CEO STATEMENT

M. SABILAL ALI E

Chief Executive Officer-PT SINERGI NUSANTARA BERDIKARI

At PT Sinergi Nusantara Berdikari, we believe that Indonesia's abundant natural resources deserve to be showcased and recognized by the world. As an international trading company, we not only export the richness of the Indonesian archipelago, but but we connect the values of Synergy, Quality, Integrity, and Sustainability that are deeply rooted in our company's mission.

We have a strong supply chain network and partnerships with producers, farmers, and specialists across various sectors. They are spread throughout Indonesia to ensure strict quality standards are consistently upheld. This extensive collaboration allows us to guarantee that every natural resource we export meets high-quality standards and aligns with our commitment to delivering consistent excellence. We are dedicated to ensuring that our customers enjoy a seamless, professional, ethical, and mutually beneficial trading experience. We always ensure our customers have a smooth, integrity , professional, and profitable trading experience.

Thank you for trusting PT Sinergi Nusantara Berdikari as your business partner. We are delighted to bring positive impact and foster synergy with our business partners. Let's collaborate and grow together.

About Company

PT. Sinergi Nusantara Berdikari is an export company based in Indonesia that specializes in the supply and trade of high-quality natural resources from the Indonesian archipelago. Headquartered in East Java, our company focuses on high-quality agricultural products, spices, coffee beans & coconut derivative for the global market. We not only export Indonesia's natural resources but also embody the values of Synergy, Quality, Integrity, and Sustainability, which are at the core of our company's mission.

We believe that building synergy and collaboration with human resources who are specialists and experts in their fields will produce good results in terms of management optimization, consistency in product quality, increased cost and operational efficiency, and an optimal supply and distribution chain, which can improve the satisfaction of business partners and profitability between companies.

As an international trading company, we build supply chain networks and strategic partnerships with manufacturers, farmers, and managers who are specialists in their fields. They are spread throughout the archipelago to maintain consistent product quality standards, supply chain and distribution efficiency, and a professional work system that upholds the principles of collaboration, integrity, and long-term sustainability with business partners.

PT. Sinergi Nusantara Berdikari is committed to being a trusted partner for importers, manufacturers, distributors, private label brands, or wholesalers who need high-quality and reliable agricultural products, spices, and coffee beans, professional services, and accurate delivery. We are not only a provider of quality commodities, but also a long-term business partner that supports mutual growth with all business partner.

VISION & MISSION

PT. SINERGI NUSANTARA BERDIKARI

VISION

To become a globally recognized export trading company for Indonesian quality products, acknowledged for its Synergy, Quality, Integrity, Consistency, and Contribution in building a sustainable international trade network.

MISION

1

Providing and connecting quality Indonesian products from managers, farmers, producers, and human resources who are specialists and experienced in their fields with international business partners.

2

PT SINERGI NUSANTARA BERDIKARI

SINKA

As an export company, PT. Sinergi Nusantara Berdikari is committed to maintaining the quality, safety, legality, and consistency of the products we deliver to our clients. We ensure that our clients receive premium, consistent products that comply with export requirements through the implementation of Standard Operating Procedures (SOP) and the optimization of an integrated management system.

1. Supply Chain Partner Selection

We implement strict verification and standards when selecting supply chain partners (farmers, producers, processors, and human resources who are specialists in their field) to ensure credibility, integrity, product quality, and consistency in meeting customer standards.

Practices in Supply Chain Partner Selection:

- Due Diligence & Initial Audit
 - Verification of partner legality (Deed of Establishment, NIB, Company Profile, Product Certificates if available).
 - On-site audit covering business practices, sorting/grading processes, storage, packaging, and product handling.
 - Evaluation of partner compliance with government regulations & international customer standards.
- Partner Selection Criteria :
 - Proven experience and competence in their field.
 - Ability to maintain export-standard product quality.
 - Commitment to sustainability and consistency in product standards.
- Sustainable Partnership
 - Clear cooperation contracts that cover supply volume capacity and quality grades.
 - Commitment to maintain consistent export quality standards.

Traceability system (each batch traceable to its supply source).

2. Quality Control & Product Standards

Before export, products undergo a multi-layered quality control process implemented by PT. Sinergi Nusantara Berdikari to ensure consistent product quality and standards that meet international quality standards and customer expectations.

Quality Control & Product Standards Practices:

- Incoming Quality Check
 - Physical selection: size, color, moisture level, cleanliness.
 - Manual and mechanical sorting per customer standards.
- Product Standardization
 - Based on SNI (Indonesian National Standard), Codex Alimentarius, and international buyer standards (ISO, HACCP, USDA, EU).
 - Parameters: physical characteristics (shape, size, color), moisture level, aroma, essential oil content (spices), caffeine content (coffee), etc.
- Multi-Level QC System
 - QC at production site (partner & internal team).
 - QC at company warehouse.
 - QC at pre-shipment (by third-party labs).
- Documentation & Reporting
 - Each batch has a Quality Report & Export Database.
 - Digital recording system for transparency and audits.

PT SINERGI NUSANTARA BERDIKARI

SINKA

3. Third-Party Laboratory Testing

To ensure that products meet international standards, each product to be exported is tested based on physical content (moisture content, density, color, size), chemical content (pesticide residues, heavy metals), humidity, microbiology, and other residues as requested by the customer.

Third-party laboratory testing practices conducted :

- Accredited Laboratory Collaboration
 - Partnering with ISO/IEC 17025 certified labs.
 - Inspection & verification partners: SGS, TUV, Intertek, Cotecna, Sucofindo.
- Test Parameters:
 - Chemical: (pesticide residues, heavy metals.)
 - Physical: (moisture content, density, size, color.)
 - Biological: (microbes, fungi, contamination.)
 - Commodity-specific (e.g., essential oil content for cloves, caffeine for coffee).
- Documents Produced:
 - Certificate of Analysis (COA).
 - Detailed Quality Test Reports (as requested by customers).

4. Export Documentation & Certification

Every export must be accompanied by official documents to comply with Indonesian and destination country regulations. PT. Sinergi Nusantara Berdikari ensures that the process and preparation of Export Documents & Certificates run smoothly. We provide responsive, attentive, and supportive services to our customers.

Practices in the Management and Preparation of Export Documents and Certificates:

- Main Export Documents:
 - Invoice & Packing List.
 - Bill of Lading (B/L) or Airway Bill.
 - Certificate of Origin (COO).
 - Phytosanitary Certificate (issued by Indonesian Agricultural Quarantine).
 - Certificate of Analysis (lab test report upon request).
 - Fumigation Certificate (upon request).
 - Insurance Certificate (for CIF terms).
- Institutional Coordination:
 - Ministry of Trade → Certificate of Origin (COO).
 - Customs Authority → Export Declaration (PEB).
 - Agricultural Quarantine → Phytosanitary Certificate (PC).

PT SINERGI NUSANTARA BERDIKARI

SINKA

5. Distribution Handling & Container Loading

PT. Sinergi Nusantara Berdikari ensures that the distribution and loading processes are carried out under strict supervision so that product quality is maintained and not damaged before reaching the customer's destination country.

Distribution Handling & Container Loading Practices:

- Product Preparation:
 - Packaging in compliance with international standards (food-grade, eco-friendly).
 - Fumigation & sanitation treatments as required by destination country.
- Container Loading:
 - Inspection of container condition (dry, clean, odor-free, rust-free, leak-free).
 - Use of pallets & wrapping to prevent product damage. (if required for container loading)
 - Sealing container with official Custom Seal Number.
 - Photo & video documentation for transparency and customer reporting.
- Logistics Coordination:
 - Transport to port using licensed trucks.
 - Coordination with shipping lines for vessel schedules and shipment tracking.

6. Post-Shipment Monitoring

We ensure product quality commitments remain consistent until goods arrive at buyers' hands.

Post-Shipment Practices:

- Tracking & Monitoring:
 - Real-time tracking with B/L number.
 - Regular updates provided to buyers.
- Customer Feedback & Claims:
 - Buyers receive arrival & condition reports.
 - In case of discrepancies, a professional claim mechanism and win-win solution are provided.
- Internal Evaluation:
 - Analysis of delivered product quality.
 - Review of shipping performance & customer satisfaction.
 - Continuous improvement of company SOPs through QC & supply chain reviews.
- Reference Standards:
 - ISO 9001:2015 (Quality Management System).
 - ISO 22000 (Food Safety Management System).

OUR SERVICES

PT. SINERGI NUSANTARA BERDIKARI

1

EXPORT MANAGEMENT

As an international trading company, PT. Sinergi Nusantara Berdikari provides end-to-end export management services to ensure that every transaction runs efficiently, securely, and in full compliance with global trade regulations. Our services are adapted to the specific needs of our importers, distributors, and customers.

Scope of Export Management Services:

- **Supply Chain Verification & Identification:** Analysis and verification of supply chain partners with credibility, integrity, and product quality, ensuring consistent standards that align with customer requirements.
- **Contract & Trade Terms Management:** Negotiation of trade contracts with customers using Incoterms (EXW, FOB, CFR, CIF) in accordance with international trade standards.
- **Export Planning:** Development of export plans from sourcing to shipment, supported with clear timelines and professional management.
- **Risk Management:** Identification of potential risks (logistics, licensing & compliance, product quality transparency) with mitigation strategies to ensure customer confidence in every transaction.
- **Customer Experience:** Intensive communication and regular export status reporting to buyers.
- **Preparation of Trade Documents:** Sales Contract, Proforma Invoice, and Commercial Invoice.
- **Customs Documentation:** Export Declaration (PEB), Bill of Lading, and Packing List.
- **Coordination with Institutions:** Customs, Agricultural Quarantine, Ministry of Trade, Freight forwarders, Shipping Lines, and other relevant authorities.
- **Export Monitoring:** Tracking and supervising the export process until arrival at the Port of Discharge (POD)

2

CERTIFICATION & DOCUMENTATION SUPPORT

We understand that legality is the foundation of international trade. Therefore, PT. Sinergi Nusantara Berdikari assists buyers and suppliers in processing official documents and export certifications required in Indonesia and the destination countries.

Certification & Documentation Support Services Include:

- Phytosanitary Certificate issued by the Agricultural Quarantine Agency to ensure the biological safety of export products.
- Certificate of Origin (COO/E-Form) issued by the Ministry of Trade of the Republic of Indonesia (Kemendag) as a requirement for preferential tariffs in the destination country.
- Certificate of Analysis (COA) from independent laboratories to ensure product quality and safety (moisture content, composition, pesticide-free, etc.) according to customer requirements.
- Halal Certification for food products in compliance with MUI/LPPOM standards and customer needs, particularly in Muslim-majority markets.
- Customs & Trade Documents: Invoice, Packing List, Export Declaration (PEB), and customs clearance documents.
- Fumigation & Insurance Documentation: Fumigation certificates for packaging and international cargo insurance policies.

3

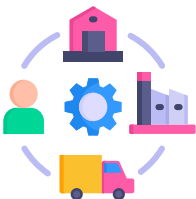

PRIVATE LABEL SERVICES

For international buyers who wish to market products under their own brand, PT. Sinergi Nusantara Berdikari provides integrated private label solutions from upstream to downstream.

Private Label Services Cover:

- Customized Packaging & Branding: Packaging design in accordance with the standards of the destination (e.g., FDA for the US, EFSA for the EU).
- Regulatory Compliance Labeling: Consultation on label compliance, including nutrition facts, local language requirements, production codes, and certifications.
- Flexible Production Scale: Support for both bulk orders and smaller-scale purchases with OEM systems.
- Confidentiality Assurance: Guarantee of data, supply chain, and brand design confidentiality to protect buyers' intellectual property.
- Value-Added Services: Strategic marketing consultation and customized international packaging to strengthen buyers' brands in the global market.

4

SUPPLY CHAIN & LOGISTICS

PT. Sinergi Nusantara Berdikari manages an integrated supply chain network in collaboration with farmers, cooperatives, and local producers across Indonesia. We ensure that products are delivered with preserved quality, on-time delivery, and optimized logistics costs.

Supply Chain & Logistics Services Include:

- Supplier & Farmer Partnership Management: Selection of partners based on quality, integrity, and commitment to sustainability.
- Warehousing & Quality Storage: Storage facilities with international standards (temperature, humidity, and hygiene control).
- Container Management: Arrangement of FCL (Full Container Load) or LCL (Less than Container Load) based on buyer requirements.
- Logistics Coordination: Domestic distribution management to Port of Loading (POL), including trucking, freight forwarding, and cargo consolidation.
- Container Handling & Loading Supervision: Fumigation process, container stuffing, photo/video documentation, and container sealing.
- Shipping & Freight Forwarding: Sea freight (FCL/LCL) and air freight, including transshipment arrangements if necessary.
- Post-Shipment Monitoring: Real-time cargo tracking and continuous status updates to buyers until arrival at the destination port.

HOW WE WORK

PT. SINERGI NUSANTARA BERDIKARI

1

SUPPLY CHAIN SOURCING & VERIFICATION

To ensure the quality of exported products, PT. Sinergi Nusantara Berdikari implements a strict sourcing and supplier verification process .

- **Partner Selection:** Selecting farmers, farmer groups, or suppliers who have a good reputation and are able to meet international quality standards.
 - **Field Audit & Verification:** Conduct direct visits to production sites to assess product quality, production capacity, business practices, sorting processes, storage and business sustainability.
 - **Quality Standards:** Ensuring raw materials meet required criteria (grading, moisture content, aroma, size, cleanliness).
 - **Cooperation Agreement:** Establishing MoUs/Supply Agreements to guarantee professional, integrity, and transparent cooperation.
 - **Continuous Monitoring:** Carrying out regular inspections and providing guidance to supply chain partners.
-

2

REGULATORY COMPLIANCE & TRADE CONFORMITY

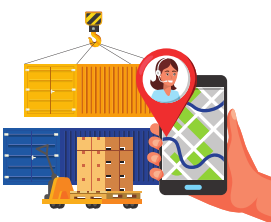

Regulatory Compliance & Trade Conformity Each export destination country has specific trade rules, security standards, and documents that must be met. PT. Sinergi Nusantara Berdikari manages all these aspects so that the product is received in the customer's destination country without any obstacles..

Steps in Regulatory Compliance & Trade Conformity:

- Assistance with Destination Country Certifications: Aligning standards with requirements (e.g., FDA – USA, FSSAI – India, Halal – Middle East, EU Organic – Europe).
- Official Documentation: Handling Export Documents (PEB, Invoice, Packing List, COO, Bill of Lading, etc.).
- Quality Certifications: Ensuring certificates such as Phytosanitary, Halal, COA, HACCP, and ISO are available as requested by buyers.
- Tax & Customs Compliance: Coordinating with customs authorities to ensure smooth export operations.
- Internal QC Supervision: Final inspections (pre-shipment inspection) to guarantee compliance with buyer standards

3

LOGISTICS & SHIPMENT SUPPORT

PT. Sinergi Nusantara Berdikari ensures that all shipments are executed safely, efficiently, and on time through optimized management and strict implementation of company Standard Operating Procedures (SOPs).

Scope and Workflow:

- Handling & Packaging: Export-standard packaging (fumigation, vacuum packing, palletizing, container stuffing).
- Container Management: Arranging FCL (Full Container Load) or LCL (Less than Container Load) based on buyer requirements.
- Freight Forwarder Partnership: Collaborating with reliable logistics partners for sea and air shipments.
- Customs Clearance: Managing customs processes and export documents to prevent delays.
- Shipment Tracking: Providing real-time shipment status updates to buyers.
- Post-Shipment Support: Ensuring timely delivery of original documents (B/L, COO, Invoice, etc.) so buyers can complete import processes in their destination country.

This product is harvested from the best plantations in Indonesia and processed using natural drying methods, accompanied by a strict sorting system to ensure consistent size, shape, and quality. PT. Sinergi Nusantara Berdikari is here to provide Lalpari cloves for the international market. We prioritize consistent premium quality, international food safety standards, and supply consistency to meet the needs of global buyers.

Our Range of Spices Products

Cardamon

Origin : West Java, Central Java, North Sumatra, West Sumatra, and East Java, Indonesian

Cardamom from PT. Sinergi Nusantara Berdikari is a premium Indonesian spice with a warm, sweet taste and a strong, distinctive aroma. Harvested selectively from the highest quality cardamom, our cardamom is processed using natural drying and international quality standards, resulting in a product with high essential oil content and natural freshness. This product is widely used in the food & beverage industry, pharmaceutical industry, herbal industry, and cosmetics industry, which require authentic taste and aroma

Candlenut

Origin : South Sulawesi, North Sumatra, West Java, Central Java, East Java, and West Nusa Tenggara, Indonesian

Candlenuts from PT. Sinergi Nusantara Berdikari are harvested from the best sources in Indonesia, which are rich in high-quality candlenuts. With a high natural oil content, candlenuts from PT. Sinergi Nusantara Berdikari are suitable for use as a main ingredient in the food and spice industry, vegetable oil processing industry, pharmaceutical industry, and cosmetics industry. Our candlenuts are selected and dried with standardized processes to ensure consistent quality, cleanliness, and compliance with international food safety and quality standards.

Nutmeg

Origin : North Sulawesi, Aceh, North Maluku, Maluku, West Papua, and West Sumatra, Indonesian

PT. Sinergi Nusantara Berdikari presents Indonesian nutmeg as a leading export commodity with a quality that is competitive in the global market. Our nutmeg products are processed through grading, natural drying, and hygienic packaging to ensure their quality is maintained until they reach customers in the export destination countries. Our nutmeg products are ideal for use in the food and beverage industry, cake and bakery industry, pharmaceutical industry, perfume industry, cosmetics industry, and herbal industry.

Our Range of Spices Products

Areca Nut

Origin : Jambi, Aceh, Riau, and West Sumatra, Indonesian

Betel nuts from PT. Sinergi Nusantara Berdikari are harvested from selected plantations and processed using natural drying methods to maintain their quality and natural content. With a hard texture, a distinctive blend of sweet, bitter, and sour flavors, and high tannin content, our betel nuts are widely used in the food industry, pharmaceutical industry, cosmetics industry, herbal industry, and natural dye extract industry

Vanilla

Origin : Central Java, East Java, and Yogyakarta, Sulawesi, Bali, West Nusa Tenggara (NTB), East Nusa Tenggara (NTT), North Sumatra, Indonesian

PT. Sinergi Nusantara Berdikari presents Premium Indonesian Vanilla as one of Indonesia's leading commodities. Our vanilla comes from selected plantations that are managed using sustainable agricultural systems and monitored using the company's standard operating procedures (SOP). Our vanilla boasts a distinctive sweet, warm aroma with a unique fragrance, high natural vanillin content, a flexible texture, and a premium dark brown color. These qualities make our vanilla ideal for the Food and Beverage Industry, Cosmetics Industry, Perfume Industry, and Vanilla Extract

Mace

Origin : Aceh, Maluku, West Papua, and North Sulawesi, Indonesian

PT. Sinergi Nusantara Berdikari presents Fuli Indonesia, a spice derived from the flower layer of the nutmeg fruit (*Myristica fragrans*). Fuli is popularly known for its warm, spicy, and sweet aroma, making it a valuable ingredient in the global food, beverage, and pharmaceutical industries. Our Fuli comes from the best nutmeg plantations in Indonesia, particularly from regions with the ideal tropical climate for nutmeg cultivation. Each piece of Fuli is carefully harvested and naturally sun-dried to preserve its bright golden orange color, high essential oil content, and authentic Indonesian flavor.

Our Range of Spices Products

Tamarind Seed

Origin : West Java, Central Java, East Java, North Sumatra, West Kalimantan, Bali, and South Sulawesi, Indonesian

Popular as one of Indonesia's valuable export commodities, Tamarind Seeds produced by PT. Sinergi Nusantara Berdikari offer premium quality and high consistency. With a natural sun-dried curing process, our tamarind seeds have a long shelf life. This product is widely exported for use in the food industry, textile industry, herbal industry, pharmaceutical industry, cosmetic industry, and natural animal feed. We ensure that every product is packaged according to moisture control and quality assurance standards, to ensure product quality and integrity until it reaches the customer in the export destination country.

Tamarind With Shell

Origin : West Java, Central Java, East Java, North Sumatra, West Kalimantan, Bali, and South Sulawesi, Indonesian

Tamarind with Shell from PT. Sinergi Nusantara Berdikari is a natural harvest from the best tamarind trees in Indonesia. We offer a product with a distinctive sweet and sour taste. Tamarind with Shell has a flavor combination of lemon, apricot, and dates, a natural brown color, and a distinctive fresh tropical aroma. Tamarind with Shell is naturally processed through sun-drying and manual sorting. It is an ideal choice for the Retail & Supermarket Industry, Food and Beverage Industry, Sauce Industry, Instant Seasoning Industry, Pharmaceutical Industry, and Herbal Industry.

Tamarind Meat Without Seed

Origin : West Java, Central Java, East Java, North Sumatra, West Kalimantan, Bali, and South Sulawesi, Indonesian

As one of Indonesia's high-value commodities, (Tamarind Pulp/ Tamarind Unseeded) from PT. Sinergi Nusantara Berdikari is produced with sustainability and food safety compliance principles. Fresh tamarind fruits are harvested from trees that grow naturally in Indonesia, then processed manually to separate the pulp from the seeds and fibers. The drying process is done under natural sunlight, resulting in a naturally dried product that is long-lasting, flavorful, and free from contaminants. This product has become a leading export item for the Asian, Middle Eastern, and European markets, used in the sauce, chutney, herbal beverage, and traditional spice industries.

Robusta Green Coffee Beans

Origin : Lampung, South Sumatra, Bengkulu, East Java, West Java, Indonesian

As one of Indonesia's leading export commodities, Robusta Coffee from PT. Sinergi Nusantara Berdikari represents the distinctive and authentic flavors of each region in Indonesia. Processed using dry and semi-washed methods, each of our coffee beans offers the perfect balance of strong aroma, earthy flavor, nutty character, and high caffeine content. Our Robusta coffee is suitable for use in the Retail and Supermarket Industry, Supply Chain Distribution Industry, instant coffee industry, roasteries, and ready-to-drink coffee beverage manufacturers across various countries.

Arabica Green Coffee Beans

Origin : Aceh (Gayo), North Sumatra (Mandheling), Bengkulu, East Java (Ijen), South Sumatra, South Sulawesi, Flores (NTT), West Java, and Central Java, Indonesian

PT. Sinergi Nusantara Berdikari Arabica Coffee is the finest product from Indonesia's highlands, renowned for producing high-quality Robusta coffee. The cool climate and tropical soil create coffee beans with an elegant taste and complex aroma, including fruity, caramel, and floral notes. our Arabica coffee is suitable for use in the retail and supermarket industry, supply chain distribution industry, instant coffee industry, premium coffee industry, private label roasting, and specialty bean importers in Asia, the Middle East, Europe, America, and various other countries.

Roasted Coffee Beans

Origin : Aceh (Gayo), North Sumatra (Mandheling), Bengkulu, East Java (Ijen), South Sumatra, South Sulawesi, Flores (NTT), West Java, and Central Java, Indonesian

Roasted Coffee from PT. Sinergi Nusantara Berdikari is made from high-quality, selected Robusta and Arabica coffee beans from the highlands of Indonesia. Through a precise roasting process with controlled temperatures and specialist human resources in the field of roasting, each coffee bean is roasted to achieve the perfect flavor profile—producing a distinctive aroma, balanced acidity, and rich taste. We offer a variety of roasting profiles (light, medium, and dark roast) to meet the needs of the global market, whether for retail and supermarket consumption, the coffee industry, private label brands, or commercial use.

Coconut Derrivative

INDONESIAN

Our Range of Coconut Derivative

Semi Husked Coconut

Origin : Riau: North Sulawesi: East Java, Central Sulawesi, North Maluku, Central Java, South Sumatra, Jambi, North Sumatra, Indonesian

PT. Sinergi Nusantara Berdikari proudly presents its selection of Semi Husked Coconuts from the best coconut plantations in Indonesia. Each coconut is carefully selected and undergoes a partial husking process to preserve its natural freshness and extend its shelf life during shipment to export destination countries. With uniform size, controlled moisture content, and thick flesh texture, this product is highly sought after in the global market for the food industry, beverage industry, coconut oil industry, food processing industry, and desiccated coconut processing.

Dessicated Coconut

Origin : Riau: North Sulawesi: East Java, Central Sulawesi, North Maluku, Central Java, South Sumatra, Jambi, North Sumatra, Indonesian

Desiccated Coconut from PT. Sinergi Nusantara Berdikari is a high-quality dried coconut product made from selected fresh coconut meat. Through a hygienic process and modern technology, this product retains its natural aroma, distinctive coconut flavor, and smooth texture, making it ideal for various food and beverage industries. Our Desiccated Coconut product is suitable for use in the bakery industry, biscuit industry, ice cream industry, and even instant food manufacturers that prioritize natural ingredients with high export standards.

Copra

Origin :Riau: North Sulawesi: East Java, Central Sulawesi, North Maluku, Central Java, South Sumatra, Jambi, North Sumatra, Indonesian

Copra from PT. Sinergi Nusantara Berdikari is a high-quality processed product made from dried old coconut meat, dried to an optimal moisture content, producing the main raw material for the manufacture of coconut oil and its derivative products. We ensure that each piece of copra comes from selected coconuts that are processed using natural or mechanical drying methods in accordance with international export standards.

Our Range of Coconut Derivative

Crude Coconut Oil

Origin : Riau: North Sulawesi: East Java, Central Sulawesi, North Maluku, Central Java, South Sumatra, Jambi, North Sumatra, Indonesian

Crude Coconut Oil (CCO) is a natural product extracted from high-quality dried coconut meat (copra). PT. Sinergi Nusantara Berdikari produces CCO through a controlled process, resulting in pure golden yellow oil with low free fatty acid content and high oil content. This product is widely used in various industries, ranging from cooking oil processing, margarine, soap, cosmetics, to biodiesel. With sustainable raw material sources and a quality system that meets export standards, our CCO is the ideal choice for importers and manufacturers who prioritize quality stability, production efficiency, and high economic value

Virgin Coconut Oil

Origin : Riau: North Sulawesi: East Java, Central Sulawesi, North Maluku, Central Java, South Sumatra, Jambi, North Sumatra, Indonesian

Virgin Coconut Oil (VCO) from PT. Sinergi Nusantara Berdikari is a premium product made from selected fresh coconuts from Indonesian tropical plantations, processed using cold-pressed extraction technology to maintain its purity and natural quality. This oil is renowned for its perfect clarity, delicate coconut aroma, and high natural nutritional content, making it one of the high-value export products in the agricultural and global sectors. Our Virgin Coconut Oil (VCO) is processed from selected fresh coconuts through a centrifugal cold-pressed process, producing oil with a soft aroma, light taste, and perfect clarity. This product is widely used by the organic food, natural cosmetics, and herbal pharmaceutical industries, making SINKA Indonesia the right partner for consistent and reliable supply of export-quality VCO.

Coco Bristle

Origin : Riau: North Sulawesi: East Java, Central Sulawesi, North Maluku, Central Java, South Sumatra, Jambi, North Sumatra, Indonesian

Coco Bristle from PT. Sinergi Nusantara Berdikari is a high-quality processed coconut fiber product made from coconut husks through a modern processing and mechanical separation process. This product possesses natural strength, high elasticity, and moisture resistance, making it an ideal material for various industrial applications such as the handicraft industry, brush manufacturing industry, broom and mattress industry, as well as components for household and automotive industries. Handicraft industry (bags, brooms, wallets), brush manufacturing industry (toothbrushes, cleaning brushes, hair brushes), textile industry (fiber cleaning, mattress manufacturing), agriculture and plantation industry (growing media),

Our Range of Coconut Derivative

Coco Peat

Origin : Riau: North Sulawesi: East Java, Central Sulawesi, North Maluku, Central Java, South Sumatra, Jambi, North Sumatra, Indonesian

As part of its commitment to sustainability, PT. Sinergi Nusantara Berdikari utilizes coconut husk waste to produce a high-value product: Coco Peat. This product serves as a substitute for soil and natural growing media with the ability to absorb and retain moisture up to 8 times its own weight. Our Coco Peat products consist of two types: low EC (Electrical Conductivity) and high EC (Electrical Conductivity). Our Coco Peat is not only suitable for the agricultural industry but also for the furniture and automotive industries (as filling for sofas, car seats, and mattresses) as well as manufacturing for products such as ropes, brushes, and geotextiles.

Coco Broom Stick

Origin : Riau: North Sulawesi: East Java, Central Sulawesi, North Maluku, Central Java, South Sumatra, Jambi, North Sumatra, Indonesian

Coco Broom Stick is a coconut-derived product made from the fibers of dried old coconut leaves that have been naturally processed without chemicals. This product is known for its exceptional strength, flexibility, and durability, making it an ideal choice for both household and industrial use. PT. Sinergi Nusantara Berdikari offers export-quality Coco Broom Sticks with strict standards in terms of cleanliness, size, and fiber durability. Each broom is designed with strong and durable natural fibers, capable of cleaning dust and coarse dirt on various surfaces.

Briquette

Origin : Riau: North Sulawesi: East Java, Central Sulawesi, North Maluku, Central Java, South Sumatra, Jambi, North Sumatra, Indonesian

PT. Sinergi Nusantara Berdikari's Coconut Briquettes are a solid energy product based on natural coconut shell charcoal that is processed through carbonization and high-pressure compression. They produce stable heat, a clean flame, and a long burning time without smoke or smell, making them the top choice for shisha, BBQ, and green energy industries. With strict quality control and high-quality old coconut shells sourced from Indonesia, we ensure that each briquette has uniform density, low ash content (<2%), and no additional chemicals. This product reflects PT. Sinergi Nusantara Berdikari's commitment to providing efficient and environmentally friendly sustainable energy solutions

HOW TO ORDER AT PT. SINERGI NUSANTARA BERDIKARI

Ordering from PT. Sinergi Nusantara Berdikari is easy, professional, and transparent. We are committed to making your international procurement experience smooth and successful. Here's how the process works:

1

1. SEND US YOUR INQUIRY

Contact us via email, phone, linkedin or WhatsApp with the product name, product specifications, order quantity, destination port, and packaging preferences.

2

2. RECEIVE QUOTATION & DETAILS

Once we receive your inquiry, our team will respond within 24–48 hours with an official quotation (Quotation Letter/Soft Corporate Offer – SCO), including: Price Offer (FOB, CIF, CNF, Ex-Works), Lead Time, Packaging Detail, Sample availability (photo/video/sample)

3

3. ORDER CONFIRMATION & PAYMENT

After confirming specifications, we issue a Proforma Invoice. Payment terms: T/T, LC, or based on mutual agreement.

4

4. PRODUCTION & QUALITY CONTROL

Products are prepared and packed under strict quality checks. We coordinate optional thirdparty inspections (SGS/Intertek).

5

5. SHIPPING & EXPORT DOCUMENTATION

Once the products pass quality control, we manage the entire export process, including documentation, domestic logistics, shipping line booking, until the goods arrive at the destination country.
