Reduce Your Procedure Costs

Increase per procedure profits: device requires only a low cost needle set, an off the shelf 5cc or 10cc syringe, and your biologic or serum of choice.

Increase Your Efficiency and Perform More Procedures

If you have had a PRP hair protocol in the past, chances are you didn't want to do another! Traditional RF, manual Injection, and/or microneedling are often VERY painful. With the mpgun, most patients feel minimal discomfort without the need of medications, nitros, messy numbing creams, etc. A typical hair treatment can be done in as little as 15 minutes.

is proud to be the **exclusive** provider of mpgun in the United States.
