About Us

UHS Indonesia is an interior contracting company specializing in office and commercial space projects. Through our accelerated execution system and in house custom furniture workshop, we deliver interior solutions that are more precise, efficient, and reliable than the industry standard. Over the years, we have successfully completed hundreds of projects from government institutions and leading corporations to modern startups. For us, a workplace is not only about aesthetics, but also about enhancing productivity, strengthening company culture, and representing brand identity.

Vision

To become Indonesia's leading office interior contractor, recognized for speed, precision, and premium quality while creating workplaces that drive business growth.

Mission

- Deliver accelerated interior solutions without compromising detail or quality.
- Operate with an integrated workflow, from design to production to installation.
- Ensure client satisfaction through transparent communication, punctual delivery, and consistent results.
- Uphold the highest standards of safety, professionalism, and sustainability.
- Build long-term partnerships by creating inspiring and productive workplaces.

Year's Experience

UHS Indonesia is an interior contracting company specializing in the construction and renovation of office spaces, meeting rooms, and commercial areas.

We are committed to delivering time efficient execution interior solutions without compromising on aesthetics. Backed by the experience of our professional team, we believe that a comfortable, well organized workspace is essential to driving business productivity.

Fast | Precise | Premium

- Fast Execution**
We deliver interior projects with speed and efficiency, ensuring every deadline is met without compromising quality.
- Precise Detailing**
Every project is handled with meticulous attention to detail, from design accuracy to flawless execution on site.
- High-Quality**
We create modern, functional, and visually appealing spaces that enhance your brand image and business productivity.

Company Highlights

UHS Indonesia operates with an integrated fast track execution system tailored for office and commercial interiors.

By aligning our in house workshop with on-site teams through a synchronized workflow, we ensure seamless progress across every stage of the project.

Each bespoke furniture elements and interior element is crafted with meticulous accuracy, installed under direct supervision, and delivered on schedule guaranteeing consistent results and client satisfaction.

Through a round the clock operational system, UHS completes office interior projects from design and production to final installation in significantly shorter time frames than the industry norm.

Our structured workflow enables real time coordination between teams, ensuring accuracy, efficiency, and premium quality throughout the process.

Supported by an experienced production team, our in house facility accommodates diverse custom requirements for meeting rooms, workspaces, and commercial environments, all tailored to each client's unique vision.

SYSTEM WORKFLOW

1. Project Planning & Design

Designer prepares and uploads layout drawings and specifications into the system.

2. Materials & Logistics Preparation

Material procurement and delivery schedules are arranged to support continuous day and night operations.

3. On-Site Execution (Two-Shift System)

Work is executed in two shifts, ensuring continuous, dual-shift progress without delays.

4. Quality Control & Detailing Check

Every stage is monitored with flawless detailing, with immediate correction on-site for any inconsistencies.

5. Final Handover & Documentation

Project is finalized with full documentation and client handover, maintaining aesthetic standards and operational readiness.

PROJECT EXECUTION MANAGEMENT

Site Survey & Layout Mapping

On Site Installation

Design development

Quality Control & Detail Inspection

Custom interior production

Cleaning & Project Handover.

PROJECT HANDOVER PREPARATION

TIME-EFFICIENT EXECUTION

Final Site Cleaning & Detailing Check

With our integrated workflow, every project undergoes a comprehensive inspection before handover.

All installations, furnishings, lighting, and finishing details are reviewed to ensure flawless execution aligned with the approved design.

The entire space is then deep cleaned from floors and ceilings to glass and built-ins leaving the site spotless and fully ready for client use from day one.

Custom Interior Production with nonstop operations

At UHS Indonesia, we ensure an accelerated and seamless workflow by integrating in house production with on site installation.

This seamless system accelerates timelines while maintaining strict quality control, ensuring exact craftsmanship and consistency.
