financial summaries aligned with PII and entitlement rules.
- **Defined** product vision, success metrics, evaluation loop, and delivery milestones for the pilot.
- **Improved** model reliability by partnering with Engineering + Data Science to refine prompts and structured output patterns.
- **Accelerated** cross-squad alignment, managing dependencies and readiness for pilot launch.
- **Owned** PRDs, backlog, and sprint execution, improving cadence and visibility across teams.

Product Manager | [Sustainability Intelligence](#)
Jan 2023-Sep 2025 | 2 yrs 9 mos

Powered the evolution of Sus-Intel (LSEG’s off-the-shelf climate-reporting platform for stock exchanges) behind LSEG’s £2.2M [Bursa Malaysia partnership](#), while scaling platform adoption 318% YoY (184 → 900+ corporates).

- **Delivered** core Scope 3, Supplier Management and Data Sharing modules that contributed to LSEG’s £2.2M multi-year agreement with Bursa Malaysia, including £700K ARR.
- **Led** end-to-end client delivery as sole liaison with Bursa Malaysia - shaping requirements, SOWs, workflow design, and product rollout.
- **Launched** streamlined onboarding and compliance workflows that **accelerated user activation** across 900+ corporates.
- **Built** LSEG’s in-house Scope 3 methodology with climate researchers, and **authored** internal guidance used across product, engineering, and client teams.
- **Drove GTM** across Southeast Asia by partnering with Sales to **demo the platform, run client workshops**, and unlock regional adoption opportunities.

Core Strengths

Product Leadership

- Product Strategy & Roadmaps
- OKRs & North Star Metrics
- Stakeholder Influence
- Cross Squad Alignment
- Launch & GTM Readiness

AI & Data

- Gen AI Experience Design
- Intent mapping & Evaluation
- Scenario Modelling
- Data Driven Modelling
- API Architecture

Domain Expertise

- Climate (Scope 1/2/3)
- Supplier Management

User Experience & Systems Thinking

- Information Architecture
- Complex workflow design
- User research and Prototyping

Tools:

- Asana, Jira
- Confluence
- Figma/Figjam

EDUCATION

MASTER IN DESIGN (M.Des)

Animation Film Design

National Institute of Design, Ahmedabad

BACHELOR OF SCIENCE (B.sc)

Visual Communication

University Of Madras

Senior UX Designer | LSEG Labs Innovation
Aug 2021-Oct 2024 | 3 yrs 3 mos

Pioneered the UX foundation for LSEG’s Sustainability Intelligence platform and improved discoverability across Workspace’s sustainability experiences, delivering system-level upgrades used by thousands of global users.

- **Led** multiple UX projects across Workspace, including the [Climate Map](#), Sustainability Home page, and [Sustainability Intelligence](#); co-authored a white paper on [Anomaly detection in ESG data](#).
- **Drove** research, prototyping, and design reviews to validate concepts, ensure consistency, and drive adoption of the Sustainability Homepage—boosting engagement by 53% (572 → 874) and growing unique users post-revamp.
- **Authored** LSEG’s ESG Anomaly Detection white paper and supported climate-data research used across product, sales, and client teams.
- **Mentored** junior designers to deliver high-quality, user-centered outcomes in a fast-evolving product environment.

DBS | Singapore
Senior UX Designer | Singapore
March 2018-July 2021 | 3 yrs 5 mos

Digitised DBS’s paper-heavy credit origination process for 1,000+ Relationship Managers and Credit Risk Officers, reducing manual data entry and approval delays across markets. Aligned multiple legacy systems under a unified sustainable digital architecture

- Designed** the end-to-end E-Memo workflow, transforming a multi-level, paper-based lending process into a streamlined, compliant digital experience.
- Improved** turnaround time for large corporate credit requests by simplifying approvals, increasing accuracy, and consolidating fragmented legacy workflows.
- Led** cross-team discovery workshops and user testing across RM, CRM, and Credit Ops to define MVP, prioritise requirements, and align the product to real operational needs

Autodesk | Singapore
UX/UI Designer | Singapore
April 2016- March 2018 | 2 Years

- Enhanced key user journeys in [AutoCAD Mobile](#), improving feature discoverability and modernising the app’s overall experience.
- Redesigned** pricing, onboarding, and core interaction flows to increase clarity, reduce friction, and boost user engagement across mobile platforms.
- Modernised** AutoCAD Mobile’s interface by updating visual systems and aligning cross-platform design patterns used globally.

Earlier Experience (India) (2009-2016)

- **Start up experience-** Senior UI Artist, Kiwi Games | [Art Director, Learning Yogi](#)
- **Big Corporates** - Graphic Design, Tata Elxsi | Graphic Design, Walt Disney
- **Delivered** digital experiences across gaming, edtech, and animation, building strong foundations in visual systems, rapid iteration, and cross-functional collaboration.
- **Led** creative design for interactive products and story-driven experiences across mobile, web, and broadcast ecosystems.
- **Strengthened** multi-disciplinary design skills that now shape your product thinking, storytelling, and user-centric decision-making.
