B.Tech Electronics Engineering
Vishwakarma Institute of
Technology
2013-2017

CERTIFICATION

THE PROJECT MANAGEMENT
COURSE: BEGINNER TO PROJECT
MANAGER

2024
Udemy, Inc.

PROFILE

I am a Full Stack Developer with 6 years of experience, specializing in Angular, NodeJS, .NET Core, Java, Spring Framework, Azure, and IoT. I excel in improving system efficiency, leading agile teams, and delivering innovative, scalable solutions. My strong problem-solving skills and ability to collaborate across functions ensure high-quality results, consistently meeting project goals.

WORK EXPERIENCE

Team Lead

Trimasys Control Solutions, Pune

August, 2023 - Present

- Provide technical guidance, ensure code quality through reviews.
- Lead system architecture design and ensure scalable, efficient solutions.
- Project planning, resource allocation, and understanding customer requirements to ensure successful project execution and delivery.
- Maintain documentation, prepare project plan.
- Architected dynamic single-page applications with Angular, focusing on optimizing user experience and responsive design while integrating RESTful APIs for client-server communication.

Software Developer

Turck India, Pune

March, 2022 - August, 2023

- Contributed to R&D department, enhancing product functionality for Turck GmbH Germany
- Write clean, efficient, and maintainable code based on requirements.
- Developed dynamic web applications using Angular for front-end development, ensuring responsive design and a seamless user experience across devices.
- Implemented RESTful APIs with Node.js and integrated them into Angular applications, improving data flow and enhancing communication between front-end and back-end services.

Software Developer

Birlasoft, Pune

February, 2020 - March, 2022

- Developed and maintained back-end services using .NET Core, ensuring high performance and scalability in enterprise-level applications.
- Implemented RESTful APIs and microservices using .NET Core, providing seamless integration with front-end applications and third-party services.
- Enhanced application performance by using Entity Framework Core for data access, optimizing SQL queries, and reducing database load in MySQL.

Trainee Software Engineer

Tekdi Technologies, Pune

April, 2018 - February, 2020

- Worked on assigned tasks while understanding tools and frameworks used in the industry
- Continuously learned new technologies and improve programming skills
- Worked on Joomla and Wordpress CMS
- Created and modified extensions and plugins for Joomla using PHP
