CLEAN

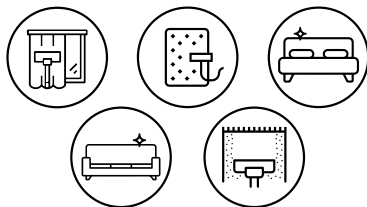

A minimalist interior scene. On the left, a long, white, slightly translucent curtain hangs vertically, its folds creating soft shadows. To the right of the curtain, a rustic wooden stool with three legs and a flat top stands on a light-colored wooden floor. The background is a plain, light gray wall. The overall lighting is soft and even, emphasizing the textures of the fabric and wood.

HAPPY FACES”**

ABOUT US

NSI Clean strives to deliver cleanliness at your convenience, applying the knowledge of home furnishings and decor being part of the NSI group.

We provide on-site interior cleaning services and laundry for residential and commercial spaces.

Ordering our services is easy and fast. Duration of completion of work depends upon type of service ordered.

While using commercial grade machines, we provide affordable prices when compared to similar companies.

We can achieve thorough cleaning results, paying attention to hidden or hard to reach areas (gaps in roller blinds, curtains, and sofas).

Services are carried out by technicians who are experienced and experts in their fields.

REMOVAL / INSTALLATION FEE

Rp 500,000 include:
 (Removal and installation before
 and after service)

FREQUENTLY ASKED QUESTIONS

Is the sound of the machine noisy?

It will be slightly noisy during the washing process, we do recommend you to make an appointment so we can work around your schedule to avoid any disturbance

Can stains on the sofa, carpet disappear or be completely clean and be like new again?

We can't guarantee that it will be like new again. However, it only depends on the type of stain and how stubborn the stain is. But we will definitely try to our maximum capacity

Is the material used safe?

We only use high quality soap, perfume and polish - prior to cleaning we will need to ask if you have sensitive skin or if there's any other specifications needed

For wide windows, do we accept washing on site?

Yes, with a maximum height of 3 meters we can do the cleaning on-site. All of this can be done with additional tools, such as scaffolding, long ladders, etc. (with an additional fee)

What is included in free light repairs?

We can help repair small fabric tears and replace minor window furnishing components

Will my furniture be taken to the workshop?

Our work includes cleaning and minor repairs on-site, such as if there is a torn pillow or a loose leg, it is done directly on the spot, however for more intensive repairs we need to take it to our workshop

My furniture is not located on the 1st floor and there is no place to dry it, will it take longer to dry?

After the cleaning process we will use a hot blower as a drying tool, this is safe to use indoors, so it will still dry, although it will be faster if exposed to direct sunlight

How long does it take for the process?

The duration of work depends on the difficulty of the material and stain, and the drying process. After washing you don't have to wait long as it only takes about 8-10 hours for your furniture to dry to the maximum.

Will any damage occur when cleaning the interior furnitures and window furnishings?

Before cleaning, firstly we will need to check whether we can work with the type of fabric and continue to do a patch test on a small surface
