

SHAMANIC DRUM MAKING WORKSHOP

A INTENSIVE DAY WORKSHOP NEAR PRAGUE
TO BIRTH YOUR OWN HEALING DRUM

A person is shown working on a wooden drum frame outdoors. The person is wearing a white long-sleeved shirt and is focused on their work. The drum frame is made of light-colored wood and is partially assembled. The background shows a natural setting with rocks and green moss. The text is overlaid on a semi-transparent white box.

Cédric Derouin , assisted by Angéline are honored to accompany you on the journey of making your own drum.

Supported by Nature, the ceremonial plant of Cacao, Chants and Rituals you will first connect intimately with your drum-to-be, with its very unique heartbeat.

You will then go through the different stages of the process using your hands, going from meeting & shaping the skin, to assembling, lacing, building the drum stick etc.

This is a self-transformative journey reconnecting with your Creative & Healing power through the Wisdom of Vibration.

Guided with Love, Patience & Devotion, this workshop welcomes all seekers ready to explore the path of the sacred drum.
