Good afternoon [REDACTED]

Thank you for your interest in Springfield 2051. While this project received some support from the government, philanthropic entities, business community, and nonprofit organizations, it is an initiative spearheaded by a coalition of citizens.

There are many ways to get involved throughout the process, and one of them is a community survey you mentioned. Feel free to participate by voicing your opinions, concerns, and aspirations by completing the survey. The survey is open until October 30th.

Again, thank you for reaching out. Below is a summary of the project's goals. Thanks, Marta

Springfield 2051 is a community building process that will result in a new roadmap for Springfield and Clark County. The 15-month project is being spearheaded by a coalition of citizens and supported by the state and local government, philanthropic entities, business community and nonprofit organizations. Springfield 2051 is guided by the expert team of Future iQ and is rooted in their people-focused, data-driven, future-oriented methodology.

Through the process of creating a new community roadmap we will:

- **Develop** an actionable implementation plan for our community.
- **Rally** around the important work already happening across Springfield and Clark County.
- **Unify** stakeholders and align resources throughout the Springfield area.
- **Co-create** bold, community-driven initiatives to shape our future.
